RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "§."

American Railroad Journal.

Saturday, October 7, 1876.

Financial and Commercial Affairs.

The speculation in railroad shares has been excited; and on Monday there was a semi-panic in the coal stocks. The action of the Delaware, Lackawanna and Western Railroad Company, in passing its quarterly dividend of 2½ per cent, which it had been accustomed to pay in October, was supplemented on Monday by a severe decline in Philadelphia and Reading Railroad shares—from 25 to 19⅞—and at the same time the shares of the Pennsylvania Railroad declined to 46¼. Under these adverse influences, Delaware, Lackawanna and Western declined in this market to 64½ and Delaware and Hudson Canal to 61½. The decline that took place in Philadelphia is attributed to an anxiety on the part of large holders to sell, in anticipation of a decline that was believed to be inevitable, with the purpose of buying in at lower prices. This idea, and a demand to cover contracts caused, on Tuesday, an advance in the coal stocks of 2@3 per cent, but the market on Wednesday was feverish and irregular. Central of New Jersey has been strengthened by the denial of an application for a receivership, and by the promptness with which it met all its October obligations. The Western roads have been the object of attack from the bear party, but advanced sharply on Tuesday, with considerable excitement. A combination among the Southwestern roads to advance rates of freight gave the first impetus to the recovery of prices, to which an effort to establish more remunerative rates over the trunk lines, connecting the seaboard and the Great West, added vigor. On Wednesday, there was renewed excitement, growing out of a sharp

advance in Central of New Jersey and Delaware, Lackawanna and Western, in which the Delaware and Hudson partly shared, and the close for the coal stocks on that day was 6 or 7 per cent above the lowest figures on Monday.

The Philadelphia Inquirer has an article which, in view of the fact that that paper has more than once foreshadowed the action of the Pennsylvania Railroad Company, may be regarded as significant. In speaking of the duty of managers of great corporations towards their stockholders in times like the present, and referring by name to the Pennsylvania and the Lehigh Valley Companies, the Inquirer says: "Let these two companies boldly face the responsibility of their present position and that of this country, and strengthen themselves financially, by abandoning 8 per cent dividends and coming down to 6 per cent, with which all reasonable stockholders will be well satisfied in such times when there are so many investments which pay nothing whatever. A sufficient cause for satisfaction in the matter will be found in the feeling that there will be a reduced risk of final disaster to the principal itself. Surely no sensible stockholder who intends to hold his investment permanently would desire dividends which involved peril to his principal." This looks very much as if it was intended to prepare the public and the stockholders of these companies for a policy already determined upon.

In railroad bonds little change has taken place, but the monotony of the street has been relieved by a flurry in Ohio and Mississippi seconds, on Monday. It was observed that the payment of coupons was conducted with much deliberation (to discover, it was said, some bonds that had been stolen) and this circumstance excited suspicion, under which large amounts were thrown upon the market, and the price touched 50—there was, however, a quick recovery.

Gold was firm until Wednesday, when it declined to 109¾, but closed at 109⅞. The cable on Wednesday announced the withdrawal of £130,000 in gold from the Bank of England for shipment to New York. There was an advance of ½c in sterling exchange on Wednesday to $4 83½ @$4 84 for prime 60 day bills. This has been favored by the falling off in exports, owing to the speculative value at which many leading staples were held. The value of exports from New York for the week ending Oct. 3d, was 5,335,115, against $5,837,619 for the corresponding period in 1875, and $6,866,219 in 1874. The total exports of produce from this port since January 1, this year, were $201,853,014, against $191,280,300 for the corresponding period in 1875, and $224,828,723 in 1874.

The Portland and Rochester Railroad Co. failed to meet the semi annual interest due on the 1st inst. on $350,000 of first mortgage bonds.

Money has been spasmodic, but with a gradual hardening of rates. Domestic Exchange is against New York at nearly all points, and we are losing considerable amounts of currency. As high as 4 per cent on call was paid on Tuesday, but the close on Wednesday was at 3 per cent. The danger of a general European war begins to exert an influence in our financial circles.

Much dissatisfaction is expressed on the other side because of the delay in funding the old Louisiana State bonds, some $2,500,000 of which are now in New Orleans awaiting the action of the funding board. It is hoped that the interest upon these bonds which has been accumulating for 2½ years, will soon be paid.

Business continues to improve. A telegram from Wilkesbarre, Penn., dated October 2d, informs us that the Lehigh and Wilkesbarre Coal Company have resumed work with a full force of 15,000 hands. Iron manufacturers on the Lehigh have made large purchases of coal and are putting their furnaces in full blast. The export demand for breadstuffs has become very active at advancing prices, and many articles of provisions are higher. Cotton has declined, notwithstanding the frost accounts from the South. Increased shipments have led to a material advance in ocean freights.

The first session of the American Mining Board was held in their new office corner of Pine and Nassau streets on the 2d inst. Wm. Ward, president, made an address. The dealings of the board will be confined to mining, petroleum and manufacturing stocks. It has now 235 members, and 200 more will be added. The income of the board the first year will be about $24,000. The list, comprising fifty mining companies, was called, and a number of sales made. A rule was adopted by the board fixing all the transactions on a currency basis.

The official record of transactions at the Stock Exchange for the month of September, shows a total in shares of 379,037,500; railroad and State bonds 4,036,000; United States bonds, 2,742,800.

On Wednesday Government bonds closed at the following quotations: United States currency sixes, 124½@125; do. 1881, registered, 116½@117; do. coupon, 117¼@117⅝; do. 1865, registered, 109½@110; do. coupon, 112⅞@113; do. new, registered, 112½@112¾; do. coupon, 112½@112¾; do. 1867, registered, 115¼@115½; do. coupon, 115⅝@115½; do. 1868, registered, 117¼@117¾; do. coupon, 117¼@117¾; do ten-forties, registered, 114@114¼; do. coupon, 114¾@115¼; do, fives, 1881, registered, 114⅛@114¼; do., coupon, 114⅛@114¼; do. four and one-half, 110⅞@111⅛.

☞ The new Midland Railroad Company, composed of gentlemen interested in the proposed narrow gauge railroad from Boston to Haverhill via Lawrence, has been organized, by the election of a board of directors with James F. Emerson, of Wakefield, Mass., as President, and Geo. O. Carpenter Clerk and Treasurer. It is proposed to build the road only to Reading at present.

☞ Messrs. McCalmont Brothers & Co., London, will pay the sterling coupons due 1st October, and the bonds drawn for payment of the Philadelphia and Reading Railroad Improvement Mortgage bonds at their office on and after that date.

☞ Messrs. J. S. Morgan & Co., London, will pay the coupons due 1st October on the Allegheny Valley Railroad Company's bonds (guaranteed by the Pennsylvania Railroad Company), negotiated through them, at their counting-house on and after the 2d of October.

Railways in India.

According to the report of Mr. Juland Danvers, Government Director of Indian Railways, there has been spent up to the present time a total guaranteed capital of about 94 millions sterling, at the cost of which a length of 5,694 miles has been opened to traffic, while 505 more are under construction. The direct State outlay has meanwhile amounted to 12 millions, for which 803 miles have been opened, while 2,413 more have been sanctioned. The principal additions to the length of open railway made during 1875 were, in the Punjab, 62 miles of the temporary narrow gauge line from Lahore to Wazirabad which will eventually be replaced by a permanent one on the broad gauge now being constructed by the side of it; and in Madras, the extension of the south Indian railway for 97 miles from Trichinopoly to Tuticorin; while in Rajputana further portions of the State line from Agra to Nusseerabad, and of Holkar's line from Indore to Khundwa, were completed. A short narrow gauge line of 30 miles from Mutthra to Hathras was constructed at the expense of the local revenues; and on the Oude and Rohilkund line the important bridge across the Ganges at Cawnpore, which connects the Oude system with the East Indian railway, was finished.

☞ A dispatch to the N. Y. Sun from Harrisburg, Penn., says the contracts for the pipes through which oil is to flow to the seaboard have been given out. The line will have a capacity equal to one-fourth the present production, or about 30,000 barrels a day. Mr. Henry Harley, president of the Pennsylvania Transportation Company, says that it is proposed to borrow from manufacturers the entire capital for the project, and $200,000 more, the $200,000 to be expended in paying the debt that the existing company is unable to pay. The company will require 286 miles of four inch pipe. The work is to be completed by the first of December next.

☞ The Cumberland Valley Railroad Company has declared the usual quarterly dividend of 2½ per cent. At a meeting of the directors, held in Philadelphia on the 27th ult., they refused to hear an argument of the attorney of the Harrisburg and Potomac Railroad pertaining to the connecting of the two roads, as the question had already been determined by them.

☞ The Baltimore City Passenger Railway Company have declared a quarterly dividend of 75 cents per share, payable October 6. There are 40,000 shares of stock, and $30,000 will be paid to stockholders. On July 1 a dividend of $1 per share was declared, and a like dividend last January.

☞ The proposition to subscribe $100,000 to the Washington, Cincinnati and St. Louis railroad will be voted on by the people of Rappahannock county, Va., on the 14th of October. Page county, on a similar proposition, will vote on the 17th of the same month.

☞ A loan of the State of Massachusetts of $8,000,000, for the building of two lunatic asylums—one at Danvers, the other at Worcester—has been awarded to Kidder, Peabody & Co., at 113.29. The bonds will run 20 years, and bear 5 per cent interest.

FISK & HATCH,

Bankers,

No. 5 Nassau St., New York.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

Improvement in Railroad Traffic.

There has been a marked increase during the past two months in the amount of freight received and shipped over the lines of the several trunk railways running out of this city. The tonnage carried within the time mentioned is much greater than that transported during the corresponding two months in 1875, and appearances indicate that business will continue to improve during the Fall. At the different freight depots throughout the city the great increase in the traffic is made apparent by the large number of loaded trucks and drays standing in line near the entrances, and the utmost activity on the part of the railroad employees is necessary to receive and stow the goods in cars in order to get them off in time to make room for others. The officers of the different roads all express themselves as being highly gratified with the improvement in trade, which they say is an evidence of the beginning of prosperity throughout the whole country.

☞ The Alabama and Chattanooga Railroad was sold at auction on the 4th inst. at Mobile, for $310,000 to A. P. Balch, representing the holders of the certificates issued by the receivers appointed by Judge Bradley, of the United States Supreme Court.

☞ B. E. Smith, trustee of the Consolidated European and North American Railway, has given up the road to the trustees of the second mortgage bonds—Hannibal Hamlin and W. B. Hayford.

☞ For the month of September the earnings of the Chicago, Milwaukee and St. Paul Railway show a decrease of $95,056; but for the nine months ending September 30, an increase of $254,442.

☞ The Philadelphia, Newtown and New York Railroad was sold at auction on the 4th inst. to Isaac Eyre, of Newtown, Pa., acting under a power of attorney for a committee of bondholders, for $10,000.

☞ There was a decrease in the earnings of the Ohio and Mississippi Railroad in September of $10,941 07; but an increase for the nine months ending September 30, of $269,081 96.

Railroads in South Africa.

A line of railway, 120 miles in length, has been opened between Cape Town and Worcester. It s an extension of the Cape Town and Wellington Railway, purchased by the Government some years ago, and part broad and part narrow gauge. It is intended eventually to make the whole line of the latter description. Railway work in other parts of the colony is being vigorously prosecuted; 65 miles of road are nearly complete on the Eastern line from Port Elizabeth; 60 miles on the border line, from East London, will be ready by the end of the year, and a similar distance on the Midland line will shortly be finished. The estimated cost of the new works was about $30,000 per mile, but this has been exceeded by as much as $3,500 per mile in some cases, the increase being accounted for chiefly by the deficient supply of labor, enhanced rate of wages, and high cost of provisions.

Statement of the Public Debt of the United States, October 1, 1876.

4 to 6 per cent. old debt, 1837	$57,665 00	$64,174 81
5 per cent. Mexican indemnity stock, 1846	1,104 91	85 74
6 per cent. bonds, 1847	1,250 00	22 00
6 per cent. bounty land scrip, 1847	3,400 00	216 55
5 per cent. Texas indemnity bonds, 1850	21,000 00	3,045 00
5 per cent bonds, of 1858	8,000 00	
5 per cent. bonds, 1860	10,000 00	600 00
6 per cent. 5-20 bonds, called 1862	844,050 00	1,377 51
6 per cent. 5-20 bonds, called June, 1864	936,550 00	27,196 91
6 per cent. 5-20 bonds, called 1865	127,000 00	2,358 43
1-10 to 6 per cent. treasury notes, prior to 1846	82,575 35	2,670 76
1-10 to 6 per cent. treasury notes, 1846	6,000 00	206 00
6 per ct. treasury notes, 1847.	950 00	57 00
3 to 6 per cent. treasury notes, 1857	1,900 00	105 00
6 per ct. treasury notes, 1861.	3,100 00	372 00
7 3-10 per cent. 3 years' treasury notes, 1861	17,050 00	1,198 43
5 per cent. 1 year notes, 1863.	59,625 00	2,993 35
5 per cent. 2 year notes, 1863.	42,550 00	2,576 75
6 per cent. compound interest notes, 1863-64	312,600 00	64,223 62
7 3-10 per cent. 3 years' treasury notes, 1864-65	181,300 00	12,643 41
6 per cent. certificates of indebtedness, 1862-63	5,000 00	313 48
4 to 6 per cent. temporary loan, 1864	3,060 00	256 06
3 per cent. certificates called.	5,000 00	394 31
Aggregate of debt on which interest has ceased since maturity	$2,736,530 26	$157,086 12

DEBT BEARING NO INTEREST.

Demand notes, 1861-62	$46,732 0	
Legal tender notes, 1862-63	368,494,740 00	
Certificates of deposit	34,520,000 00	
Fractional currency, 1862-3-4	29,858,415	
Coin certificates, 1863	29,777,900	
Unclaimed interest		21,704 84
Aggregate of debt bearing no interest	$462,717,788 12	$21,704 84

RECAPITULATION.

	Amount Outstanding.	Interest.
Debt bearing interest in coin, viz:		
Bonds at 6 per cent	$984,999,650 00	
Bonds at 5 per cent	712,320,450 00	
	$1,697,320,100 00	$26,812,436 41
Debt bearing interest in lawful money, viz:		
Navy pension fund, 3 per cent.	14,000,000 00	105,000 00
Debt on which interest has ceased since maturity	2,738,530 26	187,086 12
Debt bearing no interest, viz:		
Old Demand and legal-tender notes	$368,561,472 50	
Certificates of deposit	34,520,000 00	
Fractional currency	29,858,415 62	
Coin Certificates	29,777,900 00	
	$462,717,788 12	
Unclaimed interest		21,704 84
	$2,176,776,418 28	$27,126,227 37
Total debt, principal and interest, to date, including interest due and unpaid		$2,203,902,645 75

AMOUNT IN TREASURY.

Coin	$64,591,124 43
Currency	12,524,945 53
Special deposit held for redemption of certificates of deposit as provided by law	34,520,000 00
	$111,636,069 96
Debt, less amount in Treasury, Oct. 1, 1876	$2,092,266,575 79
Debt, less amount in Treasury, on the 1st ult.	2,095 181,941 14
Decrease of debt during the past month	$2,915,365 35
Decrease of debt since June 30, 1876	7,172,769 20

BONDS ISSUED TO THE PACIFIC RAILROAD COMPANIES, INTEREST PAYABLE IN LAWFUL MONEY.

	Amount Outstanding.	Accrued Interest not paid.
Central Pacific bonds, 1862-64	$25,885,120 00	$388,276 80
Kansas Pacific bonds, 1862-64	6,303,000 00	94,545 00
Union Pacific bonds, 1862-64	27,236,512 00	408,547 68
Central Branch Union Pacific bonds, 1862-64	1,600,000 00	24,000 00
Western Pacific bonds, 1862-4	1,970,560 00	29,558 40
Sioux City and Pacific bonds, 1862-64	1,628,320 00	24,424 80
Totals	$64,623,512 00	$969,352 68

Interest paid by United States, $32,080,218 42; interest repaid by transportation of mails, &c., $6,950,393 84; balance of interest paid by United States, $25,125,824 58.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, September 30, 1876.

LOT M. MORRILL,
Secretary of the Treasury.

☞ The Asiatic Telegraph Company, chartered by the last Congress, propose to complete the last link in telegraph communication around the world by laying a submarine cable in the Pacific Ocean to communicate with Asiatic and American lines. The company is required to begin to lay the line within three years from August 15 last. The terms of the act, the written acceptance of which has already been filed with the Secretary of State at Washington, exact equal privileges with foreign governments and citizens.

☞ Celso Cæsar Moreno, on behalf of himself and fellow corporators, filed at Washington on the 26th ult., in accordance with the law of Congress granting them a franchise for telegraphic communication between America and Asia, a written acceptance of the terms and conditions as imposed by that law in the office of the Secretary of State.

☞ Tests were made at Frederick, Md., last week, of a Silsby fire engine, of Seneca Falls, N. Y., and a La France engine, of Elmira. The "Silsby" was then purchased by the Junior Fire Company of Frederick.

☞ Capt. Celso Cæsar Moreno, projector of the Asiatic cable line, has left Washington for the Pacific coast, to commence operations.

Columbus and Toledo Railroad.

The Toledo Journal says that the iron on the Columbus and Toledo Railroad is laid between Carey and Fostoria, and with the exception of a single gap or two, cars could now run from Fostoria to Delaware. The track is completed between Delaware and Columbus. North of Fostoria eight miles of iron are already down, and it is thought the track will reach Bradenr, six miles south of Pemberville, in a week or ten days. The remaining distance to Toledo is rapidly being made ready for the iron.

☞ The whole line of the Pennsylvania Railroad, between New York and Philadelphia is being ballasted with broken stone. The ballasting has now been completed from East Newark to Hackensack bridge. The stone is screened after it is broken, and laid upon the road bed to the depth of about four inches, and also on either side of the tracks, no dust whatever being created by passing trains. The tracks as far as New Brunswick it is expected will be completed by the 1st of November.

☞ The Jersey City and Albany Railroad, extending from Jersey City to Tappantown, N. Y., has suspended operations and no trains are now running on the road. After the road had been completed to Tappantown it became financially embarrassed and the original intention of building it to Albany could not be carried out. During the past few months the Summer travel was sufficient to pay expenses but since that fell off the receipts were so small that it was deemed advisable to suspend operations.

☞ A new treaty has been concluded between Great Britain and the authorities at Pekin, which opens up four additional ports to Western commerce. One of these ports, it would appear, is within twenty miles of Nankin, on the Yahgtsae, and also within easy access of the grand canal leading to Pekin. The advantages will accrue to us equally with England, whatever they may be, by virtue of the "favored nation" clause in the treaty negotiated with Minister Reed in 1856.

☞ At a meeting of the directors of the Western Maryland Railroad Company held in Baltimore on the 26th ult., it was stated that new steel rail had been laid for a mile west of Fulton station. The old track is being used for repairs along the road. It is designed eventually to displace the iron with steel rail along the whole route. J. M. Hood is President of the company, and J. S. Harden Secretary.

☞ An official return shows that at the close of June, 1876, France had 12,569⅜ miles of line in operation. New French lines were opened in the twelve months ending June 30, 1876, to the aggregate extent of 453¾ miles.

☞ Among the recommendation of awards approved by the Centennial Commission, is the Lobdell Car Wheel Company, Wilmington, Del., for chilled cast iron wheels for tramway and for railway cars and locomotives.

☞ The sale of the Wilmington and Reading Railroad, which was to have taken place on the 2d inst., has been postponed until the 1st day of November.

The Coal Trade.

The coal tonnage for the week ending on the 23d ult., as reported by all the companies, amounted to 450,048 tons, against 568,226 tons in corresponding week last year, a decrease of 118,178 tons. The total amount of anthracite mined for the year is 11,813,101 tons, against 14,036,050 for same period last year, a decrease of 2,229,949 tons. The quantity of bituminous coal sent to market for the week was 69,301 tons, against 91,912 tons for corresponding week last year, a decrease of 22,611 tons. The whole bituminous tonnage from the beginning of the coal year is 2,602,063 tons, against 2,708,966 tons in corresponding time last year, a decrease of 106,903 tons. The total tonnage of all kinds of coal for the week is 519,349 tons, against 660,138 to corresponding date last year, a decrease of 140,789 tons, and the total tonnage for the coal year is 14,416,164 tons, against 16,745,016 tons to same date last year, a decrease of 2,329,852 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 98,372 tons, of which 84,654 tons were coal and 13,718 tons coke. The total carried this year is 3,155,068 tons, of which 2,518,553 were coal and 636,572 coke. This total embraces all the coal carried over the road, east and west. The total of coal received from the Lehigh Valley Railroad at Perth Amboy for the week ending on the 23d ultimo was 19,158 tons, the amount shipped thence amounting to 22,167 tons, leaving 73,199 tons on hand.—*Phila. Ledger, Oct.* 2.

☞ During the year ending June 30, 1876, the total number of immigrants arrived into the United States was 169,986, of whom 111,786 were males and 58,200 females. Of this number 27,875 were under fifteen years of age, 121,734 fifteen and under forty years, and 20,377 forty years of age and upward. The total number of immigrants arrived in 1875 was 227,498; in 1874, 313,339; in 1873, 459,806; and in 1872, 404,806.

☞ The officers of the Gold and Stock Telegraph Company, elected on the 29th ult., are: William Orton, President; George Walker, First Vice President; George B. Prescott, Second Vice President; James D. Reid, Secretary; R. H. Rochester, Treasurer; J. B. Van Every, Auditor.

☞ The wool exported from New Zealand in 1875 reached nearly 54,500,000 pounds weight, of the declared value of £3,398,155.

Southern Railroads.

The railroads of the older Southern States have had a hard time of it. Nearly ruined by the exigencies of war, rebuilt under peculiar difficulties, and, later on, plundered by politicians, they encountered, when one after another of their local disasters had been overcome, the blight of the panic of 1873, and the effect which it produced, not only upon railroad earnings, but upon railroad credits and the prosecution of railroad building. Cases of default in the interest upon bonds, and complete bankruptcy, have consequently been very numerous among them; and the future of the railroad system of that section must now be a subject of anxiety, from a variety of causes. In the first place, the cotton-growing district alone is equal in area to Great Britain, France, Italy and Spain, with scarcely more than one-tenth of the population. It is necessary, therefore, that roads connecting the larger towns should be built for long distances through districts sparsely settled, if at all, and affording at best only the most meagre and temporary employment to such means of transportation. Besides the conformation of a large portion of the Southern States, being either marshy or hilly, has made railroad building expensive. The almost exclusive devotion of the South to agriculture is another drawback to the prosperity of her railroads, which is extensified of late by the effort to grow such a variety of crops as will relieve the planter of the necessity of buying corn and meats at the West, and of course the employment of railroads in transporting food. In the Southwest, or more accurately, the lower valley of the Mississippi, water communication comes into active competition with the railroads, and usually, too, when the heaviest part of the year's work is to be done—in the autumn and early winter months, when the cotton crop is being forwarded to market.

The railroads of the Atlantic States of the South encounter little competition from steam navigation, nor, in fact, of any sort; and they are therefore enabled to charge high rates for passengers and freight; but it is doubtful whether this exemption from competition, and these high charges, are of benefit to them. The success of a railroad depends upon its connections. It had better encounter opposition and rivalry, than lack connections that will stimulate business.

What is needed, therefore, at the South, to make even existing railroads remunerative, is an intelligent and vigorous prosecution of a railroad system, that will develop its resources and capacities. Railroads are now an essential to civilized life, and no man, who has once enjoyed their advantages, will penetrate a hundred miles from one, as he may do in the Gulf States. And does not this make it plain that Government aid to railroads should no longer be applied to the dispersion of our population, but to the building up and the development of the older communities? Is it wise to devote a whole section to a prolonged condition of semi-bankruptcy in order that distant wilds may be "opened up," to be in turn deserted?

Krupp's Exhibit at the Centennial Exhibition.

A fine display is made by Germany in Machinery Hall near the eastern end of the building and on either side of one of the principal avenues.

Although several large and important establishments are represented in the display, that of Frederick Krupp, of Essen, the famous gunmaker, is the largest and attracts the most attention. Mr. Krupp has set out for the use of visitors descriptions in five languages of his great establishment and of his exhibits at the Centennial Exhibition. We condense from the pamphlet a brief account of the firm's works and of the exhibits. The cast steel manufactory, near Essen, was established in 1810. It was conducted by Albert Krupp from 1826, and was taken over by him on his own account in 1848.

The articles manufactured are axles, tires, wheels, and crossings for railways; rails and springs for railways and mines; shafts for steamers, different pieces of machinery, boiler plates, rolls, spring-steel, tool steel, guns, gun carriages, shot, etc. The establishment has over 1100 furnaces of different kinds, 275 coke ovens, 264 smiths' forges, 298 steam boilers, 77 steam hammers, of from two to 1000 hundred weight each, 18 rolling trains, 294 steam engines, of from two to 1000-horse power each, giving a total of 11,000-horse power and 1063 machine tools; 612,000 tons of coal and coke were consumed in 1875. The works have 24 miles of usual gauge railway, with 14 locomotives and 537 cars, and 11 miles of narrow gauge railway, with 10 locomotives and 210 cars. The carriage department also includes 214 wagons and 80 horses. The works also have 37 miles of telegraph lines, having 31 stations, with forty five Morse apparatus, and 13 stations with inductors for the railway traffic. The firm has organized a chemical laboratory, photographic, lithographic, and printing and book binding establishments. General supply stores, where provisions, &c., are sold to the workmen for cash at cost prices, are under control of the firm. These stores take in about $67,500 monthly. Under the same head are also classed a hotel, three beer houses, one Seltzer water manufactory, a flour mill, a bakery and slaughter house. 3277 houses

are inhabited by the officers and workmen, an boarding houses offer board and lodging to 2500 unmarried workmen. This immense establishment employed in April of this year 10,500 work men, who have sick and burial funds to which the firm contributes one-half the amount paid by the members, and a fund which provides for the medical treatment of a family for one year for one dollar. Hospitals, schools, &c., are also maintained by the firm.

Besides the great steel works above described, the firm owns and operates 4 coal and 414 iron ore mines and 5 smelting works, in which 5000 workmen are employed, and possesses important concessions in other mines. For the importation of ores from mines the firm possesses four steamers, of 1700 tons carrying capacity. In the dwellings attached to the mines and smelting works there are living 3200 individuals. The firm also has proof butts for testing guns and carriages at Essen, and a range near Dulmen, in Westphalia, 4⅔ miles in length.

The exhibited articles are, from their great size, in harmony with the extensive works above described. That which attracts the most attention is the great gun on coast carriage. This is 26¼ feet long, with a calibre of 14 inches. The weight of charged steel shell is 1,127 pounds, of chilled iron shell 1,160 pounds, or of a common shell 906 pounds. The charge of prism. powder is for either of the first two shells 276 pounds, or for the common shell 243 pounds. The carriage is provided with hydraulic buffers to check the recoil and automatic apparatus for running out the gun after the discharge. The projectile is raised to the gun by a movable crane. The gun and carriage weigh 91½ tons, the gun without the carriage weighing about 57½ tons. Another gun on coast carriage is about 17 1-6 feet long, and 9½ inch calibre. It throws a shell weighing about 350 pounds. Three field guns with carriages, two mountain guns, the saddles and harness for the smaller mountain gun, and a collection of shot are also exhibited.

The exhibit of forgings by the firm of Fried Krupp is also interesting. The largest of these is a shaft with three cranks and coupling flange, forged under a steam hammer of fifty tons weight, from a solid cylindrical block of crucible cast steel of about thirty tons weight. It is intended for the 2500-horse power engine of an iron-clad now being built for the German navy, and is exhibited in the forged state. A double crank shaft, for a transatlantic steamer, is finished, and is about two-thirds the weight of the first. Locomotive, tender and carriage axles, some of them forged complete under the hammer, piston rods, coupling bars, &c., are also exhibited. An axle box for locomotives, a cylindrical flange for gun carriages, and crank pieces, with spokes, for locomotives, are made of wrought iron under a hydraulic press of 1,760,000 pounds pressure. Five tires of crucible cast steel are exhibited.

A set of car wheels, mounted, tires and axle of crucible cast steel, disc of pressed crucible cast steel plates; also two wheels of wrought iron, made by coiling a wrought iron band of different widths, the one width forming the nave, the other the disc, and the last the rim of the wheel. A crossing for railways of crucible steel cast in a mould, a large collection of axles, wheels, rails, springs, switches, &c., for railway and mining uses, are also exhibited. Two boiler plates are shown, one of wrought iron cut to 23½ feet in length by 6 feet 2 inches in width, and the other of crucible cast steel, untrimmed, 29 feet 11 inches in length and 5 feet 6 inches in width. They are each 9-16 of an inch thick. A fine display is made in a glass pyramidal case of ores, pig iron, steel, &c. from the mines and blast furnaces of the firm, and of the fractures of hardened tool and file steel and of manufactured articles.

Just outside of the enclosure containing these exhibits, two models of a newly invented gun are shown. The muzzle of the gun forms the ball of a ball and socket joint, of which the port hole is the socket, so that the gun is practically pivoted at its muzzle and closes the port hole completely. The gun may, of course, be elevated at will or pointed at any lateral angle.

The American office of these works is at 15 Gold st., New York, represented by THOS. PROSSER & SON.

Georgia Railroad and Banking Company.

The earnings of this road for the years ending March 31, 1875 and 1876, were as follows:

	1875.	1876.
From passengers....	$272,487 76	$245,119 53
" freight.....	983,864 52	920,911 60
" mails.....	25,554 96	28,292 94
	$1,281,907 24	$1,194,324 07
Expenses, viz:		
Conducting transp...	$230,455 94	$163,014 08
Motive power.....	283,991 28	228,714 18
Maintenance of way.	243,094 98	197,018 38
Maintenance of cars.	68,555 70	52,931 35
	$826,097 90	$641,677 98
Net earnings....	$455,809 90	$552,646 14

Compared with the previous year the gross earnings of 1876 show a decrease of $87,583 17, with a decrease in expenses of $184,419 97, making an increase in the net earnings of $96,836 80. The President in his report says:

By a very brief report of the Superintendent, with reports of sub-officers attached, you will see the results of the road operations for the last fiscal year; and by the annexed statement of the cashier, you will see the financial condition of the company. Though these exhibits are not very encouraging, yet, under all the circumstances, they are perhaps as much so as the stockholders had any reason to expect. In the reported operations of railroads in the last two or three years, especially at the South and West, there is one feature very common to all; reduced business by the poverty of the people, or reduced receipts from a ruinous competition. The net profits of railroad property are not unfrequently affected by a combination of both these causes.

The Superintendent appears to be hopeful, and when we consider the large expenditures necessary for the restoration of property, in addition to ordinary expenses, the showing is certainly a good one; but he feels it a duty to remind you, that the expenses of the past year were a good deal relieved by extra outlays for new machinery and rolling stock provided in the year preceding. It is also well in this connection to be reminded, that the damage from the late disasters from fire and flood, on the Oconee, will be charged upon the business of the current year. It is well to keep these facts in view, that we may not be misled by hasty conclusions, and build hopes on the future which may not be realized.

The board has no wish to speak despondingly, or discourage the stockholders with a gloomy prospect in the future, but it cannot be ignored, and need not be denied, that the present and early future of the railroad interest, especially South and West, is very discouraging. This is everywhere seen and everywhere felt; and as it is occasioned by one general cause, and extends to all industrial interests, the truth of the sentiments expressed in a late report of one of our neighboring institutions will be generally acknowledged: "It has been a year of unusual hardship upon the railroad interests of the country—ever responding in quick sympathy to unfavorable conditions of other industries." The railroad interest is not an isolated interest. There is no interest more dependent upon the prosperity or depression of other interests. It can only prosper in smypathy with other interests, upon whose prosperity it is mainly dependent. There is one position assumed by the Superintendent now very common with other roads, and to which the board most heartily responds: reduced receipts must be met by reduced expenses, which can only be secured by close management and the most rigid economy, and a ready and reasonable co operation by the employees, which, to their credit, has always been readily yielded in all similar emergencies.

The heavy expenditures forced upon the company for many years, for restoration of property, damaged or destroyed by the devastations of war, are near a final close, and may hereafter leave net profits more freely at the disposal of the company. This has been an expensive job, and has been met from income and the fragments of the old reserved fund, and without incurring any debt. We have suffered much from the insolvency or bad faith of other roads, and especially of connecting roads. Danger of this is inevitably incident to the modern expedient of uniting separate roads, into long through lines, to cheapen transportation for the benefit of the consumers. So long as the different sections cannot, or will not, produce their own supplies, the policy is of great benefit to the consuming classes. But this favor is not always appreciated, and it must be confessed that the policy has been sometimes carried too far. It is believed that the principle of discrimination on through freights is correctly explained in the report of 1873. It is by no means certain that it would not be better for the railroad interest, if every road were confined strictly in its operations to its own chartered limits. But unfortunately, by a speculative mania, and the pernicious and wasteful policy of State aid, other lines may be organized around us, and we cannot afford to be thrown off the thoroughfare. Hence the necessity of trusting many that are not trustworthy, and strengthening the weaker links in the line to preserve the integrity of the whole.

It will be recollected, that it has been the policy of the company since the war to charge all expenditures for and on account of road, and especially expenditures for restoration of property, to profit and loss, so that nothing should appear as an asset which could not be separated from the road and outfit, and made available for payment of debts or dividends. The profit and loss account, and the list of assets also, have been carefully examined, and as near as may be, the assets are placed at their real value; some perhaps overvalued, but compensation will be found in an undervaluation of others. The appended statement therefore, it is believed, presents a tolerably fair estimate of the true condition of the company and its resources.

Our showing is better than some others subjected to similar sacrifices, from having made no sacrifices in financiering. The war left us slender resources, and we have had frequent occasions to raise money; but neither in original loans or renewals have ever sacrificed anything in discounts or extra interest. So much for the present and past. The future rests on too many contingencies for rational speculation. Many view the business outlook as closely allied to the political, where "there seems no settled purpose, no definite object of hope, but an uneasy waiting for a doubtful future."

The company have 49 locomotives, 28 passenger, 11 baggage, 8 mail, 3 express, 537 box, 22

car, 127 platform, 64 stock, 65 coal, 22 sheep, 1 pay and 2 wood cars. Miles run by locomotives, 1,083,446, against 1,140,269 in 1875, a decrease of 56,823. Miles of road in use, 231. Bales of cotton transported, 206,255. Bushels of grain, 1,366,897. Barrels of flour, 126,648. Pounds of guano, 57,094,045. The operating expenses were 53.76 per cent of gross earnings. The Superintendent in his report says:

From the foregoing you will perceive that the gross earnings of the road for the fiscal year ending March 31st were $1,194 824 07. After paying all expenses the net is $562,846 14. In the general depression of business all through the land, the above statement is very gratifying to the officers of the road, and should be to the stockholders of the company.

The future prospects of your road are not gloomy, and with close and economical management we can see nothing that will prevent the company hereafter from continuing to pay their regular dividends to its stockholders, when they are so much needed by those owning the property, and when nearly all other interests are suffering, and it is almost impossible for any persons to invest their money where they can get a safe stock, and one that will pay something on the investment. We may next year have lighter gross earnings than the year just passed, but if the earnings are less, then the expenses must be reduced in proportion to the reduction in the gross earnings.

It is not desirable to do a large increase of business unless it can be done at remunerative rates to the company. At certain seasons of the year the competition is so strong that rates are forced down to a point where it is a loss to the company instead of a profit. In such cases it is best to refuse the business rather than work at a loss. In making this showing it may not be amiss to remind the stockholders that it has not been done at the expense of the track and rolling stock. From the report of the Road Master you will perceive that the track is in better order than at any time for many years, and he feels satisfied that there will be no difficulty in being able to keep it in fine order, so that quicker time may be made over it.

The Road Master reports that during the year there have been laid 2,134 $\frac{532}{2240}$ tons of new rails, which has laid 23¾ miles of new track; 904 old rails have been repaired at repair shop, which has laid 1½ miles. By using the ratchet drill, 2¼ miles of the old clamp track have been changed to a fish bar track. The small flange iron on the Athens branch has been taken up, and has been replaced with other rails from the main line; 97,411 cross-ties have been put in the track during the year.

The Master of Machinery reports the engines in good order, but during the year it may be necessary to purchase one passenger engine, to replace the one which exploded a few months ago at Barnett. In order to shorten our running time for passenger trains, it has been in contemplation to change our passenger engines into coal burners, which would enable us to reduce the running time between Augusta and Atlanta at least 30 minutes. We have already changed two engines to coal burners, and our Master Machinist reports that both give entire satisfaction.

There is one important point which the stockholders must not overlook in our working expenses this year compared with the previous one. By referring to the last annual report of the General Superintendent you will perceive that during the previous year there were paid for new engines and new cars about one hundred and five thousand dollars, and on account of so large a number of cars in good order, and engines on hand, it was not necessary this year to purchase any engines or cars; also, a reduction of 12½ per cent was made on the wages of all employees of the company, on the 1st of April, 1875, which has added very much to the reduction in expenses of the road during this year.

The Master Car Builder reports that the cars of the company are in good order, and that he is building two new sleeping cars, which will soon be put on the road, and which will not only add to the revenue of the company, but to the comfort of the traveling public.

The earnings of the Macon and Augusta Railroad were $108,090 68, the expenses $94,854 85, and the net profits $13,235 83.

The following is a condensed statement of the condition of the Georgia Railroad and Banking Company on 31st March, 1876:

The road and its outfit		$4,158,000 00
Real estate		124,899 78
Banking house and lot		85,000 00
Material on hand for road		59,063 60
Road expenses	$743,146 68	
Interest on bonds	89,060 00	
Incidental expenses and salaries	16,804 48	
Taxes	2,146 89	
Attorney's fees and costs	4,937 00	
		805,592 05
Stocks of other companies		595,000 00
Bonds of other companies		117,760 00
Western Railroad of Alabama, half-interest		856,128 51
Bills receivable		28,178 71
Macon and Augusta Railroad Co.		195,899 19
Port Royal Railroad Co.		98,417 93
Western Railroad of Alabama, coupon account	$64,040 00	
Less paid by W. R. R. Co.	50,000 00	
		14,040 00
Assessment on stock		207 50
Cash		69,888 78
		$6,650,586 00
Capital stock		$4,200,000 00
Profit and loss		326,405 67
Income of road	$1,306,250 92	
Dividend on stock	48,982 87	
Interest	35,757 78	
Rent	93 25	
		1,891,044 82
Bonds of this company		544,500 00
Unpaid dividends		37,540 89
Due to other corporations, etc.		2,071 69
Completion of Macon and Augusta R. R.		71,000 00
Bank notes of this Co.	977,213 18	
Transp. office change bills	460 25	
		77,673 43
		$6,650,586 00

President.—John P. King.

Directors.—John P. King, E. E. Jones, James W. Davies, James S. Hamilton, Stevens Thomas, M. P. Stovall, Antoine Poullain, Geo. T. Jackson, L. M. Hill, Josiah Sibley, D. E. Butler, George Hillyer, John Davison, Wm. M. Reese, Wm. W. Clark, Chas. H. Phinizy, John H. James.

Superintendent.—S. K. Johnson.

Cashier.—Geo. P. Butler.

Brattleboro' and Whitehall Narrow Gauge Railway.

The Rutland *Herald* says a movement has been in progress for some time, with little doubt of ultimate success, for the construction of a narrow gauge railway between Brattleboro', Vt., and Whitehall, N. Y. The route of the line is from Brattleboro' up the valley of West River through the towns of Dummerston, Newfane, Townshend, Jamaica and Londonderry, crossing the Green Mountains to Wilmington, and then through the towns of Manchester, Dorset, Rupert, Pawlet and Granville, N. Y., to Whitehall. An engineer pronounces the route entirely feasible, and estimates the cost at $15,000 per mile. The distance is eighty miles. Judge Wheeler of the Supreme Court, Hon. M. G. Colburn of Manchester, Hon. B. D. Harris of Brattleboro', A. P. Graham, Esq., of Wilmington, Hon. H. G. Bartlett of Whitehall and other leading gentlemen are interested in the construction of the road.

Southern Pacific Railroad in California.

A correspondent writing from Los Angeles (Cal.) says that the Eastern terminus of the track of the Southern Pacific in 600 miles distance, from San Francisco is as far east, in longitude, as Ogden on the Central Pacific, which is the same distance by rail. Seven hundred miles more will carry the Southern Pacific to the western border of Texas or to within 500 miles of the Texas roads; or in other words, 1200 miles will bring this line to the longitude of Houston which is east of Omaha which is also 1900 miles distant from the Pacific metropolis. The distance to Saint Louis will be about the same by the southern and central routes, and to New Orleans by one the same as to Chicago by the other.

A line of river steamers plying between Port Yuma and Callville on the Colorado, and a line of sea-boats between Yuma and Guyamas in the Gulf of Mexico is talked of for this winter in connection with the railroad. Two hundred and fifty miles east of Yuma is Tucson, a centre of Mexican trade and the terminus of one of the proposed Mexican land grant roads. The Southern Pacific Co., besides the extension of the main line from Indian Wells eastward to the Colorado River, are extending it westward from Goshen across the San Joaquin Valley to Gatos, a distance of 49 miles.

Toledo, Wabash and Western Railway.

At the annual meeting of the stockholders of the Toledo, Wabash and Western Railway Company, held at Toledo, Ohio, on the 4th inst., the following directors were elected: Solon Humphreys, O. D. Ashley, Wm. M. Bliss, Thatcher M. Adams, Wm. J. Lyons, Cyrus W. Field, Edward P. Beach, Horace Porter, Darius P. Mangam, Wm. P. Shearman, James A. Roosevelt, Elisha A. Corey, John Crerar. Before the election, the classification of directors was abolished and the number reduced to 13. The special agents to conduct defense were continued in authority, and the action of the meeting of May 31 fully approved. It was also resolved to take legal measures to restore to the corporation bonds which have been illegally issued. The contribution of 25 cents per share for legal expenses was recognized as a liability of the corporation.

☞ At the annual meeting of the stockholders of the Burlington and Lamoille Valley Railroad Company, held at Burlington, Vt., on the 2d inst., Wm. B. Hatch, the President, stated that the managers had prepared plans for the early completion of the road, and the prospect is fair that the work will be accomplished by next spring. The amount of stock paid up is $242,800. There has been paid to the contractor, cash, $53,215 47; bonds, $220,000 at 60 cents, $132,000—$185,215 47. There has also been issued to the contractor, on account of contract, capital stock to the amount of $139,750. Negotiable notes of the company have been loaned to the contractor to the amount of $40,693 74. Mr. Hatch was re-elected President.

Northern Pacific Railroad.

REPORT OF THE DIRECTORS.

To the Stockholders of the Northern Pacific Railroad Company:

The directors submit the following report of the condition of the company, and the results of its management from the date of its reorganization and of their election, September 29th, 1875, to the present time:—

The proceedings under the foreclosure of the mortgage, by which the road and property of the company were transferred from the receiver to the present organization, are detailed in the report of the purchasing committee, made at the meeting of September 29th, 1875, and published in the records of that meeting.

By virtue of these proceedings the bondholders became the preferred stockholders and owners of all the corporate franchises and property, except its patented and certified lands in Minnesota and Dakota, on which foreclosure is in progress and nearly consummated. This ownership is complete and exclusive, except that the holders of the original stock become, under the plan of reorganization, common stockholders, entitled to vote, after July 1st, 1878, upon a minority interest, and entitled to dividends only after eight per cent. net per annum has been earned on the preferred stock.

The amount of preferred stock that may be issued under the plan of reorganization is limited to $51,000 000; and of common stock $49,000,000. The amount of preferred stock that will be issued in the conversion of bonds and coupons is about forty millions.

PROPERTY OF THE COMPANY.

The property in possession consists of the completed road, its equipment, and working materials, being 230 miles in Minnesota, from Fargo to Thomson Junction; and one-half interest in the track of the Lake Superior and Mississippi Railroad from Thomson Junction to Duluth, 25 miles; and 195 miles in Dakota, from Fargo to Bismarck; and 105 miles in Washington Territory, from Kalama on the Columbia river, 40 miles below Portland, to Tacoma on Puget sound. In all 555 miles of railroad in operation.

The equipment of the road consists of 48 locomotives, 22 passenger cars, 34 express, baggage and caboose cars, 1,196 freight cars, and the usual corresponding number of hand and construction cars, tools, &c.

The lands of the company already acquired and to be acquired under the foreclosure, and by the completion of the road to Lake Superior consist of 7,955,200 acres in Minnesota and Dakota, and 2,215,917 acres in Washington Territory; aggregating 10,171,117 acres besides what may finally be found due to the company in Oregon. There had been sold, to the 31st day of August last, 921,902 acres.

The company also acquired, by the foreclosure, a controlling interest in the stocks of the St. Paul and Pacific Railroad Company, the Lake Superior and Puget Sound Company, and the Tacoma Land Company. Also extensive docks and properties in Duluth, and the leases, instruments, furniture, and general outfit of the company.

This vast property falls into your possession unincumbered, and the reorganized company starts with no absolute liabilities.

COLLATERALS OUTSTANDING.

There was, however, outstanding a certain amount of the floating debt of the old company, secured by bonds and other collaterals, coming over with the transfer, which your board deemed it prudent to negotiate for, to prevent sacrifice of the property pledged. The total amount of this indebtedness was $683,483 96. This has since been compromised and reduced from time to time until the whole amount now outstanding is nominally $310,866 51. Some accounts in offset will reduce it forty or fifty thousand dollars below this sum.

These claims are not recognized as debts of this corporation; but a compromise of them became a matter of expediency, to avoid the sacrifice of collaterals in which the corporation was interested.

CONDITION OF EASTERN DIVISIONS.

In assuming the management of your property, and in carrying out the plan of reorganization, the board and its executive officers found a task of no ordinary magnitude.

The inspection of the Minnesota and Dakota divisions and their local management, was at once taken in hand, and some important changes and reductions were made. This portion of the completed road, 450 miles in length, came to our hand in good general condition, except that the ties required extensive renewal, and one of the bridges required immediately to be rebuilt,—several others were in want of extensive repairs, and one, the largest on the line, over the Mississippi river at Brainerd, had been entirely broken down and destroyed by a disaster, which occurred on the 27th day of July, 1875. We found a temporary trestle in use for the passage of trains over the river at this point.

A new and improved bridge of combined iron and wood has since been erected, at a cost, including new abutments and piers, of $28,008 50, and all the other bridges upon the line, requiring attention have been put in first class condition. The total amount expended from earnings for new bridges and other construction, is $36,276 96.

CONDITION OF PACIFIC DIVISION.

The Pacific division has lately been visited and thoroughly inspected by the vice president, whose report to the board upon its condition and prospects, and upon the coal fields of this company and the proposed branch road for their development, is printed herewith.

The division is in good condition, is economically managed, and has a business that regularly yields a small net profit each month. Its net receipts, over expenses, from October to August inclusive, eleven months, exceed thirty-five thousand dollars. An unprecedented freshet in the Columbia river, in June last, did some damage to the road and property on its banks, but an expenditure of about five thousand dollars has put it in good condition again.

At the westerly termination of our road on Puget sound, this company has, directly and indirectly, very extensive properties. It owns directly vast quantities of agricultural, coal, and timber lands, and, through ownership of the stocks of the Tacoma Land Company, and of the Lake Superior and Puget Sound Company, it has the controlling interest in the terminal town site and adjacent lands.

The profitable development of this property seems to depend upon the completion of the through line, or the immediate construction of 31 miles of the Puyallup branch and the development of the coal. The details of the latter are fully discussed in the vice president's report.

ISSUE OF STOCK.

The task of exchanging stock for bonds, among an aggregate of persons already exceeding eight thousands in number, has occupied a considerable clerical force, and required much care and attention in its supervision. The number of persons who will be on the stock list, when the bonds already sent in are fully converted, is about thirteen thousand, and the account is being swelled by daily additions.

The amount of preferred stock issued to date exceeds thirty-four millions, representing about twenty-five millions of the bonds. This leaves less than one-sixth of the bonds outstanding, and these are constantly coming in.

Your directors congratulate themselves and you that, among so large a body of shareholders, there exists such entire unanimity and general acquiescence in the reorganization of the company.

CONVERSION OF STOCK INTO LANDS.

The convertibility of preferred stock into lands of the company, at the option of the stockholders, has proved to be a very popular feature, and likely to result advanatageously to all concerned. About 212,000 acres of land have been disposed of for bonds or stock of the company and these securities retired therefor, equivalent to about $820,000 of the preferred stock.

The stockholder gets the benefit of purchasing rich lands at from three to ten dollars per acre, and paying for them in stock at par; the company reduces its capital by the operation, and stimulates settlement and production along its line, already resulting in increased business for the road. In the Red River valley, and along the beautiful park country lying between the Red and Mississippi rivers, wheat farming is now carried on upon an extensive scale, and with results so satisfactory that the operations will be largely increased another year.

EXTENSION OF TIME.

The financial condition of the country has been such, during the past season, that no movement in extending the construction of the road was, for the time being, practicable.

We have however, made applications to Congress for an extension of the time within which the construction may be completed, and a bill has passed the Senate by a large majority granting us eight years additional time. A favorable report upon the same bill has unanimously passed the House committee, and it now lies over as unfinished business, to be acted upon by the House, on the reassembling of Congress in December next. There is every reason to believe that the justice of the measure, involving as it does the value of the invested savings of 13 000 shareholders scattered throughout the country, and the military and civil necessity, manifestly requiring the early establishment of direct railroad communication through the now hostile Sioux country, connecting the lake region with Montana and Oregon, will induce Congress to give it an early and hearty approval.

MONTANA SUBSIDY.

Measures have also been taken to seek material aid from those local communities which would be largely benefited by the opening of the country. Among these the people of the Territory of Montana have, perhaps, the most vital interest in having the road extended to them. That part of the territory which is now settled, and where extensive gold and silver mines are already developed, in the valley of the Upper Missouri and its tributaries, lies 500 miles due north of the Union Pacific road at Salt Lake, and a somewhat greater distance due west from the present terminus of our road at Bismarck. Excepting a small proportion of traffic up and down the summer navigation of the Missouri, below Benton, its business is now done by team and stage over the five hundred miles of heavy trail across the Rocky Mountain range, between the Union Pacific road and Helena. The annual cost of this staging and teaming exceeds a million of dollars. The amount of gold already taken out of this territory is estimated to be between one hundred and one hundred and fifty millions. Silver is also very abundant, and is being extensively mined.

A delegation was sent to Montana last winter, consisting of the vice-president and chief engineer of this company, to ask the territorial legislature, then in session, to aid us in extending the road to them. A bill was passed, granting a loan of their bonds for thirty years, to the extent of three millions of dollars. But when submitted to the people for ratification it was defeated by a small majority.

Negotiations have, however, been renewed and are now in progress, asking the territory to vote a gratuity of their bonds to the extent of five thousand dollars per mile for the first three hundred miles constructed within their limits. Should this negotiation be successful, it is believed that arrangements can be completed for going on with the work,

LAKE SUPERIOR AND MISSISSIPPI RAILROAD.

The twenty-five miles of railroad used by this company between Thomson Junction and Duluth

was built by the Lake Superior and Mississippi Railroad Company, and is a part of their road from Duluth to St. Paul. The line of the Northern Pacific extends on the southerly side of Lake Superior to the easterly border of Wisconsin at Montreal river. But to save a duplication of expenditure, its original managers contracted for a purchase of a half interest in the Lake Superior and Mississippi road, between Thomson and Duluth, agreeing to pay therefor half a million of dollars in instalments. The greater part of these instalments remain unpaid, but are partially offset by claims for money due under former business relations.

The bondholders of the Lake Superior and Mississippi road having indicated their intention to commence foreclosure proceedings under their mortgage, it was deemed important to conclude prior arrangements for securing the permanent use of this piece of the road, as well as to obtain an equitable adjustment of outstanding agreements and liabilities.

After a long and tedious negotiation, an arrangement has at length been made, by which the use of the road is secured, upon an equitable basis of payments, and all outstanding accounts placed in a satisfactory train of adjustment.

ST. PAUL AND PACIFIC RAILROAD.

The stock of the St. Paul and Pacific road, nearly all of which comes over among the assets of the Northern Pacific, represents 36 miles of railroad in operation from East St. Cloud to Melrose, and 104 miles, called the St. Vincent Extension, in partial operation from near Glyndon, down the east bank of the Red river. Also, about 60 miles of road from near St. Cloud to Brainerd, called the Brainerd branch, which is mostly graded and ready for the rails. Also a chartered line, not built, but on which some work has been done, being the extension of the main line from Melrose more than 100 miles westward to your road near the Red river. These lines have valuable land grants. The whole property and grant is encumbered by a heavy mortgage, and is in the hands of a receiver. The money raised by mortgage of this property having much of it been expended for the construction of another road, grave questions of equity have arisen, the solution of which may make your stock interest of value.

Negotiations are now pending with parties representing the foreign bondholders, through which we hope to secure our equitable rights, and to bring about the completion of the Brainerd branch and the St. Vincent extension, both of which would be valuable feeders to our main line now in operation.

LAND DEPARTMENT.

The receipts of the Land Department from September 29th, 1875, to August 31st, 1876, were as follows:

Land sales, 211,796.57 acres	$320,288 75
Deferred payments on old contracts	24,536 42
Interest on deferred payments on old contracts	3,779 62
Over payment account	1 304 33
Stumpage and timber trespass	10,866 60
Timber culture account	262 32
Town lots, etc.	978 56
Total	$362,036 60

In payment of the above there have been received:

First mortgage bonds	$47,300 00
Interest on same and coupons	8,147 69
Interest land warrant bonds	856 00
Farmers' Loan and Trust Co. receipts	441,366 00
Preferred stock	333,606 78
Cash	26,451 14
And there remains due on deferred payments, Pacific division	4,308 99
	$362,036 60

In addition to the foregoing, there were sold of patented lands, for the receiver, 14,515.39 acres, for $66,297 06

Retiring first mortgage bonds	$55,600 00	
Retiring interest and coupons	10,490 16	
Retiring interest bonds	240 03	
		$66,330 19
Total land sales from Sept. 29th, 1875, to August 31st, 1876, 11 months	226,311.96 acres.	$886,585 81
Sales previous to Sept. 29th,	695,072 27 acres.	3,683 229 20
Grand total to Aug. 31st, 1876	921,384.23 acres.	$4,569,815 01

Average, $4 74 per acre.

The total expenditures of the land department for the eleven months (exclusive of expenses of tree culture, $1,069 35, and payment on office building and fixtures at Tacoma, $577 07), were $20,379 99, about 2½ per cent of total collections. Nearly one-half of this expenditure was made on account of the examination of the lands, the protection of the timber lands of the company from trespass, and in the prosecution of adverse claims. After the 1st of November the current expenses will not exceed $900 per month.

Taking into consideration all the circumstances that affect the question of settlement along the line, the advance in opening the country has been very satisfactory. The population within the limits of the land grant, in the fall of 1870, east of the Missouri river, was about 4,500. It is now, at least, 30,000. At that time the area under cultivation in the same district, was but a few hundred acres. It is now some 130,000 acres.

In this connection the following statistics possess interest: The wheat crop of 1875, from lands immediately tributary to the road, was some 500,000 bushels, of which 20,000 went to Duluth, 125,000 to Manitoba, the remainder being retained for seed of 1876 and home consumption. The crop of 1875 was a full one, well up to the average of 20 bushels per acre; and the yield represented at least 25,000 acres under wheat cultivation. For 1876, the same territory has not less than 50,000 acres in wheat; but from various causes, the crop is a light one. The best information now attainable puts the average yield at 15 bushels per acre. This should give the road from 400,000 to 450,000 bushels for shipment to Duluth. During the summer a very large area of new ground has been broken up for wheat next year; not less than 50,000 acres. It is estimated by some at from 75,000 to 100,000 acres. An ordinary crop next year will make from 1,500,000 to 1,750,000 bushels of wheat; three-fourths of which should go to Duluth. The entire area now ready for cultivation of all crops cannot be less than 130,000 acres.

The energetic and successful opening of the large wheat farms in the Red River valley by Messrs. Cass, Cheney, Dalrymple, Dunlop, Grandin, and others, and the average yield of wheat therefrom this year, is attracting the attention of agriculturists and bringing to us a class of intelligent and well-to-do farmers, and will result in a steady development of lands tributary to the road in western Minnesota and eastern Dakota, and particularly in the rich valley of the Red River. A large carrying trade will accrue to the road from the transportation eastward of the surplus crops of these lands.

OPERATIVE DEPARTMENT.

The working operations of the road show a steadily increasing business, and the expenditures are kept down to the lowest economical point. Although the past year has been the most trying one for railroads in general, since the commencement of the panic our earnings, both gross and net, show a gratifying gain. The details of receipts and expenses are given in the report of the treasurer. They show the net receipts from working the road, after paying all operating expenses on the line to September 1st, to have been $295,037 12. In addition to which the net receipts of September are estimated to exceed $30,000.

The growth of business upon the line, particularly upon the eastern divisions, promises well for the future. A large amount of farming land has been taken up, and extensively improved. The neighboring province of Manitoba, which has its present outlet over our Minnesota division, is receiving extensive colonies from Germany, Greenland, Iceland, and other northern countries.

The business of Manitoba employs a considerable fleet of steamers, navigating the Red river between our road and Winnipeg, a provincial city of 6,000 inhabitants, lying about 150 miles to the north of us. The population of the province is estimated to be 36,000, and rapidly increasing.

The Black Hills gold excitement produces traffic over our line through Bismarck, which is a favorite point of outfitting. The Army and Indian Agency transportation is also an important element of our business. We are now transporting much of the material for the new forts to be erected on the Yellowstone, in addition to the regular army supplies.

The Upper Missouri is navigable to Fort Benton, which, as the river runs, lies more than a thousand miles westerly of Bismarck. It is the channel of summer transportation for military posts and agencies and for some portion of the trade and travel of Montana. A large number of steamboats are employed in the business.

OPENING THE DAKOTA DIVISION IN WINTER.

That part of our road lying in Dakota, between the Red river at Fargo and the Missouri at Bismarck, has never been operated in winter. The business over it has been comparatively small, even in summer, being derived mostly from freight and travel to and from the Upper Missouri and the military posts and Indian agencies in Dakota up and down the river, and from the local business of the city of Bismarck, an enterprising trading town of about one thousand inhabitants.

This division of about 200 miles is almost entirely over an open prairie country, exposed to the drifting snows of winter. The snow fall is slight, rarely exceeding six inches on a level; but in the dry cold atmosphere of that locality in winter it is always ready to drift, and a high wind keeps it continually on the move. The unprotected cuts become filled with it and in windy weather will refill as fast as dug out. The cost of snow fencing and of operating, together with the small income of this part of the road, have heretofore deterred the management from keeping it open after October.

We are now asked by the War Department, in view of the military situation in the hostile Indian country, adjacent to and beyond us, to protect this division against snow and to run it this winter.

We have unhesitatingly acceded to this request; material has been procured and a force set at work to erect the requisite fences, and we expect to get forty or fifty miles up before winter sets in. The expense both of preparation and operation will be heavy, but we have faith that a prompt acquiescence in the wish of the Government to keep open communication with a hostile region, will not be without the ultimate reward due to a patriotic service rendered to the entire country.

All of which is respectfully submitted,

By order of the board,

CHAS. B. WRIGHT, President.

NEW YORK, September 27th, 1876.

☞ At a meeting of the stockholders of the Rhode Island and Massachusetts Railroad company held in Boston on the 4th inst. a board of directors was elected with James P. Ray President, Erastus L. Metcalf Vice President, George W. Wiggin Clerk, and Joseph G. Ray Treasurer. It was voted to contract for the road with Mr. E. G. Sweatt. Ground was broken on the 5th inst., the first shovelful of earth being thrown by the President.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included; in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, October 14, 1876.

Financial and Commercial Affairs.

The speculation on our Stock Exchange has been without the excitement or the sharp fluctuations in prices which characterized the previous fortnight. There is a nearer approximation of views as to values, and of course a weakening of the impulse to speculation. The week has been without any other important event than a change in the President and Superintendent of the Central Railroad Company of New Jersey, from which it may be inferred that its management is to be more legitimate in its character, and less in the interest of land speculators. A card from the Delaware and Hudson Canal Company denies the report that the corporation had guaranteed ten per cent bonds issued by another corporation; but it is not to be denied that it has done so much of that sort of thing, as to greatly impair confidence in its shares. The "coal stocks" have consequently not much further advanced. New York Cent al and Hudson River has recovered most of the recent decline. Its earnings from passengers must have been enormously increased in the past few weeks. Most of the Western railroads have been doing better, but Chicago, Milwaukee and St. Paul is an exception. Reports of railroad earnings in September show an increase in most cases and in the aggregate, but Chicaco, Milwaukee and St. Paul and Illinois Central show a decrease. The weakness in the roads guaranteed by the Pennsylvania Railroad Company, which was noticed last week, has been mainly recovered. Railroad bonds have been in good demand, and the issues of the Central of New Jersey materially advanced. There has

been some further advance in railroad securities at Philadelphia, but without much speculation. On Wednesday the whole speculation was interrupted by the election excitement, and the market was generally dull and weak.

Gold was down to 108¾, under the free importation noted in our last, but recovered slightly, and closed on Wednesday at 109. The Bank of England and the Bank of Germany both lost Gold on balance.

Exchange has further advanced to 4.83½@4.84½ for prime 60 day bills. This takes place in the face of an increase in exports, which in the week ending Wednesday aggregated $6,003,215, against $4,877,407 for the corresponding week last year; and $208,917,999 since Jan. 1st, against $196,724,522 for the corresponding period last year. The cotton crop is coming to market in great quantities, unusually early, and begins to go forward to Europe in liberal quantities. The exports of Breadstuffs and Provisions also increase.

The last bank statement presented no feature of special significance, and the leading rate for money on call has been 2 per cent, with occasional transactions at 3, with discounts of commercial paper made at 4@6 per cent.

Government Bonds have been less depressed than last week, but have slightly favored buyers. There is some disposition to use the political excitement to influence not only prices of government bonds, but the premium on gold. The close on Wednesday was much steadier.

Trade in mercantile circles is generally dull, from sympathy with the reaction that has occurred in the dry goods trade. Cotton, however, has strengthened on adverse crop accounts. Breadstuffs, on the contrary, have declined, and prices of provisions show some irregularity. Failures are said to be much fewer in number and less important in amounts, than last spring or one year ago.

On Wednesday Government bonds closed firm at the following quotations: United States currency sixes, 123½@124; do. 1881, registered, 116@116¼; do. coupon, 117@117¼; do. 1865, registered, 108½@109; do. coupon, 111¾@112¼; do. new, registered, 111⅞@112⅛; do. coupon, 112@112⅛; do. 1867, registered, 115@115⅛; do. coupon, 115@115¼; do. 1868, registered, 116@116¼; do. coupon, 116@116¼; do. tenforties, registered, 113½@113¾; do. coupon, 114½@114¾; do., fives, 1881, registered, 114@114⅛; do., coupon, 114@114⅛; do. four and one-half, 110⅜@110⅝.

☞ It is proposed to build a prismoidal railroad from Grass Valley to North San Juan.

Erie Railway.

The report of Hugh J. Jewett, Esq., Receiver of the Erie Railway Company, for the month of June, 1876, submitted by Hon. James C. Spencer, referee, has been approved by the Supreme Court, and filed in the County Clerk's office. From this it appears that he had on hand at the commencement of the month $485,922 98, and at its close $429,020 40; of which he had in cash $37,352 09, the balance, $391,668 31, consisting of notes, bills, etc. During the month, certificates of indebtedness to the amount of $8,251,539 40 were issued, and of these certificates were canceled to the amount of $1,816,539 40. Certificates out standing and unpaid, June 30, $1,485,000—an increase during the month of $15,000. Including this amount and $23,000 borrowed on call the receipts of the month were $1,724,385 31, of which $1,249,357 80 were from freights, $376,738 88 from passengers, and $266 65 from debts accruing before the receivership. His payments in the month were $1,781,287 89, of which $17,485 79 was paid on account of the purchase of coal lands in which the Erie Railway is interested, $9,800 for locomotives and $18,564 on account of debt accruing before the receivership.

Boston and Providence Narrow Gauge R. R.

At a meeting of the citizens of towns between Boston and Providence interested in the construction of this road, held at room 11, No 8 Exchange Place, Boston, on the 7th inst., it was decided after some debate and examination of maps that the route should be through Brookline, West Roxbury, Dedham, Norwood, Walpole, Norfolk, Wrentham and Attleboro' to Valley Falls, the State line; and a committee was appointed, consisting of Hon. F. W. Bird, of Walpole, Col. E. Stone of Dedham, John Wilder May of Boston Highlands, A. W. Tilton of Walpole, S. Bowen of North Attleboro' and W. A. Humphrey of Brookline, with power to contract for surveys. The directors were authorized to collect subscriptions for stock. The success of the enterprise seems assured. The officers of the company are: President, George F. Verry of Worcester; Vice President, Charles Rollins of Boston; Treasurer, Hon. F. W. Jacobs; Clerk, A. F. Nason.

☞ At the annual meeting of the Canada Central Railway company, held at Ottawa on the 29th of September, the following officers and directors were elected: H. L. Redhead, President; Hon. J. Skead, Vice President; Hon. A. B. Foster, Manager; A. B. Chaffee; Secretary-Treasurer. Directors, James Ashworth, H. V. Noel, E. McGillivray, Wm. Moffatt, Jas. Smith, Jas. O'Halloran, M. Pettes, and Duncan McIntyre. The formal opening of the road will take place on the 18th of October. The annual statement presented showed a falling off in the earnings of the year compared with last year, and the Board decided to reduce expenses.

☞ Horace Thompson, Edmund Rice and John S. Kennedy, Trustees under the several mortgages against the first division of the St. Paul and Pacific Railroad Company, have taken possession of the entire property, and have given public notice to all whom it may concern that they will hereafter operate the lines of the railroad as provided in said mortgages for the benefit of the bondholders.

Boston and Albany Railroad.

The fiscal year of this company closed with September, but the accounts are not yet made up. The Springfield *Republican* says that enough is known, however, to show that it has carried more freight during the year than any other year save 1873. The September business was particularly great, without parallel save in the corresponding month of the year named. But the very low rates have left small margin of profit, and if the road makes its usual five per cent semi-annual dividend, it will have to exhaust its six months' profits, if not, indeed, draw on the reserve profits. It is more probable that the dividend will be dropped to 4 per cent and the reserve increased instead of diminished.

Redemption of 5-20 Bonds.

The following is the thirty-sixth call of the Secretary of the Treasury for the redemption of ten millions of dollars of 5-20 six per cent bonds of 1865, May and November, upon which the interest will cease on the 6th of January. That is to say, bonds, act of March 3, 1865, dated November 1, 1865, as follows:

Coupon Bonds.—$100, No. 12,401 to No. 17,000, both inclusive; $500, No. 19 001 to No. 22,100, both inclusive; $1,000, No. 46,851 to No. 53,300, both inclusive—total coupon, $5 000,000.

Registered Bonds.—$50, No. 51 to No. 200, both inclusive; $100, No. 1,651 to No. 3.450, both inclusive: $500, No. 1,811 to No. 2,750, both inclusive; $1,000, No. 5,751 to No. 10.000, both inclusive; $5,000, No. 2,901 to No. 4.150, both inclusive; $10,000, No. 3,591 to No. 5.150, both inclusive—total registered, $5,000,000. Aggregate, $10,000,000.

☞ The report of the Portland and Rochester Railroad company, presented at the annual meeting of the stockholders held in Portland on the 4th inst., gives the total liabilities at $1,714,918, of which $1,297,228 is due the city on the first, second and fourth mortgages at six per cent., $350,000 on third mortgage to the public at 7 per cent. The floating debt is $67,000. The earnings for the past year were only enough to pay operating expenses and renewals. Therefore the coupons on the 7 per cents. were unavoidably passed.

☞ The gross revenue of the Main Stem and Branches of the Baltimore and Ohio Railroad, including the Pittsburg Division, for the month of September were $1,608,807 86, showing an increase over the revenue from the same sources for August of $205,772 77.

☞ The first train on the Worthington branch of the St. Paul and Sioux City Railroad, from Worthington to Luvern, Rock county, Minn., distance 34 miles, ran over the road on the 3d inst. The road is eventually to be pushed into Dakota, to connect with the Black Hills road.

☞ All the rolling mills of Rome, Georgia which were doing nothing six months ago, are now running night and day, with orders ahead. The cotton factories also are all working on full time.

☞ The Trenton Branch of the Delaware and Bound Brook Railroad was opened on the 9th inst., affording a new route between this city and Trenton and between Philadelphia and Trenton.

☞ S. S. Fuller has been re-elected President, and D. Tisdale Vice President of the Stratford and Huron (Ca.) Railway Co.

FISK & HATCH,

Bankers,

No. 5 Nassau St., New York.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Govment Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

Misfit Carpets.

Misfit Carpets, such as are offered for sale by J. A. Bendall, 112 and 114 Fulton St., N. Y., are not always such from a mistake in measurement, nor are they mis-matches, as some suppose, but are carpets which have been selected, frequently, by persons of exquisite taste and excellent judgment, but who have been prevented from taking them (after being cut and made) by circumstances which are occurring every day in life. Disappointment in receiving moneys promised, or in securing houses expected, these and a thousand other causes contribute to keep up a constant supply of every kind of carpet from the plainest to the richest of fabrics. Also when an importer has but two or three rolls left of a large importation it is sold to them at a discount of 25 to 80 per cent. The same is true in very many cases where large commission houses find it necessary to close out a lot of rolls of different patterns in order to make settlement with their consignees. These with bankrupt sales and (what is known to the trade as) job lots of every description are made an exclusive specialty at the Misfit Carpet Depot.

Illinois Central Railroad.

During the month of September, 1876, 533.48 acres of Land were sold for $3,608 36. The Cash collected on Land Contracts during the same time was $9,184 74. The Traffic on the Main Line in Illinois was $499,051 28, against $559,138 19 in September, 1875. The Traffic of the Iowa Lines, (leased at 35 per cent of gross receipts) was $124,-005 57, against $158,963.01 in September, 1875.

☞ At the annual meeting of the Western Union Telegraph Company on the 11th inst. the old Board of Directors was re-elected. The gross receipts for the year ending June 30, 1876, were $10,034,983 66; gross expenses, $6 635,473 69, and net earnings $3,399,509 97. As compared with the previous year there was an increase of $470,-409 06 in gross receipts, $300,058 92 in gross expenses and $170,350 14 in net profits.

☞ The track of the Columbus and Toledo Railroad has been laid about one mile past Bradner Station—101 miles from Columbus and 22 from Toledo.

Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of September, were:

ENTERED FOR CONSUMPTION.

☞ At a meeting of the directors of the Central Railroad Company of New Jersey, held on the 5th inst., Mr. John Taylor Johnston resigned the presidency, and Mr. Knight, of Philadelphia, was elected to that position. Mr. F. A. Comley, President of the North Pennsylvania Railroad Co. was elected director, vice Mr. Adam Norrie, of New York.

The Coal Trade.

The total tonnage for the week ending on the 30th ultimo, as reported by all the companies, amounted to 508,304 tons, against 568,241 tons in corresponding week last year, a decrease of 59,937 tons. The total amount of anthracite mined for the year is 12,847,351 tons, against 14,614,821 for same period last year, a decrease of 2,127,470 tons. The quantity of bituminous coal sent to market for the week was 44,418 tons, against 95,929 tons for corresponding week last year, a decrease of 51,511 tons. The whole bituminous tonnage from the beginning of the coal year is 2,658,692 tons, against 2,933,057 tons in corresponding time last year, a decrease of 274,365 tons. The total tonnage of all kinds of coal for the week is 550,722 tons, against 662,170 to corresponding date last year, a decrease of 111,448 tons, and the total tonnage for the coal year is 15,140,043 tons, against 17,547,878 tons to same date last year, a decrease of 2,401,835 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 94,887 tons, of which 82,117 tons were coal and 12,770 tons coke. The total carried this year is 3,249,955 tons, of which 2,600,670 were coal and 639,844 coke. This total embraces all the coal carried over the road, east and west. The total of coal received from the Lehigh Valley Railroad at Perth Amboy for the week ending on the 30th ultimo was 21,640 tons, the amount shipped thence amounting to 22,566 tons, leaving 72,689 tons on hand.—*Phila. Ledger, Oct.* 11.

Progress of Mining in Utah.

Utah now contains 90 mining districts and some 10,000 people engaged in mining. The mines and improvements are valued all the way from fifteen to thirty million dollars, and the annual yield of lead, silver and gold has reached five millions. All this interest has grown up since 1870. The value of assessed property in Utah increased from $9,000,000 in 1870 to $21,548,348 in 1873—an increase of the property to the extent of 140 per cent. Only the machinery and other improvements at the mines are included in the assessment, not the mines themselves.

The ore and bullion exported in 1873 amounted to $4,523,497; all agricultural products exported to $392,315; and the total value of all agricultural products was $4,520,700. The miles of railroad increased from 38 in 1870 to 220 in 1874; and the assessed value of railroads during the same period rose from $480,000 to $2,219,000

Copper is found in vast quantities in Tintic and some other districts, but the reduction thereof has not made much progress. Bismuth ore is found in the Southern counties in abundance. Graphite, black lead, native sulphur, alum, borax, carbonate of soda and gypsum are widely disseminated, and beds have been discovered that will richly pay for working. Salt is so plentiful as scarcely to be an article of commerce. Near the lake and in many other localities it can be had for shoveling into a wagon and hauling home. Fire-clay and sandstone are abundant, as is building stone of every description, including marble and granite. Kaolin of the finest quality abounds. All the ochres used for polishing, pigments and lapidary works are in inexhaustible supplies. The Territory will not average one acre in forty fit for agriculture, but nearly all the rest is valuable for some kind of mineral.—*Harper's Magazine.*

☞ The Philadelphia, Newtown and New York Railroad, which was sold at auction on the 4th inst. to Isaac Eyre, extends from Lehigh avenue and Second street, in Philadelphia, through the counties of Bucks and Montgomery and the town of Newtown to the Delaware river, where a connection is made with the Mercer and Somerset Railroad, in New Jersey, by a bridge, and also extends from the town of Newtown to the boroughs of New Hope and Doylestown, and includes all the minor branches, with rolling stock, workshops, etc.

Memphis City Bonds.

At a meeting of the holders of Memphis City bonds, held in Baltimore on the 7th inst., Hon. J. R. Flippin, Mayor of Memphis, who is empowered by his city council to negotiate and carry out any plan of compromise that may be reached between the bondholders and himself, read a printed statement addressed to the creditors of the city of Memphis, from which it appears that the debt now amounts to $5,827,000, of which $3,710,500 is in bonds, and $2,116,500 floating debt past due. The nominal assets are $1,840,041 93. Entire values in 1876 about $20,000,000. The statement says:

"To raise out of this $1,385,000 will require a tax of nearly 7 per cent. This is absolutely impossible. It is equally impossible to pay this debt in its present shape, the ability of the city growing weaker each year as its debt increases. The city is falling in arrears several hundred thousand each year."

Mr. Flippin submitted the basis of a compromise agreed upon by a committee of New York bondholders authorizing funding of the city indebtedness by the Tennessee Legislature not exceeding $5,000,000, enumerating the plan of precedure in detail. Memphis to issue no more bonds, taxation for general purposes to be prescribed, and an ample interest and sinking fund tax to be annually collected to meet maturing interest and pay the bonds, both the bonds and coupons to be paid off at a lower rate than shown on their face, viz., from 40 to 60 cents on the dollar, all matured bonds and coupons to be receivable for every kind of city dues. Mr. Flippin stated, citizens of Baltimore hold from $500 000 to $1,000,000 of the bonds, New York $400,000, Europe $300,000, Charleston, Lynchburg, Richmond and Memphis about $200,000 each. Citizens of Rochester, Portland, Cincinnati, St. Louis, Louisville, Chicago, Mississippi, etc., have some of the bonds.

A committee consisting of Douglas H. Gordon, Wm. T. Walters, J. J. M. Sellman, Andrew Reid and John A. Hambleton was authorized to confer with Mr. Flippin further and report to an adjourned meeting.

Land Grant Decisions.

The following decisions of the Department of the Interior are copied from Copp's Land Owner for September:

Ernest Berger vs. Northern Pacific Railroad Company—Land to pass under a railway grant in similar terms to the one to the Western Pacific Railway, must be unincumbered land both at the date of the grant and the definite location of the line of route, and the company can only take indemnity, if at all, for land that was within the grant when made, but which at the date of definite location had been taken out of it by reservation, sale, or other disposal.

Selby et al. vs. The State of California—The right of a State to make selection of lands only attaches when the final survey of the grant is made, and the Commissioner of the General Land Office has approved such survey. The approval by the Secretary of the Interior of State selections should not be held to redate back to the date of selection, to the prejudice of adverse claims.

☞ The directors of the Central Railroad Company of New Jersey have accepted the resignation of R. E. Ricker as Superintendent of that road, the same to take effect November 1. His successor will be James Moore, at present consulting engineer of the line.

United States Internal Revenue Tax.

Michigan Central Railroad v. C. W. Slack, Collector, &c. This is a suit removed by *certiorari* from the Superior Court of Suffolk County, Mass., to the United States Circuit Court, wherein the plaintiff company seeks to recover a tax, or duty, of $860 32 paid under protest to the Collector of Internal Revenue. This tax was assessed on Sterling bond interest paid by said company in London, in gold, in the month of January, 1870, the tax having been laid in February, 1870.

This interest was payable in sterling bonds issued by the company and negotiated by its agents in London in 1852 or early in 1853, many years before the passage of the first internal revenue law of the United States. These bonds were due in July, 1872, and were paid at maturity, in gold, in London.

These bonds, as far known to the company, were held exclusively by non-resident aliens, and the interest was regularly paid in gold in full in London, without rebate or reservation of the U. S. Internal Revenue tax.

The case was heard by Judge Clark at the October term, 1875, on agreed facts, and the court has now given judgment for the defendant. The opinion of Judge Clark is a very elaborate one, and decides, among other points, that the United States has the right to levy such a tax as the one in question.

Allegheny Narrow Gauge Railroad.

At a meeting of the stockholders of the new narrow gauge railroad, from Allegheny (Penn.) to Emsworth, held at Pittsburg on the 6th inst., it was decided that the new route should be called the "Allegheny Narrow Gauge Railroad." The following gentlemen were elected directors: Thomas M. Bayne, J. Birmingham, A. C. Patterson, Hugh Forrester, J. F. Stockdale, Wm. Roseburg, M. B. Cochrane, D. L. Patterson, Major G. W. Murphy. President, Thos. M. Bayne; Treasurer, Wm. Roseburg; Secretary, Geo. C. Murphy. The Pittsburg Chronicle says:

Over $20,000 of the stock has already been subscribed and a very considerable amount in addition has been promised. That the persons having this matter in charge are really in earnest was manifested by the fact that all present at the stockholders meeting paid in 10 per cent. of their subscription.

The articles of association were signed and the letters patent will be secured within a few days From what we can learn, the road will begin at Federal street, on the Allegheny river, and be built without delay to a point to be indicated at Lowrie's run. Its further extension will soon follow.

☞ The trains of the Chicago and Northwestern Railway commenced running on the 1st inst. into the city of La Crosse over the new line of railroad that has just been finished from La Crosse to Onalaska, on the western end of the Madison division of the Chicago and Northwestern Railway. This line will be operated in connection with the Minnesota division. From Chicago to La Crosse via this new route the distance is 277 miles.

☞ It is proposed to build a narrow gauge railroad, from Monocacy Station, on the Philadelphia and Reading Railroad, 10½ miles south of Reading, to Fridensburg, in Berks county, via Amityville, Yellow Tavern, Spangsville, and Pleasantville.

MISFIT CARPETS.

English Brussels, Three-Ply and Ingrain, also, Stair Carpets, Velvet Rugs, Crumb Cloths, Oil Cloths, etc., very cheap at the Old Place,

112 FULTON STREET, NEW YORK.

Carpets carefully packed and sent to any part of the United States free of charge.

☞ Send for Explanatory Circular. J. A. BENDALL.

PATENTS.

T. D. STETSON,

Validity and Propriety of Railroad Leases.

Within a few years past a good deal has been done by great lines in leasing other railroads, or in guaranteeing their shares and bonds. This has been done as a means of extending, perfecting and securing connections that were considered valuable, or had proved absolutely essential to the prosperity of the main road or leasing line. Thus the New York Central and Hudson River Railroad Company, in leasing the New York and Harlem Railroad, not only provided for a needed extension of facilities, but secured control of a rival that might at any time become troublesome. The lease of the Morris and Essex Railroad by the Delaware, Lackawanna and Western was declared to be justified, because it opened up the most feasible means of securing direct communication with New York. The Pennsylvania Railroad Company, in leasing the New Jersey, the Cleveland and Pittsburgh, and the Pittsburgh, Fort Wayne and Chicago Railroads, greatly extended its influence, its connections, and its capacity. So far, very well; but it may well be asked, whether this sort of enterprise has not been carried too far? Whether rights and interests of stockholders have not often been sacrificed to the ambition, rivalry, or cupidity of directors. In many such leases, the lessors were badly "sold," and find themselves with an elephant on their hands. It would be but natural, if threatened suits at law were instituted for relief. It may, indeed, be questioned whether directors have not exceeded a just limit to their powers in making many of the leases that are now in existence; and if so, the courts will doubtless consider themselves justified in setting aside and annulling them.

The first consideration in leasing a lateral or connecting line of railroad should be, undoubtedly, the interests of the lessors; and if it can be shown that through collusion these interests were sacrificed, the lease or guarantee was fraudulent. It is probable that concealment or misrepresentation on the part of the lessees would also cause a lease to be annulled. And, possibly, this view of the case may have prompted the course which the Pennsylvania Company took towards one of its leased lines, for which it has been the object of much unfavorable comment. It is not to be assumed, however, that because a leased line does not prove directly profitable in its exhibit of earnings that it is not so to the lessors. It may be indirectly so, in many ways, some of which it may be difficult to demonstrate in figures, and yet perfectly apparent and tangible. These circumstances must of course be taken into the account in estimating the real value of a lease.

It has been proposed in some quarters that laws should be passed regulating the manner and circumstances under which a road may be leased by another, or its bonds guaranteed. This should probably be done. Recent events have greatly impaired public confidence in railroad property that has been seriously burdened by being parties to unprofitable leases. Confidence would in a great measure be restored if it was felt that the future was more secure. The past may be redeemed if a check be put upon the repetition of mistakes that have already been made. It might be provided that no lease should be valid until it had been approved by a direct vote of the stockholders of the leased as well as the leasing railroad; and that in no case shall a non-dividend paying railroad be leased at a rental paying more than four per cent on its shares—or half the dividend paid by first-class property.

We throw out these suggestions, without proposing any exhausting discussion of the subject. It is one that will force itself upon the attention of railroad managers and the owners of railroad securities; and sooner or later must be fully understood in all its bearings. It can scarcely fail to attract the attention of our law makers. It should therefore challenge reflection and intelligent inquiry.

Fearful Collision, and Wonderful Preservation of Life.

THE MILLER AND WESTINGHOUSE IMPROVEMENTS.

On the morning of the 18th inst. the Steamboat Express Train from Fall River to Boston, consisting of fifteen passenger and baggage cars, drawn by two powerful locomotives, and containing 800 passengers, collided with the local freight train from Boston to Fall River drawn by one locomotive. The accident took place at Randolph, where the freight train was being turned out upon a siding, and at the time of the collision was backing down slowly for that position, and had got nearly off the main track. The locomotives, Old Colony and Falmouth, with the locomotive Pacific on the freight train, a couple of freight cars and the crate car and two baggage cars of the passenger train were piled up in inextricable confusion. The three engines are complete wrecks, their remains being scattered about and upon the track in every direction near the scene of the accident. The boilers were knocked to pieces and the steam, of course, escaped, adding much to the confusion. The track was torn up for eight or ten rods. One fireman was killed outright, and one fireman and two engineers badly hurt. Two passengers who were in the smoking car were both severely injured, but no other passengers are at present known to have been hurt. The safety of the train is due to the Westinghouse Air-brake

and the Miller Platform. Had it not been for these safeguards there must have been a telescoping of the cars, which would have resulted in a fearful loss of life. The Boston *Globe* reporter who visited the scene says:

"The wonder is, two such heavy trains coming together with such force, that more people were not injured, as the steamboat train carried over eight hundred passengers. The baggage and Adams Express matter was scattered promiscuously around. The second class car, containing about thirty persons, among them women and children, leaped into the air forty feet and fell into an adjoining field. The three locomotives are heaped up together in the space of twenty-five feet. The Falmouth was completely capsized, and lies with its driving-wheels uppermost. The tender of the Pacific was laid upside down upon the top of the engine. The company's loss of material is set at $150,000."

Baltimore and Ohio Railroad.

At the regular monthly meeting of the directors of the Baltimore and Ohio Railroad Company held in Baltimore on the 11th inst., President Garrett stated that the revenue of the main stem and branches, including the Pittsburg division, for the month of September, had been $1,608,807 86, showing an increase over the revenue from the same sources for August of $205,772 77. This large revenue was again very satisfactory, in view of the low rates which had been continued under the action of the New York Central road. The grain trade was still very heavy and the passenger traffic showed also a large increase.

Mr. Garrett said that much interest had been manifested in regard to a meeting recently of representatives of many of the leading railways of the country in New York, and he deemed it proper to state the facts so far as the Baltimore and Ohio Company was connected with that conference. It had been erroneously stated that he (Mr. Garrett) had participated in that meeting. In response to requests from leading officers of several of the most important roads he had requested Vice President King to meet them, for the purpose of aiding in establishing remunerative rates.

As this request came also from the most respected and controlling officers of the principal connections of the New York Central road, it was reasonably supposed that that company desired to make such arrangements as would produce a result demanded by an almost universal public judgment. After being thus invited to the conference it was found, although the representatives of the Canada lines, the New York and Erie and the Pennsylvania were present, no parties appeared who had authority to represent the whole line between Chicago and New York.

Statements were made on behalf of the New York Central that the representatives of the other trunk lines had been misinformed as to the supposed demand of the New York Central road to make equal rates from the centres of Western commerce to the seaboard cities irrespective of distances, but as, after consuming the time of the officers who attended this conference, there was no practical evidence that the New York Central road had abandoned what was understood to be its policy, the conference necessarily proved fruitless. It was clearly shown that the Western connections of the New York Central road felt that the interests of their stockholders and bondholders were being literally immolated by a policy which time will certainly show to be capricious, as contrary to common sense as to long-established principles, and impossible to be maintained. It was evident that they were entirely dissatisfied with the policy of the New York Central, and they plainly showed a wise anxiety to bring about a restoration of rates to a remunerative standard.

The folly of the present recklessly unremunerative rates established by the New York Central Company from Chicago is shown by the fact that large quantities of grain are being delayed at that city from the inability of that road and its connections to transport it. The Baltimore and Ohio Company finds ample use for its entire equipment in the transportation of grain and other merchandise to Baltimore. Larger rates are daily offered to it to take grain to New York than the nominal rates of the New York Central road, because of the blockade at the West; but in consequence of the pressure of this trade to Baltimore it finds it necessary to decline these shipments to New York.

The statistics continue to show that the policy of the New York Central road in fixing such low rates for the transportation of grain, and bringing about railway competition at such rates, is constantly increasing the business of Baltimore and Philadelphia at the expense of the trade of New York. These statistics prove the decreasing business of the New York and Erie canal, and the aggregate diminution of the grain trade of New York and the increase of the grain trade of Baltimore.

The financial exhibit for the past six months was presented by the committee of finance, and the usual semi-annual dividend of five per cent. on the capital stock of the main stem was declared.

Cincinnati, Sandusky and Cleveland R. R.

The earnings of this road for the years ending June 30, 1875 and 1876, were:

	1875.	1876.
From freight	$501,744 40	$518,176 38
" passengers	223,326 76	225,082 02

" rental, etc.	4,546 81	5,307 50
" telegraph	5,576 61	4,444 96
" 35 per cent net C. & S. Railway.	70,024 29	71,185 92
	$857,695 74	$863,076 94
Expenses, viz:		
Maintenance of way	$124,513 71	$126,850 01
Motive power	166,568 48	168,867 60
Machine shops	7,326 52	10,205 05
Maintenance of cars	53,002 38	45,803 97
Train expenses	62,411 22	59,398 77
Station expenses	71,770 20	88,576 32
General expenses	76,183 25	77,206 21
	$561,775 76	$576,907 93
Net earnings	$295,019 98	$286,169 01
Paid for interest on bonds	$158,961 00	
Dividends on preferred stock	25 731 00	
Sinking fund	10,000 00	
Rental of Columbus, Springfield and Cincinnati Railroad	81,124 04	
		275,816 04
Balance, surplus for the year		$10,352 97

Compared with the previous year the gross earnings show an increase of $5,381 20, with an increase in expenses of $15,132 17—making a decrease in net earnings of $9,750 97. The President in his report says:

The directors herewith submit their report of the business of the company for the past year, and the present condition of its affairs and property. Notwithstanding the unparalled depression in the general business of the country the past year, we have succeeded in enlarging the volume of our "freight moved" to the extent of 32,093 tons over last year, and 103,011 tons over the year previous:

Gross earnings have been increased $5,381 20 the past year. Net earnings, however are reduced, $9,750 97.

This untoward result is due mainly to the continuous and increased cuttings of rates by the great East and West lines of railroad. In common with the other railroads of the country, we have suffered greatly by these "cuttings," and have been quite unable to obtain any fairly remunerative prices for the large amount of business we have done during the year, and must of necessity wait patiently for an improvement in these respects, until such time as the great East and West lines come to a realizing sense of the folly of their course of proceeding.

The accompanying Treasurer's tables show that the net earnings		$286,169 01
were sufficient to pay,		
Interest on our bonds	$158,961 00	
Dividends on preferred stock	25,731 00	
Instalments of sinking fund	10,000 00	
Rental of Columbus, Springfield and Cincinnati Railroad	81,124 04	
		275,816 04
Leaving a surplus for the year of		$10,352 97

—being $10,875 01 less than last year.

Construction account has been increased $46,346 87 for the building of new pier at Sandusky, purchase of new locomotives, extra cost of rebuilding Round House at Springfield, &c.

The cost of these has necessitated an increase of floating debt, $12,405 26.

We have purchased and laid this year 6.43 miles of steel rails, and having contracted for 600 tons for delivery in August and September. True economy, we believe, will be best promoted by laying only steel rails, except in cases of "patching."

The Philadelphia Centennial Exhibition has very unfavorably affected our "Put-in-Bay" pleasure travel this year, notwithstanding the additional facilities and comfort of travel we have offered.

The new pier at Sandusky, 150x400 feet, will greatly facilitate the receipt of lumber and iron ore from lake ports to our road, and prove the outlay to be a good investment.

We have realized the past year from securities received from R. R. Sloane—

On account of principal	$19,539 01
And from rents and interest	3,530 72
	$23,069 78

The real estate which composed so large a portion in value of the securities derived from that source, remains entirely unsaleable, unless at one-half its intrinsic value, and must continue so, until a decided improvement takes place in the general business of the country. We shall avail of the first favorable opportunity for its sale at fair intrinsic value.

It would have afforded the directors great pleasure had they been able at this time to exhibit a better result of their year's labors than is furnished in this annual report; they, however, feel consoled by the reflection, and the fact, that the property has been maintained in good condition throughout and really improved in many respects, at the cost of so small an increase of the floating debt as the $12,405 26 shown by this report. We still look with confidence for an improvement in the general business of the country before long, and think it not unreasonable to expect that our railroad will participate in the benefits sure to follow such improvement.

The company have 85 locomotives: 3 burning wood, and 82 burning coal. The mileage of locomotives is as follows: passenger trains, 370,574; freight trains, 437,369; switching, 123,327; construction and wood trains, 38,199—total, 969,569. Coal burners have run 890,617 miles. Wood burners have run 78,952 miles. The number and classification of cars is as follows: 17 passenger,

2 parlor, 4 smoking and 2 sleeping coaches, 1 baggage and passenger, 2 mail, 2 drovers', 10 baggage, 328 box, 66 stock, 143 flat, 337 coal, and 56 hand and push cars. During the year 6.43 miles of track have been laid with steel and 1.13 miles with iron rails—total, 7.56 miles.

The mileage of freight cars upon the road has been as follows:

	1874–75.	1875–76.
C. S. & C. cars.	2,107,149 miles.	2,617,502 miles.
Foreign "	2,625,363 "	3,136,073 "
Total	4,732,512	5,753,575

Increase 1875–76 over 1874–75...1,021,063 miles.

	Tons.
Number tons freight hauled in 1875-76	424,357
Number tons freight hauled in 1874–75	392,264
Increase	32,093
Number tons carried one mile 1875-76	36,531,180
Number tons carried one mile 1874-75	25,901,208
Increase	10,629,972

The number of passengers carried over the road during the year was 305,032. Mileage of do., 8,404,082.

Superintendent.—CHAS. HOWARD.

Memphis City Bonds.

At an adjourned meeting of the holders of Memphis City bonds, held in Baltimore on the 10th inst., Mr. Douglas H. Gordon, chairman of the committee appointed at a previous meeting, reported as follows: That the committee recommend to the holders of the securities of Memphis City to accept the basis of settlement proposed by the committee of bondholders in New York, September 20, 1876, whenever the proper guarantee shall have been given to carry out the same on the part of the city of Memphis, and that a committee of one be appointed to confer with committees to be appointed by holders elsewhere to carry out the same. The meeting accepted the report. Mayor Flippin, of Memphis, who is authorized to negotiate and carry out any satisfactory agreement, was present. The New York basis proposes funding the bonds and coupons, aggregating $5,000,000, at a lower rate, practically reducing the indebtedness to $2,500,000 or $3,000,000. Such a settlement is believed to be satisfactory to those interested.

Narrow Gauge Railroads.

There is a brilliant promise of a narrow gauge railroad excitement in New England, and especially in and around Boston. There are several already mapped out and the promise of what they are to accomplish for the rural districts is truly inspiriting. A railroad which will pass every man's front door appears attractive. Those who desire to sell their farms are told that land will be in demand at so much per foot instead of so much per acre. It is not explained how this is to be accomplished, for if all the projected and talked-of narrow gauge roads are built there would be land enough accessible to the business men of Boston within thirty minutes' ride to meet the demand of a city of ten times the population of Boston. There are already more acres around this city which are accessible by rail in a few minutes than will supply the legitimate growth of Boston for a score of years. We by no means believe that new facilities for reaching the surrounding country ought not to be made, but in the present condition of business, the question must not be, "Will there be a demand for this road ten years hence?" but "Will it pay a fair interest on the investment within a reasonable time?"

We have a firm belief in narrow gauge railroads where they are needed, viz: as feeders of steam roads in sections of the country sparsely settled, and in certain places where the travel does not warrant a more expensively built road, or where a special reason may exist. The narrow gauge road between East Boston and Lynn was built to develop a large and very desirable section of country. The object of building it was to bring the land into the market. A patronage scarcely anticipated at the start has, however, made it very lucrative, for during the months of the year when the weather is warm it carries thousands daily to Chelsea Beach. The road, therefore, has proved a great success, with a fair prospect of being reasonably remunerative in the future. But it will be seen that there are special reasons which make a demand for this road. In addition to these we must remember it was to some extent a competitor with the Eastern Railroad when that corporation was grossly mismanaged and consequently unpopular.

Let us have all the railroads, broad gauge and narrow gauge, that will pay. Let us have all that are demanded by actual necessity. Let them be built by money subscribed. We do not mean money enough to pay for the iron rails, and then incur a debt for which mortgage bonds are to be issued, but money to pay for a completed road. If large capitalists have sufficient faith to come forward and build these roads the public will be benefitted; but if the roads are to be built by town loans, or by securing the small savings of those who will be told that the investment will yield a large dividend, then there really exists no demand for such roads. We do not imagine that a narrow gauge railroad can compete with any of the well equipped steam roads; but whether they can or not is of less consequence than that they should be made the means of inducing investments by people who can ill afford to indulge in such investments simply to meet an imaginary want. It is more population for the roads already built which is wanted rather than additional roads in anticipation of a growth of population.—*Boston Journal.*

Narrow Gauge Engines.

The Brooks Locomotive Works, Dunkirk, N. Y., have recently completed and forwarded to its destination, a narrow gauge locomotive built for the Webster City and Crooked Creek Railroad of Iowa. It is of the Mogul pattern, 3 feet gauge, with drivers 36 inches in diameter, cylinders 11×16, two wheeled truck; tender has two four-wheeled trucks; total wheel base of engine 15 feet 9 inches; rigid wheel base 10 feet 6 inches; total wheel-base of engine and tender, 31 feet 7 inches. Weight of engine in working order about 33,000 pounds. Load in addition to engine and tender, from 750 gross tons on a level to 225 on a 40 feet grade, and 100 on a 100 feet grade. The Brooks Locomotive Works have also in process of construction locomotives of the same class and gauge for the Fond du Lac, Amboy and Peoria, Ills., the Mount Sterling Railway of Kentucky, and the Emlenton and Shippensville, Penn.; also, several standard gauge engines.

St. Louis, Rock Island and Chicago R. R.

The St. Louis, Rock Island and Chicago—hitherto Rockford, Rock Island and St. Louis—Railroad was taken possession of by the Chicago, Burlington and Quincy Railroad Company on the 7th inst., and its appointees placed in charge. The new officers are Robert Harris, managing director, and Robert Harris, J. W. Gould, Walter Trumbull, George Arman, L. O. Stoddard, J. M. Walker and G. S. Haslin, directors. R. T. A. Dana has been appointed general superintendent. The purchase price was $1,820,000. The Age says "the road will be run independently, for the present at least, although it is generally supposed that it will be cut up into sections and operated as part of the Chicago, Burlington and Quincy. The other pool lines have no part in the purchase."

Geneva, Ithaca and Sayre Railroad.

The Geneva, Ithaca and Sayre Railroad Company, (the same that was sold under foreclosure of mortgage a month ago and purchased by the Lehigh Valley Railroad Company,) was reorganized at Waverly on the 17th inst. by the election of Robert A. Packer of Towanda, Pa., as president; Charles Hartshorne of Philadelphia, as treasurer; Robert H. Sayre of Bethlehem, as chief engineer; John R. Fanshawe as secretary, and William Stevenson as superintendent. The back coupons of the Ithaca and Athens Railroad Company bonds, it is announced, will be paid November 1, at the Lehigh Valley Railroad Company's office in Philadelphia.

☞ The Erie Railway Company, from January 1 to October 1, 1876, laid on the Eastern division and its branches 148,417 ties and 77 miles of steel rails.

Operations in the Oil Regions.

The Oil City *Derrick* gives the following report of operations in the oil regions during September, 1876, and the number of wells and rigs at the close of that month:

	Wells & Rigs. September 1.		Wells & Rigs. October 1.

Total wells and rigs September 1..	744
Total wells and rigs October 1	888
Increase in September..	144

The great bulk of the immense crowd of wells and rigs are situated in sections already fully defined and partially exhausted, whence any large addition to the existing yield is quite unlikely this season.

The latest operations in Butler indicate the lightness of the so called "Eastern belt," the depletion of the cross-belt and the marked depreciations of even the most favored portions of the district.

The limit of rich territory in Clarion has not been extended, although several of the wells now projected may fairly be considered "wildcat" ventures, whose result, however, is hardly likely to be such as will open a new field of exceptionable fruitfulness.

In Venango the principal interest centres upon the future of the Scrubgrass development, which a cluster in Rockland township will test to the northward, while one to the south has proved dry. Operations are constantly gaining in this division, with the promise of considerable activity during the winter, but that a large tract of extra territory will be discovered is wholly improbable.

Warren presents its customary variety of dry holes and medium strikes, with little prospect of improvement hereafter. McKean shows up handsomely, its daily yield approximating fifteen hundred barrels, with a liberal area of 10 barrel territory awaiting development.

Despite the unprecedented volume and scope of operations, there seems little reason to fear much increase in the present average production of the entire region, particularly as the return of cold weather will materially reduce the yield of most pumping wells.

New York and Oswego Midland Railroad.

The final decree in the case of the New York and Oswego Midland Railroad has been settled, and an engrossed copy was presented for signature to Judge Blatchford, of the Southern District United States Circuit Court, pursuant to his directions, on the 2d of October, at 11 A. M., in this city. The decree, as prepared by Alexander & Green, attorneys for the receivers, describes the property of the road which is to be sold at public auction at Middletown, Orange County, N. Y., under the direction of Kenneth G. White, at such date as Mr. White shall fix, and after public notice of the sale shall have been published for fifteen successive weeks in the newspapers of New York, Utica, Albany, Oswego, Norwich and Middletown. The property to be sold includes not only all the franchises, rolling stock, and other property of the main line, but the leasehold or other privileges or rights under leases or contracts made by the Rome and Clinton Railroad, the Utica, Clinton and Binghamton Railroad, and the several other roads which were operated by the Midland before it passed into bankruptcy. While the decree provides that all this immense property shall be sold as one parcel, it also stipulates that the leasehold interests in the Rome and Clinton, and the Utica, Clinton and Binghamton roads may be sold separately, if the complainants (namely, the receivers,) "so direct or assent."

The Postal Railway Commission.

At the recent session of the Postal Railway Commission in Louisville, Ky., Mr. Albert Fink of that city, one of the most competent railway statisticians in the country, was examined at great length upon two points. The Commissioners say that his testimony was of great practical importance. The Board has for some time been endeavoring to ascertain some equitable basis for compensation to railway companies for postal transportation, but found much difficulty in obtaining from the railways an official statement of the methods by which they arrive at what they regarded as adequate compensation for this service.

Mr. Fink announced, unreservedly, that in his judgment a rate of payment of 50 per cent above the cost of operating the road would be equal to the compensation received by the managers of such roads for other kinds of transportation. On the question of speed the Commissioners say that his views were equally explicit and clearly expressed. He declares in favor of the practicability of ascertaining the cost of increased speed in postal transportation, and in order to ascertain the rates of payment for such increased speed announced the novel but reasonable theory that it would involve no material increase in the cost of fuel to move a railroad train 50 miles in one hour than it would 50 miles in two hours; but as the amount of steam required to move a train at greater speed would be twice as much in the same time, and the steam generating power of a locomotive being limited, the weight it could haul at double the speed would be only one-half.

The Coal Trade.

The total tonnage for the week ending on the 7th instant, as reported by all the companies, amounted to 542,246 tons, against 551,964 tons in corresponding week last year, a decrease of 9,718 tons. The total amount of anthracite mined for the year is 13,329,512 tons, against 15,164,974 for same period last year, a decrease of 1,835,462 tons. The quantity of bituminous coal sent to market for the week was 67,159 tons, against 90,826 tons for corresponding week last year, a decrease of 23,667 tons. The whole bituminous tonnage from the beginning of the coal year is 2,725,852 tons, against 3,023,892 tons in corresponding time last year, a decrease of 298,040 tons. The total tonnage of all kinds of coal for the week is 609,405 tons, against 642,790 to corresponding date last year, a decrease of 33,385 tons, and the total tonnage for the coal year is 16,055,364 tons, against 18,188,866 tons to same date last year, a decrease of 2,133,502 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 103,139 tons, of which 85,252 tons were coal and 17,887 tons coke. The total carried this year is 3,353,094 tons, of which 2,685,252 were coal and 557,231 coke. This total embraces all the coal carried over the road, east and west.—*Phila. Ledger, Oct.* 16.

Wisconsin Central Railroad.

It is with no ordinary pleasure that we are able to announce that the straight line from Stevens Point to Portage City will be finished on the 18th of October, and regular trains will soon thereafter be placed on the road in connection with the Milwaukee and St. Paul trains at Portage. This branch constitutes seventy-two miles of new railroad, and that, too, completed within a year after the first spade was put into the ground. The Wisconsin Central has constructed the only long line of railway within our state in 1876. This road will be of vast importance to central Wisconsin, for the reason that the lumber of the North can be distributed at Madison and all other points in the interior, and the lumbering districts can receive in return the wheat and other products of the fertile lands of southern Wisconsin. Stevens Point is now equi-distant from Milwaukee, either via Menasha or via Portage City. The completion of this valuable feeder to the business of the state is due in a great measure to the untiring energy of E. B. Phillips, the General Manager, and Chas. L. Colby, the Treasurer of the corporation. They have had to undergo difficulties in the construction of the Wisconsin Central, which would have appalled ordinary men. But their indomitable perseverance, their faith in the future, and their honorable mode of representing to eastern capitalists the true condition of their enterprise, has enabled them to obtain capital for the construction of this railroad at a time when a paralysis has stricken all other similar undertakings in the Northwest.—*Mil. Wis.*

☞ Articles of incorporation have been filed in the office of the Secretary of State of California of the Folsom and Placerville Railroad Company—organized for the construction and maintenance of a railroad commencing at Folsom, there connecting with the Sacramento Valley Railroad, and running thence to Placerville, a distance of forty miles. Capital, $1,000,000, in shares of $100 each. Directors—Nicholas T. Smith, David T. Phillips, James O. B. Gunn, Daniel Z. Yost and Alexander D. W. McCullough. The principal place of business will be in San Francisco.

☞ Articles of incorporation have been filed with the Secretary of State of California of the People's Railroad and Ferry Company, to construt a railroad from Warm Springs, on the Southern Pacific Railroad, to Alameda Point, and to maintain a ferry thence to San Francisco—a total distance of about 40 miles; capital, $2,500 000, in shares of $100 each; Directors—F. Beahmer, W. W. Lawton, E. M. Smith, Carl Peterson, Conrad Liese, Geo. O. Smith, Jr., and C. M. Radcliff; the principal place of business will be in Alameda.

☞ The directors of the Baltimore and Ohio Railroad Company have declared a semi-annual dividend of 5 per cent on the stock of the Main Stem, payable 1st of November. A resolution was adopted stating that it was inexpedient to declare a dividend on the stock of the Washington Branch, in view of the State's claim of 20 per cent of gross receipts from passengers, which the company ceased to collect in December, 1870.

☞ The Lafayette, Bloomington and Mississippi Railroad Company have executed a lease of their line, from Bloomington to Lafayette, 118 miles, to the Lafayette, Muncie and Bloomington Railroad Company. The officers of the former company are: C. R. Cummings, of Pekin, President; John Cheney, of Bloomington, Vice President; and J. B. Cahers, of Pekin, Secretary and Treasurer.

Improvement in the Iron Trade.

It is stated that in consequence of the cheapening of coal the manufacturing industries throughout the country are giving marked signs of improvement. Numbers of the iron furnaces of Pennsylvania that have been idle for a long time past are either at work or are preparing to go into blast. This movement is also traceable to the more advanced industries. The rolling mills at Pittsburg are all said to be busy with contracts ahead for rails for a large number of the Western and Middle States railroads, which are generally in the market for new rails to put their tracks in proper repair for their fall traffic. Advices from the north of England show like symptoms of returning activity. The demand for many descriptions of manufactured iron and steel is more active. Prices are steady, but it is stated that makers show more firmness.

The Russian Iron Trade.

The great central market for iron in Russia is the Nijni-Novgorod fair, to which the ironmaking establishments of the Oural send annually upwards of 100,000 tons of iron. This production arrives at Nijni-Novgorod by means of convoys of boats which descend the Tchoussova, Bielaya, Kama, and Volga. The navigation is long and dangerous, and scarcely a year elapses in which several boats' cargoes are not lost on the Tchoussova. From Nijni-Novgorod Russian iron is forwarded into neighboring districts and to St. Petersburg. At Rigi and Odessa it has to contend against the competition of State establishments at Tombof, Riazan, Waldimir, and Kalouga.

Italian Railways.

At the close of 1875, Italy had 4,716½ miles of railway in operation. These lines had involved a total outlay of £82,822,120. The outlay made for rolling stock on the same, £9,010,720. The largest proportionate amount of rolling stock appears to have been placed upon the Upper Italian lines. This group of lines also involved the greatest proportionate cost in its construction. Including rolling stock, the average cost of the Italian railways to the close of last year, will be seen to have been about £19,000 per mile.

☞ At a meeting of the directors of the Western Union Telegraph Company, held on the 13th inst., the following officers for the ensuing year were elected: President, William Orton; Vice-Presidents, Augustus Schell, Norvin Green and Harrison Durkee; Secretary, H. R. Brewer; Treasurer, R. H. Rochester; Executive Committee, William Orton, James H. Banker, Alonzo B. Cornell, Harrison Durkee, Norvin Green, Joseph Harker, E. D. Morgan, Augustus Schell, W. K. Thorn, C. Vanderbilt and Frank Work.

☞ It is authoritatively stated that the Northern Central Railway Company will pay the York and Cumberland bonds, upon which the city of Baltimore is endorser, at their maturity on the 1st January next. These bonds amount to $500,000.

☞ Signor Pierotti, a railroad man, who has long resided in Palestine, has proposed to the Pope to make Jaffa a seaport, and connect it with Jerusalem by a railroad. The Sultan had already given his sanction, and both Pio Nono, as well as Cardinal Francia are favoring the scheme.

Ohio and Mississippi Railroad.

At the annual meeting of the stockholders of the Ohio and Mississippi Railroad company, held at Cincinnati, Ohio, on the 12th inst., the following gentlemen were elected directors to serve for four years, (October, 1876, to October, 1880) viz: W. H. Bloodgood of New York, (vice J. D. Lehmer resigned) and Gen. L. B. Parsons of Flora, Ill., and Frank W. Tracy of Springfield, Ill., whose terms of office expired by rotation. All the officers were re-elected, and the meeting was harmonious. The Executive and Finance Committee at New York are Daniel Torrance, John King, jr., and M. H. Bloodgood. Gen. L. B. Parsons, Frank W. Tracy, and Theodore G. Meier constitute the Auditing Committee at St. Louis.

The directors, as now constituted, are: W. H. Bloodgood of New York, Lewis B. Parsons of Flora, Ills., and Frank W. Tracy of Springfield, Ills., till October, 1880; Robert Garrett of Baltimore, J. Pierrepont Morgan and Daniel Torrance of New York, till October, 1879; Charles A. Beecher of St. Louis, Sir A. T. Galt of Montreal, and W. T. McClintick of Cincinnati, till October, 1878; John King, Jr., and Theodore G. Meier of Baltimore, W. W. Scarborough of Cincinnati, and Wm. Whitewright, Jr., of New York, till October, 1877.

The officers of the company are: Daniel Torrance of New York, President; A. N. Chrystie of St. Louis, Vice President and General Superintendent; Charles S. Cone of St. Louis, Treasurer; W. Arnold of St. Louis Auditor; and Wm. M. Walton of New York, Secretary.

☞ At a meeting of the directors of the Cincinnati and Portsmouth Narrow Gauge Railroad Company at No. 31½ West Third st., Cincinnati, on the 9th inst., Captain Wellman, Superintendent of the road, and Paul Mohr, Consulting Engineer, were instructed to proceed to Bethal and have the line surveyed and located, and also to secure the right of way from Bethal to Portsmouth, preparatory to letting contracts between those two points.

☞ The Coos Bay (Oregon) *Record* says that there has been discovered a mine of bituminous coal on the middle fork of the Colquille river, about 14 miles above tide water. There have been discovered five distinct veins of coal in this locality, upon all of which have been run prospect tunnels. One vein is 17 feet thick, and has the appearance of an excellent quality of bituminous coal.

☞ Messrs. Donahoe and Buckley, contractors on the Southern Maryland Railroad, with their respective forces, are still at work, one near California and the other near Oakville. The engineers are between Chancellor's Run and St. Mary's City, leveling up preparatory to the advance of the contractors to that locality.

☞ A certificate has been filed with the Secretary of State of Ohio of the Bellaire and Southeastern Railroad Company — extension from Woodsfield, Monroe county, through Morgan, Noble, Washington and Athens county, to Athens.

☞ The Isthmus Transit Railway, Coos county, Oregon, was sold at Sheriff's sale last week to J. W. Bennett.

John Stephenson Improvements.

Mr. John Stephenson, of this city, has filed a bill against the Chicago West Division Railway Company to restrain the further infringement of the following patents: design for a lamp box for railroad cars, issued June 14, 1864; a latch for railroad car doors, issued December 13, 1864; an improvement in running gear for railroad cars, issued June 25, 1864; a new and useful improvement in street cars, issued February 23, 1869; a signal light for street cars, issued March 16, 1869; a new and useful improvement in roofs for railroad cars, issued January 22, 1867. Several of the above patents were reissued in 1875 and 1876. The complainant asks for damages for the infringement, and also prays that the cars on which the improvements have been used may be destroyed.

☞ The greatest length of the Island of Cuba, following its curve, is about 660 miles; its breadth, which is very irregular, varies from 11 to 135 miles, while the coast line may be estimated at 1,800 miles. The total area, with dependencies, 48,489 English square miles. The population numbers 1,370,211 people, of which 764,750 are whites, and the remainder colored persons, viz., 225,938 free negroes and 379,523 slaves. This computation is irrespective of the Spanish military force stationed in the island.

☞ Pursuant to a decree of the United States Circuit Court, the Atlanta and Richmond Air Line Railroad is to be sold at Atlanta, Ga., on the 5th of December. The road from Atlanta, Ga., to Charlotte, N. C., 265 miles, will be sold in one parcel. The purchaser must pay 10 per cent of his bid in cash and the balance in cash by December 26; provided that, if the property is bought by or for the bondholders, bonds and unpaid coupons may be received in payment at their *pro rata* value.

☞ The El Dorado and Walnut Valley Railroad Company has been organized to build a railroad from Elinor, Kansas, a point on the Atchison, Topeka and Santa Fe Railroad, fifteen miles west of Emporia, southward through Chase, Butler and Cowley counties to the Indian Territory line, about 100 miles. There is also to be a branch to Eureka, in Butler county, twenty-two miles. It is intended so make the road of standard gauge, and a branch of the Atchison, Topeka and Santa Fe.

☞ The Chicago and Southwestern Railroad, with all its property and franchises, is advertised for sale November 1, under the first mortgage. The road extends from Washington, Iowa, to Leavenworth, 300 miles, and has been leased for years by the Chicago, Rock Island and Pacific Railroad Company. It will be bought in by the present lessees.

☞ A bill has been filed in the U. S. Circuit Court for the foreclosure of the first mortgage on the Western Division of the Lafayette, Muncie and Bloomington Railroad—extending from Lafayette, Ind., west to the Illinois State line, 87 miles. There are $660,000 bonds outstanding under this mortgage. The court has appointed Hon. Jacob D. Cox, Receiver.

☞ The directors of the Sacramento City Railway Company have elected E. K. Alsip President, and J. H. Miller Secretary.

American Railroad Journal.

Saturday, October 21, 1876.

Financial and Commercial Affairs.

There has been renewed excitement on our Stock Exchange, and some sharp fluctuations in values, but on the whole the Bull party have had the advantage. The "street" has been made the scene of two notable efforts to circulate false news, with the purpose of causing a decline in the shares of the New York Central and Hudson River Railroad. An apparently well authenticated report of the decease of Mr. Vanderbilt was circulated; and authority equally as good to all appearances, though more easily detected, to the effect that the Pennsylvania Railroad Company had made a further reduction on its through freight, was put out. The report respecting Mr. Vanderbilt obtained wide credence, because his health has for some time been precarious; but the other report was quickly corrected. These efforts to circulate false intelligence were construed as a confession on the part of the Bears that their position was critical, and the reaction was strongly against them, and especially so in the Western roads, Chicago, Milwaukee and St. Paul advancing smartly on more favorable reports of its earnings for the current month.

The anticipation of early hostilities in Europe, between some or all of the great powers, is affecting favorably the value of Western railroad shares, in the belief that the movement of Western products will thereby be greatly increased, and the "coal roads" have to some extent sympathized with them. A report that the Philadelphia and Reading Railroad Co. was embarrassed tracts. On Wednesday, there was the greatest was denied, and caused a demand to cover con-

excitement and an important advance in "coal stocks." Delaware and Hudson Canal rose from 68 on Tuesday to 82½, but receded towards the close to 74⅞. Delaware, Lackawanna and Western also fluctuated widely. Four brokers' firms involved with the Bear party suspended, and there was much buying under the rule. The whole market closed quite feverish Wednesday afternoon. Railroad bonds have maintained their position firmly, with a somewhat increased business. It is reported that at a conference of railroad officials next week at Detroit, through rates of freight over the great trunk lines to the West, will be materially advanced.

Gold has been excited and advancing, on the war rumors from Europe, and closed on Wednesday at 111⅛, after selling at 113¼. Sterling Exchange has ruled quiet, but very firm, closing at $4 83½@$4 84 for prime 60 day bills. Exports continue large, and in the week ending Wednesday aggregated $6,137,981, against $5,460,884 for the corresponding week last year; and $215,055,980 since January 1st, against $202,184,906 for the corresponding period last year.

Government Bonds have advanced materially. They have been greatly sought after in European markets, at higher prices, as the anticipations of a general war in Europe have increased. A cable despatch on Wednesday, from London, reported foreign securities unsettled with great excitement, but the close in this market on that day, was as follows:

United States currency sixes, 124@125; do. 6s, 1881, registered, 117¾@118; do. coupon, 119@119½; do. 1865, registered, 110⅛@110¾; do. coupon, 114@114½; do. new, registered, 113¼@113⅜; do. coupon, 113¼@113⅜; do. 1867, registered, 116@116¼; do. coupon, 116@116¼; do. 1868, registered, 117@117½; do. coupon, 117@117½; do. ten-forties, registered, 114⅝@114⅞; do. coupon, 115½@116; do., fives, 1881, registered, 113½@113¾; do., coupon, 115@115¼; do. four and one-halfs, 110½@111¼.

Cotton has been depressed by the warlike character of the news from Europe, and other adverse influences, but Breadstuffs have been advancing, and Provisions taken more freely. There was on Wednesday much solicitude felt concerning the effect upon trade of the war panic in London. General trade remains quite dull; but ingot copper has advanced, 21@21½c, on spot and to arrive. American pig iron is more active at $22 for No. 1. A comparatively limited extent of room on berth has caused an advance in ocean freights. The weather has been very cold the past week, and threatens an early closing of inland navigation.

The rate for money on call has advanced to 3@4, and discounts for first-class paper to 5@7 per cent, a very natural effect of the excitement prevailing. The last bank statement showed a slight weakening of the position of leading items. While loans decreased only half a million, deposits decreased over four millions. The banks lost over a million in gold. Still, the surplus in excess of legal reserve was 13½ millions, or more than double the amount one year ago.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.— Chicago, Rock Island and Pacific 6s, S. F., 108; Cleveland and Toledo 7s, new, 105½; Toledo and Wabash Equipment bonds, 20; Nashville and Decatur 1st mort., 87¾; Buffalo and Erie 7s, new, 105; South Pacific of Mo. 6s, 70; Chesapeake and Ohio R. R., coupon on, 24; Canada Southern 1st mort., coupon on, 55; Rensselaer and Saratoga R. R., 110; New Jersey Southern R. R., 1; Missouri, Kansas and Texas R. R., 7¾; do. S. F., bonds assented, 58¾; do. consol. S. F. bonds, 59¼; Mariposa L. and M., 7; do. pref., 6¾; Maryland Coal, 10; Canton Co., 30; Missouri 6s, long bonds, 107⅞; Alabama 8s, 1886, 32¼; Virginia 6s, consol., ex mat. coupon, 68⅛; Tennessee 6s, new series, 44; do. 6s, new, 44¼; do. old, 44½; Louisiana 7s, consol., 59⅜. FISK & HATCH,

Bankers,

No. 5 NASSAU ST., NEW YORK.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Govment Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

Erie Railway.

The report of Hugh J. Jewett, Receiver of the Erie Railway Company, for the month of July, 1876, submitted by Hon. James C. Spencer, referee, was filed in the County Clerk's office on the 13th inst. From this it appears that the receipts during the month (including $429,020 40 at the commencement) were $2,193,611 48, of which $225 15 was on old account and $100,000 money borrowed on call. The payments for the month were $1,804,846 10, of which $50,000 was repayment of call loans, $165,000 payment of receiver's certificates, $10,799 30 for the purchase of the coal lands, and $1,592 56 on old account. The cash balance at the close of the month was $388,765 88. During the month certificates of indebtedness were issued to the amount of $3,251,539 40; and certificates and notes paid and cancelled, $1,981,579 40, leaving the amount of outstanding certificates $1,270,000—a decrease of $165,000 during the month.

☞ Col. H. I. Chapman, engineer of the Portland, Dallas and Salt Lake Railroad, reports the route to Marsh Valley, Idaho, over the Malad Pass both easy and practicable, with no greater grade than 90 feet per mile, with a ruling grade of 70 feet. The road has been located to Malad City, Idaho, and the engineers are now at work completing the cross sectioning, and a large force of graders are preparing the road bed as fast as possible. Contracts have been made for ties.

☞ A correspondent writing from Arkansaw, Pepin County, Wisconsin, says "there has been more building done here this season than any former one, and with the present prospect of the speedy completion of a railroad from Menomonie to Read's Landing, via Eau Galla and Arkansaw, we expect the population and business to double within a year."

The Canton Company and Union Railroad.

At the recent meeting of the directors of the Canton Company of Baltimore, the reports of the Canton Company and Union Railroad company were read, and a statement of the traffic of the Union Railroad Company and elevator submitted. A comparative statement of the traffic of the Union railroad for the months of June, July, August and September, 1876, with the same months of 1875, show as follows: total cars of freight for four months of 1876, 8,513; same time 1875, 5,835—gain, 2,678; passengers carried past four months, 108,028; same time 1875, 67,000—gain, 41,028; revenue past four months, $34,635 60; same time 1875, $18,899 30—gain, $15,736 30. The past month of September 46,500 passengers were carried, against 18,000 in September, 1875. Comparative receipts of grain at the Canton Union elevator for nine months of 1876 with the twelve months of 1875, show as follows: cars of grain for nine months of 1876, 8,217; for twelve months, 1875, 5 042, or 3,175 more cars in the past nine months than for the year 1875. There were 8,553,339 bushels grain received the past nine months, against 2,217,513 bushels in the year 1875, a gain in the nine months over the previous twelve months of 1,335,826 bushels. The officers of the Canton company are: Charles J. Baker President, Wm. W. Jaune Secretary.

Los Angeles and San Diego Railroad.

The Los Angeles and San Diego Railroad Company filed its articles of incorporation yesterday. It is proposed to construct, own, maintain and operate a line of railroad and telegraph, situated in the counties of Los Angeles and San Diego, commencing at the city of Los Angeles, running thence in a southeasterly direction to the town of Anaheim; thence northeasterly, by the most practicable route, to San Diego.

The estimated length is one hundred and forty miles. The Directors of the corporation are: Leland Stanford, David D. Colton, Mark Hopkins, Charles Crocker and B. B. Redding. The capital stock is $5,600,000, divided into shares of $100 each. One thousand dollars for each mile of road has been subscribed.—*Alta, Oct.* 10.

☞ Articles of incorporation have been filed with the Secretary of State of California of the Berkeley Branch Railroad Company, organized for the construction of a railroad from Temescal creek, Alameda county, to the town of Berkeley, a distance of three and one-tenth miles; capital, $100,000, in shares of $100 each. Directors—Leland Stanford, Collis P. Huntington, Mark Hopkins, David D. Colton and Chas. Crocker. The principal place of business will be in San Francisco.

☞ We are informed that the sale of the Geneva and Ithaca Railroad, purchased by the Lehigh Valley Railroad, has been confirmed by the proper court, and that as soon as the necessary reorganization can be effected the payment of the suspended interest on the bonds of both this company and the Ithaca and Athens Railroad Company, sold to the same party at about the same time, will be paid, say about the 1st of November.

☞ The earnings of the Midland Railway of Canada for the week ending September 30, 1876, were $11,996 84; same week last year, $10,597 26—increase $1,399 58. Total traffic to date, $201,088 19; ditto, year previous, $217,925 84—decrease, $16,887 65.

South Eastern Extension Railway.

The railway from Sorel to Acton, 54 miles, has been finished for some months, but owing to differences existing between the contractors and the South Eastern Railway Company of Canada, it has not yet been opened for regular traffic. This road was first built from Sorel to Drummondville and L'Avenir, with wooden rails by the Richelieu, Drummond and Arthabaska Railway Co., which has since been amalgamated with the South Eastern, and iron has been obtained to complete the track to the junction with the Grand Trunk at Acton. There remains a distance of 24 miles to be completed to connect with the main line of the South Eastern at Waterloo, but several hundred men are now at work on both ends of the road, and if the weather remains open during the fall it is expected that the grading will be finished throughout and rails laid as far as Roxton Falls.

Ogdensburg and Lake Champlain Railroad.

On the 16th inst. the Ogdensburg and Lake Champlain Railroad Company seized their road from the Central Vermont Company for non-payment of rent. William J. Averill, of Ogdensburg, was appointed by the Supreme Court of New York Receiver of the property, and he appointed John C. Pratt, the President of the old company, General Manager. The Central Vermont officers have notified their employes to obey the Receiver at present, and until some other arrangement is made will transfer passengers, baggage, and freight at Rouse's point.

☞ The work of laying the track on the Spring Hill and Parrsboro Railway is soon to be begun. The grading was nearly all completed last year. The road will be about 25 miles long, from the Intercolonial at Spring Hill, Nova Scotia, southeast to Parrsboro on the Basin of Minas. It is intended to serve a coal region of considerable extent.

☞ At the annual meeting of the Concord and Portsmouth Railroad Co., held at Manchester, N. H., on the 5th inst., the following Directors were chosen for the ensuing year: Stephen Kenrick, Franklin; Samuel N. Bell, Manchester; Benjamin F. Martin, Manchester; Joseph B. Walker, Concord; Nathan Parker, Manchester; John J. Pickering, Portsmouth; John J. Bell, Exeter.

☞ The president of the Atchison, Topeka and Santa Fe Railroad, Mr. Thos. Nickerson, accompanied by Mr. Robinson, chief engineer of the company, lately prospected the line from Pueblo, across into the Animas valley, with a view to an estimate of the difficulties and probable cost of an extension of that road from Pueblo to the waters of the Colorado.

☞ The officers of the North Simcoe (Ca.) Railway Co., elected at a meeting of the shareholders held at Barrie on the 3d inst., are: J. S. McMurray, President; A. A. Thomson, Penetanguishene, Vice President; Jeffrey Beck, H. H. Thomson, Wm. Kelley, Alex. Manning, Directors; and T. R. Fuller Secretary-Treasurer.

☞ Work has been commenced on the extension of the Southeastern Railway of Canada—20 miles from Waterloo, P. Q., to Sorel. A considerable force has been put on the grading, which it is intended to complete so that the track can be laid early next spring.

Central Railroad and Banking Company of Georgia.

The following is a statement of the principal points involved in the decision of the United States Supreme Court in the case named:

No. 577—The Central Railroad and Banking Company, plaintiff in error, agt. The State of Georgia; in error to the Supreme Court of the State of Georgia.—By an act of the Legislature of Georgia, enacted in 1833, a charter unlimited in duration, was granted to "The Central Railroad and Canal Company of Georgia," with power to construct a canal or railroad from Savannah to Macon, the canal or railway not to be subjected to be taxed higher than one-half per cent upon its annual net income. In 1835, by an amendment to the charter, the name of the company was changed to "The Central Railroad and Banking Company of Georgia;" its capital stock was declared to be $3,000,000; and the 18th section of the amendment enacted that "the said railroad and appurtenances of the same shall not be subjected to be taxed higher than one-half of one per centum upon its annual net income, and no municipal or other corporation shall have the power to tax said company, but may tax any property, real or personal, of the said company within the jurisdiction of said corporation, in the ratio of taxation of like property." Under this latter act the company was organized in 1836, and proceeded to build the railroad. By subsequent enactments the capital stock was increased to $5,000,000. In 1847 the Legislature incorporated the Macon and Western Railroad Company, with power to build a railroad from Macon to Atlanta. An amendment to the charter increased the capital stock to $2,500,000, and the chartered rights of the company were continued for 30 years from its passage, and the road was to pay the same tax as the other railroad companies. The railroad was constructed to Atlanta. On the 24th day of August, 1872, the Legislature passed an act authorizing the consolidation of the two companies under the name of the first named, "The Central Railroad and Banking Company of Georgia." The stockholders of the old companies were to receive certificates of stock in the new company to an equal amount as their old stock. In the manner prescribed by law the companies consolidated. Thus matters stood when, on Feb. 28, 1874, a law was passed defining the liabilities of railroads to taxation, and repealing so much of their charters as conflicted with the law. Pursuant to this act of 1874, the Controller-General assessed a tax of $46,034 87 against the Central Railroad and Banking Company, and issued an execution to collect it. The company then paid the tax of one-half of one per cent required by the prior law, and instituted proceedings in the mode provided by the statute to resist the exaction of the remainder, on the ground that by its charter it was not subject to be taxed higher than one-half of one per centum of its annual net income, and that the tax of 1874 impaired the obligation of its contract with the State. Having failed in the State courts, the case is brought here for review. It is not denied that by the provisions of the charter granted in 1833, amended in 1835, and accepted by the Central Railroad and Banking Company, a contract was made that the company should not be taxed higher than one half of one per cent upon its net income. Nor is it denied that the protection thus promised was as perpetual as the existence of the company itself. But it is contended on behalf of the State that the charter granted in 1833 and amended in 1835 was surrendered by the union and consolidation of the company under the act of 1872 with the Macon and Western Railroad Company, and that the company is now existing under a charter granted by the latter act. By the construction placed upon the act of 1872, however, no such union of the two companies was authorized as would work a surrender of their charter by both of them and the creation of a new company; at most, it intended a merger of the Macon and Western Railway Company into the other, a mode of transfer of that company's franchises and property, and a payment therefor with the stock of the Central Company. But this gift of new powers did not destroy the indentity of the Central Company, nor did the union of the Macon and Western Company with the Central Company have the effect to exempt it from taxation, but it remained subject to all prior liabilities, the Central Company taking it as it then existed.—Reversed. Mr. Justice Strong delivered the opinion.

Commerce of New York.

The foreign imports at New York for the month of September, 1876, are officially stated as follows:

	1875.	1876.
Entered for consumpt'n.	$11,962,598	$10,897,834
Do. for warehousing	5,251 758	5,580,492
Free goods	6,059,501	5,185,662
Specie and bullion	1,236,183	1,865,961
Total entered at port...	$24,510,040	$23,529,949
Withdrawn fr. wareh'use	10,347,320	6,848,729

The foreign imports at New York for nine months from January 1, were:

	1875.	1876.
Entered for consumpt'n	$118,511,584	$98,332,590
Do. for warehousing...	77,048,936	64,780,357
Free goods	69,897,922	57,211,287
Specie and bullion.....	9,957,618	5,472,696
Total entered at port..	$275,416,060	$225,796,930
Withdrawn fr. wareh'se	77,078,890	62,668,781

The following is a description of imports for nine months ending September 30:

	1875.	1876.
Dry goods	$85,349,404	$65,343,169
General merchandise...	180,109,038	154,981,065
Specie and bullion.....	9,957,618	5,472,696
Total imports.....	$275,416,060	$225,796,930

The duties received at New York for nine months ending with September, were:

	1875.	1876.
January.....	$8,072,846 12	$8,160,728 44
February.....	11,811,046 95	9,473,003 56
March.....	10,323,619 78	10,237,275 36
April.....	9,603,087 82	7,764,457 04
May.....	7,474,171 61	7,575,997 28
June.....	6,656,462 06	6,619,735 25
July	9,273,546 61	7,497,199 39
August	11 417,505 51	10,125,386 42
September	10,163,829 28	8,634,411 36
Total.....	$84,796,115 74	$76,088,194 10

The exports from New York to foreign ports in the month of September, were:

	1875.	1876.
Domestic produce	$18,974,565	$24,675,821
Foreign free goods	43,502	108,764
Do. dutiable.....	445,027	243,555
Specie and bullion.....	1,295,904	1,141,546
Total exports.....	$20,768,998	$26,169,686
Do. exclusive of specie.	19,463,094	25,028,140

The exports from New York to foreign ports for nine months from January 1, were:

	1875.	1876.
Domestic produce	$179,560,771	$191,772,505
Foreign free goods	1,545,298	2,386,628
Do. dutiable	4,575,411	4,695,458
Specie and bullion	61,586,204	39,842,793
Total exports	$247,267,684	$238,697,384
Do. exclusive of specie.	185,681,480	198,854,591

Roofs of Enormous Width.

The desire to construct the largest single roof in the world was achieved in the roof of the Midland Railway Station at St. Pancras, which now possesses that distinction, having eclipsed the roof of the Imperial Riding School at Moscow by a few feet, the span of the former being 240 feet, and that of the latter 235 feet. But, apart from ambitious motives, the principal reason for adopting these large single spans is that it obviates the necessity for columns or other intermediate supports which hamper the station arrangements and interfere with alterations, should they become necessary. The most recent examples of large span roofs are to be found at Glasgow and Manchester, both of which are in course of construction. The Glasgow roof is to cover the large new station at St. Enoch Square for the Glasgow Union Railway, and which is to be used by the Glasgow and Southwestern and Midland Railways. This roof, which is well advanced toward completion, is of the same general character as that of the Midland Railway, already referred to. It is, however, smaller, the Glasgow roof having a span of 198 feet, and a length of 518 feet, as against a span of 240 feet and a length of 689 feet in the Midland roof. The new roof will be 90 feet high from platform level, and will be supported by fifteen main ribs, twelve of which have already been erected in place, and the ironwork for the remaining three is being sent forward. The total weight of the iron work in this roof is about fourteen hundred tons. The roof at Manchester is for the new joint station of the Midland, the Great Northern, and the Manchester, Sheffield and Lincolnshire Railways and the works have recently been commenced. The design is also of the same character as that of the St. Pancras roof, the span being 210 feet and the length 550 feet. The cast and wrought iron will weigh upwards of twenty-three hundred tons, of which nearly the whole will be in the roof itself. It is expected that the Glasgow roof will be completed next Summer, and the Manchester roof during the following year.—*London Times.*

☞ The experimental use of coal dirt in puddling iron at the steam forge of the Philadelphia and Reading Company is proving completely satisfactory. The quantity of iron puddled in a day has been doubled since the beginning of the trial, and the iron is clean and of excellent quality, as tests have shown. The puddlers in charge of the furnace are of the opinion that the experiment will prove a complete success in every respect.

☞ The fact that there are two thousand or more deserted farms in New Hampshire has attracted the attention of the Board of Agriculture of that State, and it is proposed to make an effort to reclaim them by the appointment of a board of commissioners, who shall fix the price of the land, to be paid by the purchaser after two or three years of occupation, without paying the rent, but paying the taxes.

☞ It is proposed to carry a telegraph across Africa, from the Mediterranean to the Cape of Good Hope. There is at present telegraphic communication from Alexandria to Khartoum, a distance of 1100 miles, and surveys have already been made for its continuance to Gondokoro.

☞ The Phœnix Manufacturing Company of Peterboro', N. H., has decided to purchase new machinery to the extent of $8000 to $10,000, and to start up as soon as it can be placed in position. The Union Mills at West Peterboro' will also purchase, but to a less amount.

The Public Lands.

Hon. J. A. Williamson, Commissioner of the General Land Office, has furnished the Secretary of the Interior a synopsis of his forthcoming annual report, of which the following are the main points of interest:

The cash receipts of the office during the fiscal year ended June 30 aggregated $1,747 215. The total number of acres of public lands disposed of during the year was 6,524,326, of which 2,875,910 acres were absorbed by homestead entries; 607,985 acres were obtained by entries under the Timber Culture law; 1,008,000 acres were approved to various States as swamp lands; 1,001,078 acres were certified to railroads under land grants of Congress, and 640,692 were disposed of by ordinary cash sales. The total disposals were 545,945 acres less than those of the preceding year. 21,806,517 acres were surveyed during the fiscal year, and 680,253,094 acres had been previously surveyed, yet leaving to be surveyed in the lands, States and Territories of the United States 1,132 665,244 acres.

The commissioner concurs in the opinion of his predecessor, that the public domain west of the 100th meridian and east of the Sierra Nevada mountain, should not be surveyed in minute subdivisions according to the present system except only the small portions which are susceptible of cultivation without artificial irritation. He furthermore recommends in regard to this portion of country that barren lands should be thrown open to purchase in tracks of unlimited size, as they are worthless without irrigation, which cannot profitably be undertaken for small areas of 160 acres each. He likewise renews the recommendation of Commissioner Burdnette that as the only practicable means of preserving the forests of the country from waste and destruction, the government timber lands should be transferred to private ownership by immediately surveying and offering them for sale in unlimited quantities at not less than properly appraised valuations. Commissioner Williamson also recommends the consolidation of the Pre-emption and Homestead laws into one general homestead system, and urges the correction of certain errors in the compilation of the Revised Statutes, and suggests legislation authorizing the bureau to dispose of its publications such as the "Centennial Map" and the "Centennial Atlas" at prices which will cover their cost and meet the continuous heavy demands for them which have now to be almost invariably refused.

River Improvement.

DELAWARE RIVER CLEARED OF OBSTRUCTIONS AT SMALL EXPENSE.

MIDDLETOWN, N. Y., Oct. 11, 1876.

L. W. Terwilliger, U. S. Tyler and Grinnell Burt, the commissioners charged with the expenditure of $15,000 appropriated by the State for the improvement of the Delaware River in Delaware, Sullivan and Orange counties, for rafting purposes, have substantially completed their work, which has proved a complete success. By the construction of numerous breakwater dams, the blasting of rocks and the removal of bars, the channel is rendered entirely safe for rafts for a distance of 150 miles. The dams aggregate 2,000 feet in length and consumed 150,000 feet of lumber and several tons of iron. Among the rock reefs removed is Sim's Clip, which caused the Port Jervis ice gorge. A large number of rafts passed down the river since the improvement without a single mishap. It is estimated that the saving to lumbermen in damage to rafts will pay the cost of the improvement several times every year.

☞ Track layers on the Columbus and Toledo railroad have reached Morral, fifty three miles from Columbus, having ten miles more to lay before reaching the end of the track at Upper Sandusky. The northern gang is at Pemberville, seventeen miles south of Toledo.

MISFIT CARPETS.

English Brussels, Three-Ply and Ingrain, also, Stair Carpets, Velvet Rugs, Crumb Cloths, Oil Cloths, etc., very cheap at the Old Place,

112 FULTON STREET, NEW YORK.

The Threatened European War and American Railroads.

A general war, in which all or nearly all the great powers of Europe may be more or less involved, is almost universally believed to be impending. Beginning with a revolt of some of the Provinces of European Turkey, the struggle has gradually drawn in other interests and other powers, until war between Russia and Turkey may be said to exist. As the struggle shall progress, it will be watched with the keenest interest by the British Government. The integrity of the Turkish Empire is regarded as essential to the maintenance and preservation of British powers in the East Indies, and anything which is of a character to seriously threaten them will be regarded by the British government and people with the greatest jealousy. Success of Russia in the prosecution of its demands against Turkey, and the weakening of the latter power, under the tremendous blows of her northern neighbor, can scarcely fail, therefore, to bring the giant power of England into the struggle. What positions Austria, Germany, France and Italy may assume in the conflict is not easy to foresee. But it may be assumed that neither can wholly avoid being drawn into the great struggle.

It is assumed that a general European war will prove advantageous to American railroads by greatly increasing their business, and attracting European capital to them, by means of which their improvement and extension may be effected. These anticipations are probably correct. War is a great destroyer of railroads; and the march of contending armies can hardly fail to prove a serious detriment to railroads on the Continent, however the business of others may be stimulated. The peace and order which prevails in the United States are highly favorable to the development of our railroad system. A European war will greatly stimulate the demand for nearly all staples of American agriculture for shipment, and delivering this merchandise to the seaboard will add greatly to the business of our railroads. This additional demand for our products of agriculture will undoubtedly enhance prices materially; and the higher prices paid to the farmers for their products, will enable them to purchase more freely of the comforts and luxuries, thus increasing the return business of the railroads, and stimulating the commerce and manufactures of the country in a manner that is most effective in promoting, indirectly, railroad earnings.

We may reasonably anticipate, therefore, a new era of prosperity to American railroads. Works of such importance cannot long be under a cloud. And it is to be hoped that their management will now receive a new direction; that the effort will be to improve rather than to extend; to finish what is begun, rather than set on foot new enterprises; to pay off old obligations, and reduce bonded debts, rather than take on new burdens. If this course be pursued, the era of prosperity that will follow a general European war, will be a lasting one; otherwise, it may be followed by a period of prostration as severe as any in our experience.

☞ The United States Circuit Court at St. Louis has made an order that upon the payment of $50,000 cash, and the execution of a properly secured bond for $550,000, the Missouri Pacific Railroad be turned over to James Baker as trustee for Cornelius K. Garrison, and that a deed for the property be given to him by L. D. Thompson, Master in Chancery.

No "Stop Over."

The following is the official copy of a recent decision of the Supreme Court of California. A man named Drew, plaintiff in the suit, had a ticket from Omaha to San Francisco. He stopped over at Sacramento, and subsequently tendered his train check for a trip to San Francisco, and, refusing to pay the local fare, was ejected from the cars. In the Court below he had judgment, and this the Supreme Court reverses:

BY THE COURT.

[Filed October 3d.]

DREW vs. C. P. R. R. Co. } No. 4566.

The plaintiff had no right to "stop over" at Sacramento after the defendant had commenced the performance of the contract. He had no such right under the terms of the ticket which he purchased at Omaha in the first instance, and which, on its face, contained nothing on the subject. (Dietrich vs. Penn. R. R. Co., 71 Penn. St. R., 432, and cases there cited; McClure vs. P., W. & B. R. R. Co., 34 Md., R. 532; Churchill vs. C. & A. R. R Co., 3 Am. R. W. R., 433.) The conductor's check, which the plaintiff received in lieu of his ticket after leaving Omaha, contained these words: "No stop over check given on this ticket;" and in this respect it declared the rights of the plaintiff to be the same which would have been implied under the rule and authorities just referred to.

The plaintiff himself terminated the contract when he voluntarily left the train at Sacramento, which place was not the end of his journey. In this view, and assuming that prior to his arrival at Sacramento the plaintiff had not broken his contract, the leave said to have been given him at Ogden by a conductor to visit Salt Lake and return within a week cannot be of any legal consequence.

Judgment and order reversed, and cause remanded for a new trial.

☞ We learn from Nashua, N. H., that the recent troubles of the Manchester and Keene Railroad have been adjusted to some extent and the work of construction is being resumed under the direction of the corporation. The eight miles of road extending from the terminus of the Peter-

borough Railroad in Greenfield, through the town of Bennington to Hancock, are to be completed and made ready for the rolling stock during the next sixty days and the remainder of the enterprise pushed as speedily as possible to completion.

Ohio and Mississippi Railway.

The following is a comparative statement of the earnings and operating expenses of the Ohio and Mississippi Railway—less transfers, and including taxes—Main Line and Springfield Division, for the fiscal years ending June 30, 1875 and 1876:

Earnings:	1874-'75.	1875-'76.
From passengers	$1,072,742 17	$1,013,653 69
" freight	1,949,519 08	2,204,669 15
" express	60,957 67	50,531 01
" mail	121,260 87	113,178 31
	$3,204,479 79	$3,382,032 16
Expenses, viz:		
Passenger expenses	$283,977 27	$329,156 07
Freight expenses	555,615 04	661,063 35
Mail expenses	1,535 00	1,313 59
General expenses	72,282 87	88,534 31
Rents	1,462 38	4,136 73
Taxes	85,915 49	57,224 03
Repairs of road	316,010 12	285,339 90
Repairs of bridges, etc.	65,336 50	67,211 26
Repairs of fuel and water stations	16,822 57	15,245 43
Repairs of depots	8,155 05	6,768 79
Repairs of engine houses and machine shops	12,992 96	13,371 57
Repairs of telegraph lines	5,144 86	5,433 76
Repairs of passenger cars	92,527 40	110,972 30
Repairs of freight cars	140,357 14	170,036 07
Repairs of passenger locomotives	70,650 63	71,110 57
Repairs of freight locomotives	109,493 58	114,497 63
Repairs of shop tools and machinery	19 500 60	20,135 64
Fuel	162,663 40	208,450 59
Loss and damage to freight	29,621 44	8,137 58
Loss and damage to passengers and baggage	10,145 33	3,983 24
Loss and damage to property on line	2,074 10	3,620 47
Stock killed	21,510 92	16,754 68
Rails, iron and steel	172,485 19	173,638 09
Ties	53,584 53	66,415 94
Fish plates, etc.	25,248 41	21,594 05
Spikes	5,856 53	5,580 90
	$2,340,969 31	$2,539,726 54
Net earnings	$863,510 48	$842,305 62
Less paid coupons of interest on Mortgage and Debenture Sinking Fund bonds		757,136 73
Surplus		$85,168 89
Increase of current liabilities		396,756 73
Total		$481,925 62
Accounted for as follows:		
Construction		$312,904 43
Equipment, real estate and miscellaneous		45,872 75
Interest on loans, legal expenses, etc.		47,452 44
Preferred capital stock interest scrip.		913 50
Decrease of funded debt (total redeemed $100,000)		74,782 50
Total, as above		$481,925 62

The floating assets of the company June 30, 1875, were $469,533 13, and on the 30th of June, 1876, $578,287 78—an increase of $108,754 65. The current liabilities June 30, 1875, were $738,509 92, and on the 30th of June, 1876, $1,244,021 30—an increase of $505,511 38. Net increase of current liabilities, as above, $396,756 73. The President in his report says:

This road, forming an important link in the great isothermal through line from the Pacific to the Atlantic, has suffered much in common with rival lines by the unprecedentedly low rates prevailing on competitive through traffic, both East and West.

We have, however, been able to pay out of earnings the yearly fixed charges of interest on our bonded debt, and the purchases for its sinking funds, while at the same time the roadway, the equipment and other properties of the company have been maintained in their usually efficient condition.

The operating expenses, including taxes, of the whole road, were 75 per cent. of gross earnings under adverse circumstances—a favorable result largely owing to the substitution of steel for iron rails, as renewals were needed.

The road has now 70 miles of steel track, and contracts are made to lay about 20 miles more this fall.

The saving in cost in the use of steel rails compared with iron rails is fully five per cent. of gross earnings, and more, dependent on volume of traffic. It is well proved by experience that no road having a large traffic can afford to use iron rails since the great reduction in the price of steel.

Steel rails costing in 1873 $120 currency, per ton, have been recently sold at $50 while iron rails cost in 1873 $90 currency per ton, and now $40.

By expenditures for steel rails and other improvements of paramount necessity, including cost of right of way and constructing 63 miles new track from Pana to Tower Hill, on the Springfield Division, our current liabilities have been increased $396,756 73. To provide funds for these, and like purposes, the company has in reserve $1,000,000 Springfield Division First Mortgage Bonds. These bonds have never been put on the market, and it is not the intention to negotiate them until it is clear that the interest is fairly earned. Of this there is a good prospect. The Springfield Division extends over 228 miles of one of the most favored and most productive agricultural sections in this country, and is rapidly improving. Its contributions to the main line—apart from its local earnings—in the four months from March 1, 1875, when we first got possession of it, to June 30, 1875 were $41,954 12, and were during the 12 months following, $278,977 98 showing a ratio of increase more than double.

The company's funded debt has been decreased in the past year $100,000 00 by the usual purchases for the several sinking funds.

The local traffic of the whole road—now over one-half of our total earnings—continues steadily to increase in passengers and freight, both in volume and amount, and the evident improvement in thrift and prosperity along the line of the road gives, we think, well founded cause for hopefulness in the future.

It is certain that the growth of this—the most progressive country on the earth—goes on steadily in an increasing ratio in population, and in agricultural and in material productions. The construction of new railroads and the extension of old ones being greatly checked, it seems to be a sure inference, that ere long the traffic requirements of the country will be fully up to—if not exceed—its traffic ability.

In conclusion, I have pleasure in expressing my sense of the cordial co-operation given us by the officers and employees of the company generally, and it is a matter of great thankfulness and satisfaction that during the five years of incumbency of the present administration, among the millions of passengers carried over your road in that period, not one passenger has lost life either by the negligence of the company, or by his own misfortune.

The length of road operated is as follows: Main Line, Cincinnati to East St. Louis, 338 miles; Louisville Branch, North Vernon to Jeffersonville, 53 miles; Springfield Division, Beardstown, Ills., to Shawneetown, Ills., 228 miles—total, 619 miles; to which add for second track and sidings 103 miles—making total miles of iron 722.

The company have 123 engines in service and in good order. The passenger equipment consists of: 58 passenger cars, 25 baggage and express cars, 1 officers', 1 paymaster's and 6 mail cars. Freight equipment: 336 Continental box, 1078 box, 153 stock, 57 caboose, 934 high and low flat and coal, 9 capacity and wrecking, and 27 Great Western Despatch cars.

The car mileage for the year was as follows: passenger 2,925,072; mail, express and baggage, 1,035,786; box and stock, 29,953,904; flat and coal, 3,719,391—total, 37,634,213, against 27,655,042 in the previous year, an increase of 9,979,171.

The number of miles run by engines, year ending June 30, 1876, was as follows:

	Main Line.	Springfield Division.
Passenger engines	864,951	231,962
Freight engines	1,588,400	291,623
Construction engines	223,282	54,263
Switching engines	530,971	118,717
Total	3,207,604	696,565
Total previous year	2,745,108	114,806
Increase	462,496	581,759
Cost of repairs of engines	$151,598 85	$38,090 16
Do. per mile run	4.72 cents.	5.47 cents.
Gallons of oil used	30,711	4,846
Miles run to pint of oil	13.05	17.97
Total cost of repairs and running	$637,648 44	$126,858 78
Miles run to one ton of coal	28.88	39.67
Total cost per mile run	19.87 cents.	18.21 cents.

The number of passengers carried in 1875-'76 was as follows: through, 72,126; way, 682,139—total, 754,265, against 638,052 in the previous year, an increase of 116,213. Number of passengers carried one mile: through, 21,824,863; way, 20,594,804—total, 41,919,667, against 42,390,046 in the previous year, a decrease of 470,379. Rate per mile: in 1875-'76, 2 551; in 1874-'75, 2.530.

The number of tons of freight carried in 1875 '76 was as follows: through, 43,620; local, 810,634—total, 1,284,254, against 992,137 in the previous year, an increase of 292,117. Tons carried one mile: through, 136,512,217; local, 36,593,589—total, 173,105,806, against 145,282,802 in the previous year, an increase of 27,823,004. Rate per ton per mile: in 1875-'76, 1.413; in 1874 '75, 1.54.

The number of passengers carried on the Louisville Branch in 1875-'76 was 101,845; tons of freight carried, 161,529. Number of passengers contributed to Main Line, 37,217; tons of freight do., 158,220. Total earnings, contributed, $312,766 84.

The number of passengers carried on the Springfield Division in 1875-'76 was 194,989; tons of freight carried, 232,135. Number of passengers contributed to main line, 3,906; tons of freight do., 160,439. Total earnings contributed, $278,977 98.

No Balance Sheet accompanies the Report. The Capital Stock and Bonded Debt June 30 1875 and 1876 was as follows:

	1875.	1876.
Common stock	$20,000,000	$20,000,000
Preferred stock	4,030,000	4,030,000
Total	$24,030,000	$24,030,000
First Mortgage bonds East and West Division	$5,000	$5,000
Second Mortgage bonds West Division	97,000	97,000
Income and Funded Debt bonds	174,000	174,000
Consolidated Mortgage bonds	3,067,000	3,067,000
Sterling Consolidated Mortgage bonds	105,000	105,000
Sterling Consolidated Mortgage S. F. bonds	7,000	7,000
Consolidated S. F. Mortgage bonds	3,517,000	3,478,000
Second Consolidated Mortgage and S. F. bonds	3,905,000	3,864,000
Debenture S. F. bonds, of which $200,000 have been issued	160,000	140,000
	$11,037,000	$10,937,000
First Mortgage Springfield Division ($3,000,000 authorized)	1,616,000	1,915,000
Total	$12,653,000	$12,852,000

Steam Motors on Street Railways.

The Street Car Steam Motor which has been on trial for some weeks on the line of the Citizens' Passenger Railway Company has thus far answered the purpose so well that Mr. Hagerty, the president of the company, is satisfied that the system will ultimately be adopted by the street car lines generally. The motor in use by the Citizens line was ordered for the purpose of testing the practicability of steam as a substitute for horses on street railways. No difficulties have yet been presented that have not been readily overcome. The machine itself being an experiment, it was not expected that it should be perfect and require no improvement. Mr. Hagerty has ordered a new one, to be built by the Baldwin Locomotive Works, Philadelphia, which will contain some improvements suggested by the experience gained in testing the one now in use here. He says the steam motor is not a hobby with him, but believing that steam will eventually take the place of horses, he is determined to thoroughly test its practicability. Some anxiety is felt as to the ability of the machine to work successfully when the tracks are covered with snow and ice. An encouraging feature of the enterprise is that the motor is almost universally popular. The car drawn by it is generally crowded to its fullest capacity.—*Balt. Sun, Oct.* 21.

☞ The trains commenced their regular trips on the Portage Branch of the Wisconsin Central Railroad between Stevens Point and Portage, a distance of 71 miles, on the 19th inst. The following are the stations on the road: Stevens Point, Plover, Buena Vista, Bancroft, Plainfield, Hancock, Coloma, Liberty Bluff, Westfield, Packwaukee, Moundville, Corning and Portage.

☞ The Boston Journal says that the Eastern Railroad Company has declined to renew its notes secured by the ten year coupon notes, the trustees under the mortgage claiming that by the recent act of the Legislature such notes are to be exchanged for certificates of indebtedness. It is probable that by assent of all parties the legal questions involved will be submitted to the Supreme Court in November.

☞ The Commercial Express, the Erie and Milwaukee and the Diamond lines running over the Erie, Michigan Central, Detroit and Milwaukee and Canada roads have been consolidated, to be known hereafter as the Erie and North Shore line. J. W. Smith, of Chicago, was appointed general manager, with headquarters at Detroit. The diminution of branch offices located in different cities was decided on.

Western Union Telegraph Company.

ANNUAL REPORT OF THE PRESIDENT TO THE STOCKHOLDERS.

At the annual meeting of the Western Union Telegraph Company, held in this city on the 11th inst., the following report was presented:

In pursuance of a requirement of the By-Laws, the Executive Committee have directed me to submit the following report of the operations of the company for the fiscal year ended June 30, 1876:

The gross receipts for the year, from all sources, were $10,034,983 66; the gross expenses $6,635,473 69; and the net earnings, $3,399,509 97. As compared with the preceding year, there was an increase of $470,409 06, or 4.9 per cent. in the gross receipts; $300,058 92, or 4.7 per cent. in the gross expenses; and $170,350 14, or 5.2 per cent. in the net profits.

On the first day of July, 1875, the company operated 72,883 miles of line, 179,496 miles of wire and 6,565 offices. At the close of the year ended June 30, 1876, there were in operation 73,532 miles of line, 183,832 miles of wire, and 7,072 offices. The increase during the year has been 699 miles of line or 0.9 per cent., 4,336 miles of wire or 2.4 per cent., and 507 offices or 7.7 per cent.

Since the close of the year we have acquired by purchase and lease the lines of the Southern and Atlantic Telegraph Company, embracing 2,329 miles of line, 3,778 miles of wire and 105 offices; and the American Telegraph Company of Michigan, possessing 430 miles of line and 41 offices.

Arrangements for exclusive connection have also been made during the year, and since its close, with the wires controlled by the following railroad companies, which were previously operated in connection with another telegraph line: Delaware and Hudson Canal Company, Ulster and Delaware Railroad Company, Rhinebeck and Connecticut Railroad Company, Adirondack Railroad Company, Canada Southern Railroad Company, and the Lake Ontario Railroad Company.

There were in use on the lines of the Company, at the close of the fiscal year, 8,437 sets of instruments for reading by sound, 18 printing instruments, 1,729 recording instruments, 11,186 relay magnets, 11,365 transmitting keys, 253 repeaters, 4,328 switchboards, 4,133 cut offs, 3,201 lightning arresters, and 93,819 cells of battery.

The cost of new instruments and apparatus for the year was $95,460 71, all of which was charged to working expenses.

There were expended for repairs of line $563,847 32, and $386,779 85 for reconstruction, making a total expenditure for maintenance of line of $950,626 67, an increase over the previous year of $122,549 18.

The number of messages transmitted during the year ended June 30, 1875, was 17,153,710, and for the year ended June 30, 1876, 18,729,567, being an increase of 1,575,857, or 9.2 per cent. This includes press reports sent, reduced to messages on the basis of 80 words to each message. The average toll collected upon each message in the year ended 30th June, 1875, was 54 cents, the average cost of transmission 35 cents, and the average profit per message 19 cents; while for the year ended 30th June last the average toll was 50.9 cents; average cost 33.5 cents, and average profit 17.4 cents.

The capital stock of the company is $41,073,410, of which the company owns and has in the treasury $7,272,235. The difference, $33,801,175, is the amount outstanding, which has been increased $13,700 during the year by the issue of 137 shares in exchange for the stock of companies leased to the Western Union, which have a portion of capital still outstanding on which interest is paid as rental.

The bonded debt of the company, which at the time of the last Annual Report was in a state of change, because of the issue of new bonds and the redemption of the bonds falling due November 1, 1875, stood, when all the transactions were completed, as follows:

Seven per cent. gold (dollar) Building Bonds, due May 1st, 1902	$1,498,000 00
Six per cent. Sterling Bonds, due March 1st 1900	1,001,160 00
Seven per cent. Currency Bonds, due May 1st, 1900	4,000,000 00
Bonds of 1875, not presented for redemption, but interest thereon stopped	9,200 00

The issue of new bonds, which amounted to $5,001,160, produced $4,751,102, of which sum $4,448,900 was applied to the redemption of the bonds which matured November 1st, 1875, and the balance—$302,202—was appropriated on account of the disbursements for the new building in excess of the original loan.

There has been redeemed during the year by the trustees of the sinking fund $12,000 of the seven per cent. currency bonds, so that on June 30, 1876, the account of the bonded debt stood as follows:

Seven per cent. gold (dollar) Building Bonds, due May 1st 1902		$1,498,000 00
Six per cent. Sterling Bonds, due March 1st 1900		1,001,160 00
Seven per cent. Currency Bonds, due May 1st 1900		3,988,000 00
Bonds of 1875, not presented for redemption		9,200 00
		$6,496,360 00
Less amount of sinking funds and accrued interest thereon held by the Union Trust Company, trustees		164,240 65
Total funded debt		$6,332,119 35
From the net profits of the year		$3,399,500 97
there has been disbursed:		
For three dividends, two of 2 per cent. each and one of 1½ per cent. (payable July 15, 1876) on Capital Stock outstanding	$1,858 200 50	
For interest on bonds	519,712 58	
For sinking fund appropriations	80,094 00	
		2,458,007 08
Leaving a surplus for the year of		$941,502 89
From which surplus there has been appropriated during the year, in payment of liabilities incurred during the preceding year, in which the disbursements on account of the new building and the construction of new lines (together amounting to $1,042,866 07) exceeded the net revenues and the surplus of the proceeds of the new bonds by	$333,759 87	
For construction of new lines, erection of additional wires, etc	296,775 82	
For Southern and Atlantic Telegraph stock—purchased 13,277 shares	177,104 50	
For Broadway and Dey street building—final payments	97,134 11	
For sundry Stocks, Patents and Real Estate	19,987 00	
		924,761 80
Balance		$16,741 59

The remainder $16,741 59, has been carried into the general income account, the whole being represented in the following exhibit of the profits and disbursements of the company from the date of consolidation, ten years ago:

The surplus of income account July 1, 1866, was		$275,357 24
The net profits for ten years, from July 1, 1866, to June 30, 1876, were		29,458,208 76
Making an aggregate, June 30, 1876, of		$29,733,566 00
During which period there was applied:		
For dividends to stockholders (including dividends payable July 15, 1876)	$10,093,367 84	
For interest on the Company's bonds	3,679,543 76	
Discount on bonds.	250,058 00	
		14,022,969 60
The balance		$15,710,596 40
is represented as follows:		
Construction of new lines, erection of additional wires, etc.		$5,667,110 79
Purchase of telegraph lines and of the stocks of companies controlled by the Western Union Company, on which interest or dividends are paid as rental		1,522,196 23
Western Union stock (72,722 shares)		4,054,407 19
Gold and Stock Telegraph Company's stock (47,810 shares)		1,167,509 00
International Ocean Telegraph company's stock (10,385 shares)		961,606 42
Anglo American Telegraph Company's stock (£1,308)		7,500 00
Central District and Printing Telegraph Company's stock (200 shares)		10,000 00
Western Electric Manufacturing Company's stock (500 shares)		50,000 00
Western Union Bonds (redeemed and cancelled)		1,084,345 00
Sinking funds (portion not yet used for redemption of bonds, exclusive of accrued interest due by Trustees)		155,894 00
New Building	$2,295,639 52	
Less amount provided from the proceeds of bonds	1,802,202 00	
		493,437 52
Real estate other than new building		339,767 34
Sundry Railroad Bonds and Stocks		14,135 00
Supplies and Material on hand		318,595 76
Reserved for interest on Bonds and Sinking Funds accrued to June 30th but not yet payable		106,086 64
		$15,952,590 89
Less the amount applied from the profits, to make good the discount on the bonds		250,058 00
		$15,702,532 89
Surplus		8,063 51
Total surplus		$15,710,596 40

INTERNATIONAL OCEAN TELEGRAPH COMPANY.

The capital stock of this company is	$1,500,000 00
Of which the Western Union Company owns	1,038,500 00
And the International Ocean Company owns	98,700 00

Of the stock previously owned by the International Ocean Telegraph company, 300 shares were issued during the year in lieu of cash, in payment of a portion of a dividend on the preferred stock, under which the preference was extinguished.

The funded debt of the company is as follows:

Bonds due July 1, 1878, 7 per cent. gold, interest payable semi-annually	$168,000 00
Bonds due April 1, 1879, 7 per cent. gold, interest payable semi-annually	73,900 00
Scrip Dividend due October 1, 1879, 7 per cent. currency, interest payable annually	65,416 00
Scrip Dividend (called in October 1, 1875). Balance not yet presented for redemption	376 00
	$307,692 00

There has been redeemed during the year with the sinking fund $16,000 of the bonds of 1878. There has also been redeemed $55,624 of the 7 per cent. gold scrip, which was called in on October 1st, 1875, and $2,584 (at a cost of $2,325 60) of the 7 per cent. currency scrip, falling due October 1st, 1879.

The operations for the year ended June 30th, 1876, were as follows:

Receipts		$316,276 74
Ordinary expenses	$77,501 65	
Repairs of cables	17,951 11	
		95,452 76
Profits		$220,823 98
Adding the surplus, July 1st, 1875		66,579 82
Gives a total of		$287,403 80
which has been appropriated on account of the following disbursements made during the year:		
For dividend on preferred stock (less $15,000 paid in common stock owned by the company, instead of in cash)		$148,700 00
For scrip redeemed at par		55,624 00
For scrip purchased at 90 per cent.		2,325 60
For Interest on bonds and scrip		24,906 62
For sinking fund appropriation, one year		24,000 00
For Cable Steamer Professor Morse (repairs and expenses when not in service)		21,744 10
For construction—land lines		928 60
Surplus		11,175 48
		$287,403 80

The sum of $68,848 04, on account of the new cable laid last year between Key West and Punta Rassa, is payable out of the profits of the current six months, which will be ample for the purpose.

Among the receipts of the Western Union Company for the past year were $125,000 for dividend on 5,000 shares of preferred stock of the International Ocean Telegraph Company.

By the terms of the original subscriptions, as well as of the stock certificates, it was stipulated that the prior right to dividends upon the preference shares might be extinguished by the payment at one time of twenty-five per cent. of the par of such shares. The affairs of the I. O. T. Co. had been brought into such a favorable condition, and the profits of the year being ample for the purpose, the stockholders, both of the common and the preferred shares, decided to avail themselves of this option, and the payment was made accordingly. A few stockholders elected to accept stock instead of cash, and 300 shares were used for that purpose. These shares had been purchased with the net earnings of the company, and constituted part of its surplus.

As the Western Union Company held about the same proportion of the common stock as it held of the preferred, the amount received from the preference dividend was substantially the same as it would have received had a like amount of the profits of the I. O. T. Co. been divided ratably among all its stockholders, the preferred and common being treated alike. Thus the apparent depreciation of the value of the I. O. T. Co.'s "preference" shares owned by the Western Union Company is fully compensated by the appreciation of what were before known as the "common" shares, of which it owned a larger amount.

In April last one of the cables between Key West and Havana, which had failed entirely several months before, was thoroughly repaired by the substitution of a piece of new and larger cable for the faulty portion removed, and the I. O. T. Co. now has two perfect cables extending from Punta Rassa to Key West, and thence to Havana. The land lines in Florida have also been put in more efficient condition, and the company is better prepared than ever before to handle promptly its improving traffic.

REDUCTION OF MESSAGE RATES.

The decrease in the average tolls during the past year, as compared with the preceding year, was 3.5 cents per message, or 6.6 per cent. upon the entire traffic of the company.

The average decrease of rates during the preceding ten years was 7.6 per cent. per annum, which shows that the decrease last year was 1 per cent. less than the average.

During the past ten years the annual average increase in the number of messages transmitted by the company has been 13.8 per cent., while the increase in the mileage of wire has been 9.3 per cent.

These data apparently indicate that the increase in the traffic is proportional to and about equally due to increased facilities and reduction in the rates.

MONEY TRANSFER SERVICE.

The number of telegraphic money orders received during the year was 87,190. The amount transferred thereby was $2,623,904 11, and the revenue accruing to the company was $99,637 89, being an increase over the revenue received during the preceding year of $12,418 49, or about 14.3 per cent.

The increase in the number of transfers was about 6.8 per cent. and the average amount transferred in each case was $70 54, against $66 33 during the preceding year.

PNEUMATIC TUBES.

During the past year the central office in New York has been connected with the branch offices at No. 14 Broad street, No. 134 Pearl street, and the Cotton Exchange by pneumatic tubes. The tubes are made of brass, each 2¼ inches internal diameter and ⅛ths of an inch thick, and are laid under the pavements in the streets at a depth of three feet.

Messages are sent from the central office to the several branch offices by compressed air, and from the branch offices to the central office by atmospheric pressure or vacuum. The motive power is furnished by a 50 horse power duplex engine situated in the basement of the central office, which operates two double acting air pumps communicating with the compressed and vacuum mains terminating in the operating room. These are connected to the tubes extending under the streets by means of double sluice valves, which are so constructed that carriers containing messages may be sent through the tubes in either direction by turning a cock connected with the compressed or exhaust air mains.

With the usual pressure employed—six pounds to the square inch—the time occupied in transmitting a box or carrier containing messages between the central office, corner of Broadway and Dey street, to the office at No. 14 Broad street (700 yards), is about 40 seconds; and between the central office and the offices at No. 134 Pearl street and the Cotton Exchange (900 and 1,100 yards each), about one minute and five seconds and one minute and twenty seconds respectively.

The operation of the pneumatic tubes is very satisfactory, resulting in a material saving both in time and money.

The total cost of the system is less than $30,000, and about one-half of the outlay will be saved annually, to say nothing of the saving in time, by the decreased cost of performing the service by pneumatic tubes between these stations as compared with the former cost by wire.

There are several other offices in the city where the traffic is large enough to warrant their connection by pneumatic tubes with the central office, and it is probable that the system will be extended to some of them after its value has been more fully ascertained.

GENERAL REVIEW.

On the first day of July, 1866, ten years ago, the organization of the present Western Union Company was completed by the consolidation of the leading telegraph companies in the United States. During the period that has since elapsed the company has increased the extent of its lines from 37,380 to 73,532 miles; its wires from 75,686 to 183,832 miles; its offices from 2,250 to 7,072, and the number of messages annually transmitted from 5,879,282 to 18,729,567, while at the same time it has reduced the average tolls per message from $1 05 to 50.9 cents, and the average cost of performing the service from 60.5 cents to 33.5 cents per message.

Thus it will be seen that the mileage of line has been increased 96 per cent, the mileage of wire 142 per cent, the number of offices 214 per cent, the number of messages annually transmitted 219 per cent, and the tolls reduced 52 per cent.

During this period of ten years in which the company's wires, offices and traffic have doubled and trebled in number and extent, the capital stock outstanding has been reduced from $41,073,410 to $33,801,175, the difference, $7,272,235, being in the treasury, and other property acquired representing an aggregate value of nearly $12,000,000.

For the year ended December 31, 1874—the last year for which complete official returns have been received—the total number of messages transmitted in Europe was 58,141,934; the total receipts $19,980,275, and the expenditures $22,872,934.

The average tolls per message, as will appear from these figures, was 34 3 cents, while the average cost of performing the service was 39.3 cents, the excess of expenditures over receipts being $2,892,656.

From this it will be seen that the average cost of transmitting telegrams in Europe is 5.8 of a cent more than the average cost of transmission by this company.

Statement showing the annual increase in the lines, wires, offices and traffic of the company, from June 30, 1866, to June 30, 1876.

Year.	Miles of Line.	Miles of Wire.	No. of Offices.	No. of Messages Sent.	Receipts.	Expenses.	Profits.
1866	37,880	75,686	2,250	5,879,282	$ 6,568,925 36	$ 8,944,005 68	$ 2 624,919 73

1873	65,767	154,472	5,740	14,466,882	9,383,018 51	6,575,055 82	2,757,962 69
1874	71,586	175,785	6,188	16,329,256	9,262,653 98	6,755,733 83	2,506,920 15
1875	72,833	179,498	6,565	17,158,710	9,564,574 60	6,335,414 77	3,229,157 83
1876	73,582	183,832	7,072	18,729,567	10,034,983 66	6,635,473 69	3,399,509 97

Statement showing the annual percentage of increase in the lines, wires, offices and traffic, and decrease in the rates of tolls from June 30, 1866, to June 30, 1876.

	Percentage of increase in— Mileage of line.	Mileage of wire.	No. of offices.	No. of messages.	Percentage of decrease in rates of tolls.
1867	23.8	12.7	14		
1868	8 5	14.4	25 5	8.9	.5
1869	8.8	7.1	12	23 8	14 6
1870	3 9	7.2	10.1	15.4	15.4
1871	3.6	8	15.9	16 2	7.9
1872	10.7	13 2	13.7	16.8	4.7
1873	6	12.6	9.5	16 1	5.6
1874	8.9	13 7	7	13	12.3
1875	1.7	2.1	5	4.8	.7
1876	1	2.4	7.7	9.2	6.6
Average annual increase	7 2	9.3	12	13.8	Av. annual decrease. 7.6
Total increase	96	142	214	219	Total dec. 52

The decrease in the total liabilities of the company during the past nine years is shown by the following statement:

	June 30, 1867.	June 30, 1876.
Capital stock	$41,073,410 00	$33,801,175 00
Bonded debt	5,152,200 00	6,332,119 00
Total capital and debt	$46,225,410 00	$40,133,294 00
Decrease		$6,092,116 00
Capital & debt per mile of line	$999 44	$545 79
Capital & debt per mile of wire	541 98	218 31

But, whereas, nine years ago the capital and debt of the company were represented only by the lines, wires, apparatus and office fittings then in use, the present reduced capital and debt represent double the lines and wires, treble the apparatus and office appliances, and in addition, assets worth several millions, of which $2,635,406 is in real estate.

These gratifying results are mainly due to these causes: First, to the extension of lines and the decided improvements which have been made in their construction and maintenance; to improvements in apparatus, including the introduction of the duplex, quadruplex and other new methods of transmission, by which the carrying capacity of the lines and the working capacity of apparatus has been greatly increased; and, secondly, to the unification of the entire system, which is an essential requisite to the proper conduct of a business covering so vast an area and embracing so many and such a variety of details. By the consolidation under one central management, it has been practicable to keep in view at all times the definite purpose of affording the public the best facilities for quick and accurate communication at reasonable, and, as far as possible, uniform rates.

The advantages which have resulted from this policy are already manifest in the steadily increasing traffic, and in the marked improvements which have been wrought in every department of the service; and it is but reasonable to expect that a continuance of the same policy will effect at least an equal degree of improvement during the same period in the future, and yield a like satisfactory return to the owners of the property.

The cheerful and zealous co-operation which has been rendered by the general and district superintendents, by managers, and operators, and, indeed, by all classes of the company's employes, has contributed in no small degree to the success which has been achieved, and makes this recognition a duty, the discharge of which, I hope, will be as acceptable to them as it is grateful to me.

Respectfully submitted,

WILLIAM ORTON,
President.

Arkansas Central Railway.

At Amsterdam, where $400,000 of the 8 per cent. bonds of this Company are held, a meeting of the bondholders was held September 5, notice having been received that there would be a foreclosure sale at the end of this month. At this meeting a Mr. Ziegelaar, one of the Dutch members of the recently dissolved London committee, proposed that a Mr. Huntington, of London, who was to sail on the 6th for New York, be commissioned to care for the bondholders, which he would undertake to do, if they would contribute £500 for the expenses. This was agreed to, the Dutch bondholders contributing $2 40 per bond. The Credit Foncier, of Paris, which holds a large part of the bonds (hypothecated) and some London holders join in the movement.

The latest financial statement of this Company gives the amount of first mortgage bonds (8 per cent. gold) as $620,000, and of the second mortgage bonds (7 per cent. gold) as $700,000. No interest has been paid since 1873. It has forty-eight miles of narrow gauge railroad, and to pay the interest requires net earning equivalent to a little more than $2,000 gold per mile. Earnings have not been reported since February, 1873. For the year ending with that month they were $35,918.—*Spirit of Arkansas Oct.* 19.

Vermont and Canada Railroad.

The annual meeting of the Vermont and Canada Railroad Company was held at Bellows Falls, Vt., on the 19th inst. The old Board of Directors was unanimously re-elected. Some discussion was called forth by ex-Gov. Page regarding the recent refusal of the directors to accept the proposals of the Central Vermont road to purchase the road upon the basis which has been fully advertised in the different newspapers for the past month.

F. A. Brooks presented a code of resolutions, after a lengthy preamble, to the effect that "they are glad to know the receivers' wish to bring their receivership to a close, and instructing the directors to procure at once such legislation as may seem best calculated to forward the interests of the Company in its present emergency." Considerable discussion was elicited and expressions of different views held by the different stockholders present, ending with the adoption of the resolution upon a vote of 15 to 6. The meeting then adjourned.

☞ The Baltimore Bridge Company are about to begin the erection of their great bridge across the Kentucky river, on the Cincinnati and Southern railway, near Nicholasville, Ky. The bridge will be 275 feet high, consisting of three spans 375 feet each, of wrought iron, resting on two abutments and two piers, the latter partly of stone and party of iron.

☞ The Boston and Providence Narrow Gauge Railroad, have contracted with Frank W. Wood, Civil Engineer, of Providence, R. I., to survey and locate the line from Boston to State line near Valley Falls, with instructions to accomplish it at the earliest moment possible.

☞ The track of the Central Ohio Railway has been laid from Bremen to a distance of four miles beyond Pleasantville, and work will be continued throughout the winter.

☞ The Gulf, Western Texas and Pacific Railway (Indianola to Cuero, 69 miles) is advertised to be sold in this city on the 19th of December.

American Railroad Journal.

Saturday, October 28, 1876.

Financial and Commercial Affairs.

The fever of excitement which prevailed on our Stock Exchange at the close of our last review subsided almost immediately when the belligerent rumors, which were then current, proved to be without foundation. But the course of prices has, on the whole, continued to be upward. The shares of Western roads have improved, owing to the progress that has been made in terminating the "railway war," that has so long been carried on between the great trunk lines, and the agreement upon more remunerative rates of freight, by means of which earnings will be largely increased for the coming winter. The "coal roads" shared but partially in the buoyancy of the Western roads, and the sales of coal by auction which have been made in the past week have not been at any advance over September prices, but that of Wednesday was lower. Illinois Central has not shared in the improvement of other Western roads. An increased business is noted in the shares of the St. Louis and Iron Mountain Railroad, but at inside prices. On Wednesday, the market was generally active and buoyant at the opening, but under sales to realize there was a general decline in the afternoon, and the close was quite unsettled. The unfavorable result of the coal sale depressed "coal stocks" 2 per cent, and a falling off in the earnings of the Chicago, Milwaukee and St Paul Railway, attributed to the partial failure the wheat crop along its lines, was a depressing circumstance.

We are losing currency to the South and West. The last bank statement showed a further weakening of reserves. Money has shown spasms of

stringency, therefore, and on Wednesday the current rates on call were 3@4 per cent, with transactions at and very little paper was discounted under the legal rate of 7 per cent, though occasional business was done at 5@6 per cent.

Gold has declined under the more peaceful advices from Europe, and the close on Wednesday was at 109⅞. Exchange is also lower at $4 82½@$4 83½ for prime sixty-day bills. Exports have been small for the week, aggregating only $3,678,068, against $3,983,536 for the corresponding week last year; and $218,734,048 since January 1st, against $206,168,442 for the corresponding period last year.

Government bonds have been somewhat unsettled. Efforts have been made to affect their value by lugging them into the canvass for the Presidency; but a vigorous letter from Mr. Belmont, demonstrated that their value is regarded in financial circ'es as well assured, without reference to party principles. On Wednesday the closing prices were:

United States currency sixes, 124½@125; do. 6s, 1881, registered, 117½@117¾; do. coupon, 118⅛@118¼; do. 1865, registered, 109⅞@110⅛; do. coupon, 113¼@113½; do. new, registered, 112¾@113; do. coupon, 112¾@113; do. 1867 registered, 115½@115¾; do. coupon, 115½@115⅝; do 1868, registered, 116½@116¾; do. coupon, 116½@116¾; do. ten-forties, registered, 114@114¼; do. coupon, 115½@115¾; do. fives, 1881, registered, 113@113¼; do., coupon, 114⅜@114⅝; do. four and one-halfs, 110⅞@111⅛.

General trade is dull. It is unfavorably affected by political excitement. Some styles of cotton goods declined, but cotton advanced on a more favorable Liverpool market, and some falling off in receipts at the ports. Breadstuffs lost a portion of the recent advance, and provisions are quite irregular. Pig iron is firm and in demand, but copper less active.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Canada Southern 1st mort., coupon on, 58; Missouri, Kansas and Texas R. R., 8; do. S. F., bonds assented, 59; Buffalo and Erie 7s, new, 105; Nashville and Decatur 1st mort., 89; Chesapeake and Ohio 1st mort., coupon on, 26; South Pacific of Mo. bonds, 70½; Toledo and Wabash Equipment bonds, 20; New Jersey Southern R. FISK & HATCH,

Bankers,

No. 5 Nassau St., New York.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Govment Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

☞ We learn from Yuma, Arizona, that ground was broken on the 18th inst. on both sides of the Colorado river for the Texas and Pacific Railway.

Western Maryland Railroad.

At the annual meeting of the stockholders of the Western Maryland Railroad Company, held in Baltimore on the 18th inst., the following gentlemen were elected directors for the ensuing year: Joshua Biggs, Frederick county; John Welty, Isaac Motter and George W. Harris, Washington county, and J. K. Longwell, Carroll county. The directors on the part of the city are: Alexander Rieman, D. J. Foley, Samuel H. Adams, Nicholas G. Penniman, Wm. Seemuller, E. G. Hipsley, Christian Devries and J. Alexander Preston.

The annual report of the president and general manager, James M. Hood, was read. From this we learn that the gross earnings of the road for the year ended September 30, 1876 were $311,902 55; the operating expenses $215,556 18, and the net earnings $96,346 37. The increase of earnings over the year 1875 was $18 184 51, and the increase of expenses, $21,136 16. The net earnings show a decrease of $2,931 65, in the most part due to having depot rent of $1,333 33 for Hillen Station included. There were moved during the year 342,566 passengers and 112,690 tons of freight, making an increase over 1875 of 33,321 passengers and 5,892 tons of freight.

As compared with the previous three years the increases in revenue are relatively as follows: Over 1875 $18,184 51, over 1874 $34,110 31, and over 1873 $93,518 27, while the expenses have increased but $13,082 87 in that time.

In addition to the $311,902 55 revenue for 1876 there was earned and paid to the Baltimore and Potomac and Northern Central Railroads for tunnel and other trackage $25,486 32 not included in the above statement. The number of excursionists, notwithstanding the heavy centennial travel, reached 90,076, but the earnings from this source were $639 87 less than from the 72,510 excursionists in 1875, on account of the great number of small fares to Greenwood.

During the year $62,757 62 were expended in increasing and improving the equipment, including the addition of eight passenger coaches and thirty-seven freight cars, together with the construction of several new stations and side tracks. An engine-house and paint shop at Union Bridge, and a new station at Westminster are in contemplation.

The improvements at Hillen Station, including the track connection with the Northern Central Road, were opened for business February 1, 1876. Of the appropriation of $200,000 by the city for this purpose there remains in the hands of the city commissioners of finance a balance of $2,521 25.

The Emmittsburg Railroad has been completed and in full operation since November 22 1875, and has already proved a great convenience to the citizens of the locality served. In regard to other connections Mr. Hood says:

"It is deemed proper to mention the probability of early connections with the Harrisburg and Potomac and the Hanover Junction, Hanover and Gettysburg Roads, which, when accomplished, must of themselves add largely to the business of the road and the trade of Baltimore, whose citizens, though well informed as to the character of the country surrounding Hanover and Gettysburg that would thus be brought in more direct communication, are not generally aware of the desirability of the first-named work, (the Harrisburg and Potomac,) which will open up to their trade one of the richest agricultural and mineral regions in the Middle States, the trade of which formerly belonged to Baltimore, but was diverted to Philadelphia some twenty years since by the construction of the Cumberland Valley Railroad. In order to accomplish this desirable object it is proposed to complete the southern division of the Harrisburg and Potomac Railroad, which, with a short branch of four miles to Chambersburg, will place that great agricultural and general business centre of the Cumberland Valley, together with Shippensburg and other important points, in direct communication with Baltimore, over a line sixty miles shorter from Chambersburg and forty miles from Shippensburg than via the C. V. and P. R. Roads to Philadelphia, which must secure a valuable share of a large trade, little or none of which now reaches this market."

Interest on U. S. Registered Bonds.

The office of Assistant Treasurer of the United States at Charleston, S. C., having been abolished by act of Congress approved August 15, 1876, and the depositories at Buffalo, N. Y., and Pittsburg, Pa., having been discontinued, in accordance with the requirements of the same act, from the 30th day of September ultimo, holders of registered bonds on which interest has heretofore been paid at either of the above named places are requested to give notice without delay to the Register of the Treasury, at Washington, of the place where they desire the interest on their stock made payable for the future. The interest may be paid by the Treasurer of the United States at Washington, D. C., or by the Assistant Treasurer at either one of the following named places: Boston, New York, Philadelphia, Baltimore, Cincinnati, Chicago, St. Louis, New Orleans or San Francisco.

☞ The gross earnings of the Denver and Rio Grande Railway for the week ending on the 14th instant were $10,377 against $7,979, in corresponding week last year. From and after September 1st, this road is working under contract to divide all competitive earnings for two years between the Kansas Pacific and Atchison, Topeka and Santa Fe Railways, in accordance with decision of referees, which will award the proportion each road shall enjoy of its results. To this weekly return must, therefore, be added the amount that may be awarded of Denver and La Junta traffic by said referees.

☞ The earnings of the Philadelphia and Erie Railroad for the month of September, 1876, were $319,721 78, the expenses $158,166 63, and the net earnings $161,555 15. In September, 1875, the earnings were $344,047 90, the expenses $195,898 03, and the net earnings $148,149 87—showing a decrease in earnings of $24,325 12, a decrease in expenses of $37,730 40, and an increase in net earnings of $13,405 28.

☞ The Ohio State Journal says that on the Columbus and Toledo Railroad, the lower gang of track layers are about one mile above Morrow, and about nine miles south of Upper Sandusky. The upper gang of track layers are about two miles north of Pemberville, Wood county, and about twelve miles from the Toledo terminus.

☞ The gross earnings of the Columbus and Hocking Valley railroad from all sources for the month of September was $87,564 56. The coal tonnage for the month of September was 76,164 tons, or 2,056,428 bushels.

United States Patent Office.

From the Commissioner's annual statement of the operations of the patent office it appears that it is largely more than self-sustaining. The amount of money received on applications for patents, trade marks, designs, reissues, extensions, caveats, disclaimers and appeals from October 1, 1875, to September 30, 1876, was $701,110. There was also received for copies of specifications and other papers $55,294, and from other sources, including subscriptions to the Official Gazette, $31,293, making the total receipts $787,697. The total expenditures on account of the patent office during the same period amounted to $661,638—the principal items being $437,820 for salaries, $54,351 for contingent expenses and $66,025 for photo-lithographing back issues. There were 22,408 applications received for patents and 15,911 patents issued during the year, besides 3,613 patents allowed but not issued for want of the final fees. There were also 1,037 trade marks and 499 labels registered, and 2,943 caveats were filed during the same period. Only two patents were extended.

Missouri, Kansas and Texas Railway.

The following is a statement of the approximate earnings of the Missouri, Kansas and Texas Railway for the quarter ending September 30, 1876:

Freight	$580,929 97
Passenger	212,560 55
Mail	30,683 53
Express	13,825 00
Miscellaneous	4,814 70
	$842,811 75
Corresponding period last year	774,494 59
Increase	$68,317 16
For the first nine months of 1876 the earnings were	$2,226,651 65
Corresponding period of 1875	2,003,509 17
Increase	$257,142 48

For the second week in October (8th to 15th) the earnings were $81,719 62; corresponding period of previous year $72,867 66—increase, $8,851 96.

☞ The Alexandria (Va.) Gazette says that the steamer New Era, owned by Mr. William Cowden, seems to have practically solved the problem of successful canal steam navigation. It makes a round trip in six days, carrying an eastern freight of about 107 tons of coal clear of fuel, and consumes a little less than five tons of coal.

☞ The seven per cent gold coupons of the Denver and Rio Grande (narrow gauge) Railway, and the six per cent gold coupons of the Central Colorado Improvement Company, due November 1, 1876, will be paid by Messers. Rutten & Born, 52 Exchange Place, New York.

☞ The Columbus and Toledo Railroad is now open as far as Marion. The track layers will reach Toledo about November first, but the road will not be opened to travel for a few weeks after that date, the desire being to have the road well ballasted before regular trains are put on.

☞ The Milwaukee Wisconsin says that the work of laying the iron on the railroad extension west from Appleton, progresses at a rapid rate. It will surely be completed to New London this fall.

Vermont and Canada Railroad.

Dr. Jas. R. Nichols, President of this company, has issued the annual statement of the directors to the stockholders. It commences by saying that since the last annual meeting of the company at Bellows Falls, Oct. 18, 1875, the directors have expended much time in efforts to better the condition of the property, but without satisfactory results. It then goes on to state the nature and purpose of the litigation into which they have been forced during the year.

It is stated, first, that the contract authorized by the stockholders to be made with the Vermont Central in April, 1875, still possesses full legal force and both parties are bound by its provisions, but the Vermont Central has thus far refused to execute the papers.

The directors have vigorously opposed the arrangement between the Central Vermont and the Rutland Road, but in vain. An effort was made last April to bring the question of rent accruing since July, 1873, before the Court, but no answer has been made by the Central Vermont. The report then speaks of the proposed plan for a consolidation of the Central Vermont and Vermont and Canada Roads as follows:

In July last, a plan of consolidation of the Central Vermont and Vermont and Canada Roads was proposed by the Central Vermont, and submitted to a committee of your directors. In general it was proposed to sell the roads under order of court, the managers of the Central to become the purchasers; and in payment they were to bond the consolidated roads to the amount of $7,000,000, which was to be a first and paramount lien upon the property, secured by mortgage. Of this $7,000,000, the Vermont and Canada were to receive $1,500,000, the remainder to go to the holders of the trust securities, the guaranteed bonds (so called), the equipment bonds, and for the payment of the floating debt. Besides these bonds there was to be guaranteed, preferred and common stock to the amount of $4,000,000, distributed among the present holders of the stock in the Central Vermont and the holders of the first and second mortgage bonds. This proposition did not meet with the approval of your president and those of your directors to whom it was submitted, and they declined to receive it. It was, however, intimated to the committee of the Vermont Central board, that if certain important modifications were made in their proposition, it might be favorably received by your directors. Thereupon the following communication was transmitted:

Boston, July 20, 1876.

James R. Nichols, Esq,
President Vermont and Canada R. R.

Sir: The verbal proposition submitted this morning by your committee has been fully considered, and with every desire on the part of this company to meet the wishes of your committee, we find it impossible to harmonize the views of all the parties in interest upon that basis. The committee of this board, however, agree upon the following as a modification of our original proposition, viz:

To give you first mortgage bonds.. .... $1,500,000
To give you in preferred stock 500,000
To pay your accrued incidental expenses.

We trust the foregoing may be accepted, as we are satisfied that no better, or other, proposition will be entertained by board of directors.

We are very respectfully yours,
J. GREGORY SMITH,
J. H. KIMBALL,
GEORGE M RICE,
BRADLEY BARLOW,
Committee Vermont Central R. R. Co.

By the terms of this modified proposition, $500,000 of preferred stock is added to the $1,500,000 of bonds, and all law and other expenses incurred during the past four years, or, that might be incurred before final settlement, are to be paid by the Central Vermont. It being understood that the bond coupons were to be paid in cash as they matured, that the mortgage bonds were to be a first lien on both railroads and income, superior to all claims against or liabilities of the roads and property growing out of the receivership; it was favorably regarded by your directors, and was assented to as a basis of adjustment, with certain reservations.

It was expected that this third modified proposition would be placed in suitable form to be presented to you for your consideration at the annual meeting, but no further movement was made by the Vermont Central until about September 20, when still another proposition, differing essentially from all previous ones, was brought to the notice of your Directors. As the directors of the Vermont Central had definitely stated in their communication of the 20th of July that no other proposition (than that then submitted) would be entertained by them," this was received with some surprise. A careful consideration of this new proposition led to its prompt rejection by your Board of Directors, at a meeting held September 21.

This last scheme has been extensively advertised, with details, in all the leading newspapers, and therefore little need be said regarding it. It requires substantially an entire surrender of all your rights, and substitutes in their place only a promise of the Central Vermont and you would have no adequate remedy to compel the performance of that promise. The history of the past did not justify your directors in recommending to you to surrender to the receivers all your remaining rights and await their pleasure and convenience for your pay.

It is stated in the circular issued by the Central Vermont, that the agreement will be binding on that company, only on condition it "is approved and signed by the Vermont and Canada Company," on or before the 20th day of October, and in case it is not thus accepted by the company, and the holders of the trust securities, the Central Vermont will proceed to apply to the Court for a decree ordering the sale of the Vermont Central, and the Vermont and Canada Railroads and their franchises, for the payment of the debts of the former company and the alleged liabilities of the latter.

If such an extraordinary proceeding can by any possibility be successful, if there is a judge in Vermont who will order such an unlawful and unjust decree as the Central Vermont state they will ask for, then "the end is not yet." Your Directors are advised by most able counsel, that if a decree of sale of your property is obtained from Court, the Vermont and Canada objecting, the purchasers' title would be held void by any respectable court, and would result in bringing your interests into the United States Courts, an end long desired by your Directors.

In the statements herein presented you have an imperfect view of the present condition of your affairs. It is nearly or quite four years since payment of rent was stopped on your property. There is now due you in back rents nearly $1,000,000. The parties holding control of your property, under the protection of Court, have also held control of other leased roads, the rents upon which, although so exorbitant and unreasonable as to be exhaustive of the earnings upon your property and the Central Vermont, have been promptly paid until within a period of a few months.

The disastrous administration of the affairs of the Vermont railroads has culminated in a suspension of payment of all rents upon leased roads, with the exception of the Rutland. The situation of your property is peculiar and embarrassing, but of the justice of your claim to its control and to its earnings, no fair minded person for a moment doubts. It was hoped by your Directors, at your last annual meeting, that an adjustment of its difficulties would be speedily reached, and that an end would be put to expensive and vexatious lawsuits, but in this they are disappointed.

There appears to be no other course for future Directors to pursue but to continue to make the most determined efforts, acting under the advice of able counsel, to save your property interests through some equitable and safe arrangement with the parties in control, or other methods of procedure, of which there are some not without promise of success.

James R. Nichols, President.

Stockton and Visalia Railroad Bonds.

In the suit of the Stockton and Visalia Railroad vs. the city of Stockton, in which the matters in controversy grew out of a subsidy of $300,000 voted by defendent to plaintiff, the Supreme Court has recently rendered a decision in favor of plaintiff. On the 13th inst. a meeting of the citizens of Stockton was held, the objects, purposes and conclusions of which are expressed in the following series of resolutions which were adopted by the meeting:

Resolved, That it is the sense of this meeting that the bonds voted to aid in the construction of the Stockton and Visalia Railroad cannot be legally used for any other purpose, and that the attempt of the former Directors of said company to divert said bonds from such purpose and to convert them to their individual use, is a fraud on the citizens of San Joaquin county, and which fraud should be resisted by all possible legal means.

Resolved, That a committee of five appointed by the Chairman of this meeting, two from the county and three from the city, to co-operate with the Board of Supervisors of the county and with the City Council of the city of Stockton, to devise and carry out a plan of action for protecting, by legal means, the citizens of the city and county from the payment of the bonds unjustly claimed by the Stockton and Visalia Railroad Company.

Resolved, That we pledge ourselves to stand by said Board of Supervisors and said City Council and assist them in all legal measures they may devise to free the citizens of Stockton and the county of San Joaquin from the payment of said bonds.

Resolved, That a notice be published in the Evening Bulletin, Alta, Call, Chronicle and Examiner, of San Francisco, in the Record-Union, of Sacramento, and in the Independent and Herald, Stockton as, follows: "Caution! Whereas $300,000 Stockton City Bonds have been wrested from the City of Stockton by the so called Stockton and Visalia Railroad Company, issued to aid in the construction of a railroad from Stockton of Visalia, and for which bonds no consideration has been received (not one mile of railroad having been built), all persons are hereby cautioned against purchasing or negotiating said bonds, as the City of Stockton will resist by every legal means the payment of either said bonds or interest thereon."

The committee authorized by the above resolution was named by the chairman; also a committee to solicit subscriptions from citizens to defray the expenses of advertising, etc.

☞ The directors of the Emsworth and Allegheny Railroad Co., have elected Messrs. Edeburn and Cooper as their civil engineers, with instructions to make a preliminary survey of the routes proposed, and report as soon as possible. The Pittsburg Chronicle says "there seems a firm impression existing to the effect that the building of the road is a fixed fact."

☞ Regular trains commenced running on the Columbus and Toledo Railroad from Columbus to Marion, a distance of 45 miles, on the 23d inst.

The Coal Trade.

The total tonnage for the week ending on the 14th instant, as reported by all the companies, amounted to 574,349 tons, against 567,481 tons in corresponding week last year, an increase of 6,868 tons. The total amount of anthracite mined for the year is 13,903,658 tons, against 15,722,456 for same period last year, a decrease of 1,818,798 tons. The quantity of bituminous coal sent to market for the week was 96,352 tons, against 91,298 tons for corresponding week last year, an increase of 5,054 tons. The whole bituminous tonnage from the beginning of the coal year is 2,822,204 tons, against 3,115,738 tons in corresponding time last year, a decrease of 293,534 tons. The total tonnage of all kinds of coal for the week is 670,701 tons, against 658,779 to corresponding date last year, an increase of 11,922 tons, and the total tonnage for the coal year is 16,725,862 tons, against 18,838,194 tons to same date last year, a decrease of 2,112,332 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last two days of September and first week of October was 139,455 tons, of which 117,238 tons were coal and 22,327 tons coke. The total carried this year is 3,492,549 tons, of which 2,803,160 were coal and 579 558 coke. This total embraces all the coal carried over the road, east and west. The receipts at Perth Amboy for the week ending October 14 were 16,607 tons, and shipped 27,988 tons, leaving a stock on hand of 57,738 tons.—*Phila. Ledger, Oct. 23.*

☞ Cleaning machinery in motion is described by the Inspector of English factories as "continuing to lead to very numerous and painful mutilations." In the half-year ending April 30, 1876, 126 persons were killed in England through factory accidents alone; 488 amputations were necessary; there were 260 fractures of limbs or bones, and 2,193 other injuries; in all, 2,497 males and 769 females.

☞ A car propelled by compressed air has been used successfully for more than two months on a street railway near Paisley, in England, under every condition of traffic and weather, performing a trip of three miles for each charge of air, at a cost of about one cent a mile. When the rails are not slippery with mud or ice a considerable surplusage of air is left in the tanks.

☞ The Pennsylvania Transportation Company have contracted with the National Tube Works Company of Boston, Mass., and McKeesport, Penn., for 300 miles of four-inch lap-welded enameled pipes to carry the oil from the oil regions to the seaboard. Two other makers besides the company mentioned share in this enormous contract.

☞ Chief Engineer Golay, Contractor Benedict and assistant Garretson, of the Miami Valley railway, were on Saturday at Wayneville looking over the line preparatory to the commencement of the work. Judge Smith, by decree of the 16th instant, struck narrow gauge out of the title, leaving it the Miami Valley Railway company.

☞ The Sacramento Record-Union says that initiatory work has been commenced on the Sounders County branch of the Union Pacific Railroad, in Nebraska, thirty-five miles of which they are bound to complete by January 1st.

☞ Brazil has now about twenty-five hundred miles of railroad in operation, of either the 5 ft. 3 in., or 39½ in. gauge, and the government is taking steps to increase the amount, having already decided to add some eleven hundred miles more.

MISFIT CARPETS.

English Brussels, Three-Ply and Ingrain, also, Stair Carpets, Velvet Rugs, Crumb Cloths, Oil Cloths, etc., very cheap at the Old Place,

112 FULTON STREET, NEW YORK.

Carpets carefully packed and sent to any part of the United States free of charge.

☞ Send for Explanatory Circular. J. A. BENDALL.

ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

American Railroad Journal.

New York, Saturday, November 4, 1876.

Southern Railroads.

An article on this subject, which appeared in a recent number of the JOURNAL, is made the text for some observations upon the development of the resources of the State of Arkansas. The *Spirit of Arkansas*, published at Little Rock, in that State, points out with much vigor, and yet in the true live-and-let-live spirit, the advantages and needs of that State, in the matters of soil and climate, as well as the means of transportation which it affords. No finer land did the sun ever shine upon. In a middle latitude, of undulating surface, possessing a fertile soil, it only requires that its resources be made available by means of railroads, to fill the State with an industrious and enterprising population, and to advance it to a front rank among the most prosperous of the American Union.

But the *Spirit* did not quite understand our article. It was for the *benefit* and not the disadvantage of such States as Arkansas, that our article was intended. If the editor had read recent issues of the RAILROAD JOURNAL more closely, he would have seen that we have been advocating the extending of aid by the United States Government in the building of railroads in the older States, rather than the extension of them beyond the confines of civilization. How much better would it be, if a certain portion of the proceeds of the sales of public lands should be appropriated to aid railroad extension in Arkansas, than appropriate these lands to the building of railroads through hundreds of miles of territory where there is no population whatever! In Arkansas, a few millions would not only be well invested, but would vastly improve and stimulate other investments.

The *Spirit* calls our attention to the condition of the railroads of Ohio, Indiana and Illinois, twenty year ago, and the condition of semi-bankruptcy in which they then were, and draws from their present condition an augur of hope to the future of Arkansas and her railroads. Alas! what proportion of the railroads of those three great States pay a dividend to their shareholders? Many of them are still in a condition of semi-bankruptcy. A considerable number do not pay the interest on their bonds. Bad management and reckless extravagance are the cause of much of this unsatisfactory state of affairs; but it may also be attributed, in no small degree, to the dispersion of population and industry through the building of land grant railroads in the same latitudes, west of the Mississippi River. Therefore we say develop the resources, stimulate the industries and increase the population in the older States, by means of a judicious systematic aid by the Federal Government to railroad building where it is needed—where it will do good instead of harm. Let us stop spreading, and improve, build up, strengthen. Let us stop pushing railroad building beyond the confines of civilization, and draw nearer to each other the centres of civilization. So shall we strengthen our Union, improve our people in morals and intelligence, and promote the early return of a period of general prosperity and happiness.

☞ The officers of the Camden and Atlantic Railroad Company, elected on the 26th ult., are: President, John Lucas; Secretary and Treasurer, D. M. Zimmerman. The directors are: John Lucas, Andrew K. Hay, Jas. B. Dayton, Enoch A. Doughty, Thomas H. Dudley, Samuel C. Cooper, Geo. T. Da Costa, William C. Allison, Charles D. Freeman, John F. Starr, Joshua R. Jones, William C. Houston, and John A. Merritt.

Interest Schedules of the Four-and-a-half Per Cent. Bonds.

The following circular was issued by the Treasury Department at Washington on the 25th ult.

The books of the registered 4½ per cent. bonds authorized by acts of Congress, approved July 14, 1870, and January 20, 1871, will be closed for the preparation of interest schedules as follows: The books embracing registered stock held abroad will be closed on the evenings of the last days of January, April, July and October, and reopened for transfer and exchange of stock on the mornings of the 16th of February, May, August and November following. The books embracing registered stock held in the United States will be closed on the evenings of the 15th of February, May, August and November, and reopened for the transfer and exchange of stock on the mornings of the 1st of March, June, September and December following. Stock issued on exchanges and transfers between the 16th of February, May, August and November and the first days of the succeeding months will bear interest from March 1, June 1, September 1 or December 1, as the case may be.

English Railway Decision.

In a case which was recently decided in an English court, a gentlemen named Hamer sued the Lancashire and Yorkshire Railway Company to recover 4s. 6d. expenses incurred by him owing to the unpunctuality of a train. The plaintiff set out from Blackpool on Sept. 7 by a train which arrived at Manchester a few minutes before 11 o'clock, instead of 10:15—the advertised time. He missed connection with the last train from Oxford road Station and took a cab to Stretford, walking thence to Ashton-on-Mersey. He claimed from the company the cab fare from Victoria Station to Stretford. It was urged that the delay of the train arose in consequence of there being a great number of passengers, and moreover that there was no special contract in the case. The judge held that the company were bound by their time-tables, unless they could show reasonable excuse for the non-performance of their contract. Here there was no excuse, such as the break down of an engine or a truck getting across the line. As regarded the number of passengers, the company

should have put on an additional train, or have done something to enable them to keep their contract with the public. Judgment was, therefore, for the plaintiff with costs, the judge adding that, had he been the plaintiff he should have certainly taken a cab all the way to his home instead of to Stretford.

Central Pacific Railroad.

The earnings of this road for the year ending December 31, 1875, were as follows:

	Coin.	Currency.
From freight	$5,897,266 54	$3,158,805 96

Tot. earnings, equal to currency	$14,531,355 36	$17,021,015 79

OPERATING EXPENSES.

Operating expenses, coin	$5,223,429 42	$6,221,554 74
Operating expenses, currency	44,702 45	256,645 10
Total expenses, coin and currency	$5,268,181 87	$6,487,199 84
Total expenses, equal to currency	$5,848,977 22	$7,417,744 43
Earnings over operating expenses (all in currency)	$8,682,378 14	$9,603,071 36
Percentage of operating expenses to gross earnings	40.25	43.58

The percentage of operating expenses to gross earnings as shown above, was 3.33 per cent more than in 1874.

The earnings over operating expenses for 1875, were (all in currency)	$9 603,071 36
The year ending Dec. 31, 1874	8,682,378 14
Being a gain of	$920,693 22

—or 10.60 per cent.

The amount of capital stock authorized is $100,000,000; of which $62,608 800 is subscribed, and $54,275,500 paid in. Of the amount subscribed, there is held in trust for the company $8,333,300.

The debts of the company are: funded debt $55,390,000, less sinking fund $1,782,095 36—leaving $53,607,904 64; to which add United States subsidy bonds, $27,855,680—making a total of $81,463,584 64. Of the land bonds there were redeemed, in 1874, 135, for the sum of $105,805 83; and in 1875, 429, for the sum of $392,780, gold coin; and there were sold in 1875, 589, leaving 227 unsold.

The assets of the company, as given in the annexed balance sheet, amount to $146,594,144 49; to which add farming lands, (estimated value), $30,000,000; undivided half of 60 acres of land in Mission Bay, in San Francisco, 500 acres water front at Oakland, and about 140 acres and water front at Sacramento, (estimated value, independent of improvements) $7,750,000—making a total of $184,344,144 49.

The number of engines owned by the company is 203, of which 201 are in service. The number of miles run in 1875, as compared with the preceding year, is as follows:

	1874.	1875.
Miles run on passenger trains	1,331,204	1,385,281
Miles run on freight trains	2,869,136	3,218,324
Miles run on switching trains	704,279	705,829
Miles run on miscellaneous trains	309.822	336,596
Totals	5,214,441	5,676,030

—being an increase of 461,589 miles. Cost of repairs per mile run, 8.28 cents; wiping, 1.10; enginemen 7.29; fuel, 18.91; stores, 0.86; watching and despatching, 0.58—total, 36.99 cents. Miles run to ton of coal, 38.81; to cord of wood, 30.21; to pint of oil 15.35.

At the close of the year, the number and kind of cars were as follows; 115 first class passenger, and 72 second class and smoking, 31 sleeping, 19 mail and express, 23 baggage, 1 directors', 1 superintendent's, 1 pay, 2124 box, 1499 platform, 64 caboose, 193 section, 233 hand, 110 dump, 5 track laying, 2 wrecking, and 8 snow plows. The total number of miles run by cars of all kinds, including those from foreign roads, was 56,568,674, against 48,268,302 for the previous year—an increase of 8,300,372.

The company have 11 steamers employed in the ferry service between San Francisco and Oakland. Also, 16 river steamers and 12 barges. The Superintendent in his report, from which the above is obtained, says:

At the close of the year there were, including the Ferry between San Francisco and Oakland Wharf, 1212.83 miles of road in operation under my management. To this should be added 96 miles in the San Joaquin valley operated under lease from the Southern Pacific Railroad Company, of which 22.4 miles were completed May 11th, 1875.

It is gratifying indeed to notice a marked increase in the general traffic of the road over the preceding year; which is an index of the general prosperity of California, as well as of the entire Pacific Coast, which has been comparatively exempt from the universal business depression experienced in the States east of the Rocky Mountains.

The rapid increase of business necessarily demands a large addition to the rolling stock, which is now in course of construction. This will be completed in time to move the products of the country, which promise to exceed in quantity and value those of any previous year.

While the traffic of the Visalia and Tulare Divisions is comparatively light, it is very encouraging to note the extensive arrangements which are being made for irrigation and for general agricultural development all along the line, especially in the rich region of the State embraced in Fresno, Tulare, and Kern counties; which development is made possible by the extension of the road through the San Joaquin valley to Caliente, three hundred and twenty-four miles from San Francisco. This road offers to that section of the country, the long desired outlet to market, and a large increase of business may be expected in the near future from it, and the rich mining districts beyond.

The Eureka and Palisade Railroad (narrow gauge), referred to in my last report, was completed to Eureka, (90 miles from Palisade) in November, 1875.

The Nevada County R. R. (also a narrow gauge), extending from Colfax to Grass Valley and Nevada City, was completed and in operation May 24th, 1876.

Both, it is believed, will contribute much business to our line.

I would add in conclusion, that the present business prospects of the company for the year 1876, are very flattering, with indications of a large increase over the preceding year.

From the report of the General Freight Agent, J. C. Stubbs, we learn that the number of pounds of freight transported during the years ending December 31, 1874 and 1875, was as follows:

	1874.	1875.
Local freight	1,505,722,710	1,499,979,366
Through freight	304,886,123	347,587,072
Company's freight	381,964,742	520,695,478
Total	2,192,573,575	2,368,261,916

Of the local freight, there was forwarded to the general markets, from the agricultural districts, 207,117,842 pounds of grain, as follows:

	1874.	1875.
First six months	51,218,814	83,670,206
Last six months	215,510,963	123,447,636
Total	266,729,777	207,117,842
From which we earned, in coin	$431,022 82	$347,041 42

Showing a falling off of 22.25 per cent in tonnage, and 19.48 per cent in earnings from the grain traffic in 1875, as compared with 1874, owing entirely to decreased production.

Exhibiting for 1875, as compared with 1874:

In local freight, a decrease of 5,743,344 pounds, or 0.38 of one per cent, and an increase of 11,547,046 tons hauled one mile, or 10½ per cent.

In through freight, an increase of 42,700,949 pounds, and 18,484,057 tons hauled one mile, or about 14 per cent in both tonnage and mileage.

In company's freight, an increase of 138,730,736 pounds, about 36 per cent, and 6,166,675 tons hauled one mile, about 16 per cent.

Exclusive of the grain forwarded to the general markets, the local traffic shows an increase in 1875 of 53,868,591 pounds, or about 4.35 per cent over 1874.

The freight earnings, per mile, on a basis of 1,309 miles in operation, December 31st, 1875, were as follows:

	1874.	1875.
In coin and currency, mixed, as earned	$6,025 30	$6,918 31
In coin, at average rate of exchange	5,839 09	6,604 29
In currency, at average rate of exchange	6,488 32	7,592 29

Average number of tons hauled per mile operated:

	1874.	1875.
Commercial freight	691.60	705.71
Company's freight	145.90	198.89
All freight	837.50	904.60

The total mileage of freight, or number of tons hauled one mile, in 1875 was 316,593,696, against 280,395,918 in 1874—an increase of 36,197,778. Average length of haul, in miles, per ton of all freight in 1875, 267.03; in 1874, 256—increase, 11.03.

As reported by T. H. Goodman, General Passenger and Ticket Agent, the number of passengers carried east was 2,254,232; do. west, 2,508,082—total, 4,762,314; of these 105,341 were through, 573,662 local, and 4,083,411 ferry. Average number of miles traveled by each passenger, 35.35. Average charge per passenger per mile, 3.27 cents. In 1874 the total number of pasteuger carried was 3,862,729; the average number of miles traveled by each passenger 34.77; and the average charge per passenger per mile, 3.52 cents. It will be seen that the increase in the number of passengers in the past over the preceding year was 899,585; of which increase 845,131 was in ferry, and 54,454 in rail passengers.

The Trustees report that since the acceptance of the Trust under the Land Trust Mortgage of the company, October 1st, 1870, they have received from the Land Department, up to December 31st, 1875, $896,251 48 in coin, and $8,278 76 in currency. During the year 1874 they redeemed 135 bonds, at a cost of $105,805 83 in coin, and during the year 1875 they redeemed 429 bonds, at a cost of $392,780 in coin. From December 31st, 1875, to July 31st, 1876, they received from the Land Department $139,078 95 in coin, and $238 75 in currency. On the 24th day of June they sold the currency, $8,517 51, for $7,601 87 coin, and on the same day they advertised for bids for the surrender of bonds for $540,000, coin. The balance remaining on hand, in cash, July 1, 1876, amounted to $544,346 47.

STATEMENT OF PROFIT AND LOSS FOR YEAR 1875.

Interest		$3,216,819 61
Taxes		400,855 09
General and miscellaneous expenses		395,350 15
Legal expenses		106,184 44
Civil engineering		25,805 66
Discount on currency receipts		672,073 28
Dividends Nos. 3 and 4		5,427,550 00
Balance		10,305,953 00
		$20,550,591 23
Balance to credit of this account, Jan. 1, 1875		$10,671,261 58
Earnings for the year 1875	$15,665,081 93	
Less operating exp	6,487,199 84	
		9,177,882 09
Interest on sinking funds		145,190 49
429 land grant bonds redeemed with proceeds of land sales		429,000 00
Operating river steamers and barges		127,257 07
		$20,550,591 23

The currency sold by the company during the year was sold at a discount equal to a premium on gold, of 14.96 per cent; adding this premium, the earnings over operating expenses would be equivalent to $9,603,071 35 in currency.

The earnings of this road monthly, for a series of years will be found on page 1403 of this week's issue. Also a full description of the company's bonds — amount outstanding, rate of interest, when and where payable, and the date of maturity of the principal—will be found on page 1406.

GENERAL LEDGER BALANCE SHEET, Dec. 31, 1875.

President.—LELAND STANFORD.

Vice Pres't. & Gen'l Agent.—C. P. HUNTINGTON.

2d Vice President.—CHAS. CROCKER.

Directors.—Leland Stanford, Mark Hopkins, E. H. Miller, jr., Robert Robinson, Chas. Crocker, David D. Colton, of San Francisco, Cal., C. P. Huntington, of New York City.

Treasurer.—MARK HOPKINS, San Francisco.

Secretary.—E. H. MILLER, jr., San Francisco.

Gen'l Superintendent.—A. N. TOWNE, San Francisco.

Assistant Gen'l Sup't.—JOHN CORNING, San Francisco.

Division Superintendents.—E. C. Fellows, Oakland, Cal.; J. A. Fillmore, Sacramento, Cal.; Frank Free, Wadsworth; G. W. Coddington, Carlin, Nev.; R. H. Pratt, Ogden, Utah; of River Steamers, W. H. Moor, San Francisco, Cal.

Chief Engineer.—S. S. MONTAGUE, San Francisco.

Closing of the Centennial Exhibition.

We learn from Philadelphia that all the arrangements for the closing of the Exhibition are being rapidly completed, and that every necessary detail is receiving careful attention. In order that the work of removal may be facilitated as much as possible, it has been determined that this labor must be commenced on the 11th of November, and finished before the 31st of December, unless otherwise authorized by the Director General. Goods then remaining without authority will be removed by the Director General, and sold for expenses, or otherwise disposed of under the direction of the Centennial Commission. A circular issued to the exhibitors by the Bureau of Transportation contains the following concerning free return transportation:

"Most of the railway companies in the United States having officially announced that they would transport, at regular rates, all articles intended for exhibition at the International Exposition of 1876, at Philadelphia, as well as all other articles forwarded by exhibitors for their own use in connection with the Exposition, and would return unsold articles free, and it having been announced that at the close of the Exhibition the Chief of the Bureau of Transportation will issue, when necessary, certificates showing what articles are unsold, and are to be returned to the place of original shipments by the route over which it was transported to the Exhibition, exhibitors who expect to secure free return transportation for their goods must apply for such certificates at the office of the Bureau of Transportation, where proper blanks for the purpose will be furnished."

There will be a general sale of all the buildings belonging to the Centennial Board of Finance on Thursday, Nov. 30, at 11 o'clock A. M. The list comprises the Main building and carriage annex, Agricultural Hall, with wagon and pomological annexes; the Art annex, Photographic Exhibition building, Shoe and Leather building, Judges' hall, Butter and Cheese building, guard station houses, and various other small buildings. Particulars of the sale will be furnished in pamphlet form, on application, ten days before the appointed time.

☞ A meeting of the Boards of Directors of the Ohio, Indiana and Illinois Divisions of the Baltimore, Pittsburg and Chicago Railroad was to have been held at Chicago Junction, Ohio, on the 3d inst., for the purpose of effecting a consolidation of the separate organizations.

☞ There are 549 miles of railroad open for traffic in New Zealand, and 883 miles in progress. It is proposed to expend over five millions during the coming year chiefly in completing the works now in progress.

☞ The Peachbottom Railroad, in York County, Penn., has earned during the past six months $20,935 93, which is over 62 per cent more business than it had done the same six months in 1875.

☞ The citizens of Newport, Ohio, are agitating the project of building a narrow gauge railway from Newport to a point up the river opposite New Richmond.

☞ B. B. Osler has been elected President, and J. J. Bowman Secretary of the Dundas (Canada) Street Railway Company.

☞ A company has been formed to build a street railway at Santa Rosa, Cal.

☞ At a meeting of the stockholders of the Boston Land Co., held on the 27th ult., the Treasurer read his report, showing that the present available assets of the company were $178,116 52. The liabilities consisted of a mortgage of $20,000, and various other minor liabilities, not exceeding $10,000 or $15,000, leaving the net assets something over $154,000. Of the 1100 acres originally bought by the company 70⅛ acres have been sold during the past year. The officers for the ensuing year are: President, Franklin H. Story; Vice President, A. W. Russell of Quincy; Trustees, A. P. Blake and Edward Turner. Treasurer, Edward Turner.

Great Western Railway of Canada.

REPORT OF THE DIRECTORS FOR THE HALF-YEAR ENDING JULY 31, 1876.

The marked improvement in the result of the half-year's operations, as compared with those of the corresponding half year ended 31st July, 1875, will be apparent from the following figures:

	1875.	1876.
Gross receipts..	£411,187	£394,769
Cash working expenses, exclusive of credits to reserve funds (being at the rate of 73.63 per cent, as compared with 90.32 per cent, for the corresponding period..	371,365	290,647
	£39,822	£104,122
Cash loss on working leased lines, interest on bonds, debenture stock, etc....	115,521	101,514
Deficit	£75,699	....
Surplus....	....	£2,608

The improvement in the cash working of the last half-year therefore amounts to £78,307, notwithstanding a decrease in gross receipts of £16,418. The cash working expenses are reduced to the extent of £80,718. The amounts charged to revenue account and placed to the credit of the various reserve funds for the respective periods, are as follows:

	Half-year ended July 31st, 1875.	Half-year ended July 31st, 1876
Ferry steamers renewal fund, including interest	£3,016	£3,229
Locomotive renewal fund, including interest..	11,564	11,185
Car renewal fund, including interest	845	19,716
Rail and bridge fund..	....	11,705
Insurance fund	552	552
Depreciation account..	6,500	6,500
Change of gauge fund..	9,100	....
	£31,577	£52,888
Cash balances	Dr. 75,699	Cr. 2,608
Net revenue deficit..	£107,276	£50,280

Hence the net results exhibit an improvement of £56,996, although the half-year's revenue has borne an increased transfer to reserve funds of £21,311 as compared with the half-year ended 31st July, 1875.

It will be interesting to the shareholders to see at a glance the operations of the past twelve months, the first complete year of the new general manager's administration.

	Year ended July 31, 1875.	Year ended July 31, 1876
Gross earnings for 12 months.	£893,339	£830,857
Cash working expenses ditto.	731,648	600,215
	£161,691	£230,642
Cash loss on leased lines, interest on bonds, debenture stock, etc....	223,106	203,467
Deficit	£61,415	....
Surplus	....	£27,175
Amount placed to credit of reserve and other funds...	£58,317	£95,037

Hence, while the gross earnings for the year are £62,482 less than those of the preceding year, the cash working expenses have been reduced by £131,433; and instead of a cash deficit on the year of £61,415, there is a surplus of £27,175, showing an improvement of £88,590. As, however, the credits to reserve and other funds have increased by £36,720, the net improvement is £51,870. This economy has been effected without in any way impairing the efficiency of the railway, or its equipment, which have never been in better condition than at the present time. It is the best practical testimony to Mr. Broughton's eminent fitness for the office of general manager; but the improvements which he is introducing into the working of the concern are by no means yet completed. With a view to aid and support Mr. Broughton in these and other important arrangements, the president, at the special request addressed to him by his colleagues in August last, consented again to visit Canada and the United States during the present autumn. He proposes to leave immediately after the general meeting.

The renewal and other funds during the half-year have been maintained as heretofore, the balances being on 31st July, 1876, as follows:

	Credit balance Jan. 31, 1876.	Credit during half-year including interest.	Balance July 31, 1876.
Ferry steamers renewal fund.	£24,316	£3,229	£27,545
Amount recovered from Insurance Company, for loss by fire of ferry steamer Union..	.... ..	....	3,082
			£30,628
Locomotive renewal fund	90,144	14,267	104,411
Car renewal fund..	20,217	15,203	35,420
Rail & bridge fund.	Dr. 3,320	Cr. 11,705	8,385
Insurance fund...	2,209	552	2,761
	£133,566	£44,957	£181,605

It is proposed during the current half-year to make some modification in the present rates of mileage charge for locomotive and car renewals, in accordance with the explanations given at the last general meeting. The exact rates are not yet determined.

The working of the leased lines during the half year has involved a loss (including a net transfer of £1,632 to the rail and bridge renewal fund) of of £8,366. This is £11,622 less than in the corresponding half-year of 1875, when the loss amounted to £19,988. The loss in working the Wellington, Grey, and Bruce alone amounts to £11,260, the charge for maintaining the line being still excessive; but as the defects in its original construction are remedied, better results are anticipated. The traffic of the London, Huron, and Bruce railway, the construction of which was undertaken by the present Board under special circumstances, is being gradually developed. The total capital expenditure is not yet exactly ascertained, but will not much exceed the former estimate.

The following table shows the increase and decrease of the earnings of the half-year, discriminating the various branches of business:—

Dec. in through passenger earnings.....		£3,523
Do. through freight do.	£21,237	
Do. through live stock do.	9,754	
		33,990
		£37,513
Inc. in local passenger earnings..	£979	
Do. local freight earnings....	19,516	
Do. in mails, express, freight, and rents....	600	
		21,095
Total decrease....		£16,418

The decrease is caused by the low rates at which the through traffic continues to be carried by all the railways of the district served by the Great Western. Thus the weight of through freight

carried was 29,487 tons more than in the corresponding half-year, the receipts being £24,236 less. The decrease in the total earnings of this half-year, however, is much less than that of the half-year ended January 31 last (as compared with the corresponding period of 1874 5,) which amounted to £46,063. The receipts from all sources were 4s. 10¼d. per train mile, against 4s. 11¼d. per train mile to July 31, 1875. The additional traffic interchanged with the Wellington, Grey, and Bruce railway during the half-year has amounted to £21,000. A sum equal to 20 per cent. thereof, or £4,200, has, under traffic agreements, to be invested in the bonds of that company on 1st Jan. next.

The new arrangements referred to in the last report, with respect to European through traffic, are working well; and are likely to result in further advantage to this company.

The amount received on capital account has been reduced during half-year to the extent of £109,743, as follows:—

Six per cent. bonds due July 15, 1876, paid off at maturity		£113,700
Less—		
Debenture stock issued in exchange	£2,340	
Share instalments received	1,618	
		3,958
		£109,743

The charges to capital account during the half-year have amounted to £15,018. The actual outlay consists principally of the proportion of cost of renewing bridges in stone and iron, and of substituting steel for iron rails. The total expenditure on capital account to July 31, 1876, amounted to £9,198,667, leaving a credit balance of £272,187.

Under the provisions of the "Great Western Railway Act, 1876" (which was printed in extenso with the last half-year's report) and in conformity with the resolution of the general meeting on April 28, 1876, the revenue overdraft to July 31 last, and the amount at which the revenue assets are estimated to be overvalued, will, in the current half-year, be written off to capital account. The revenue overdraft stands at £209,426 and the over valuation of assets will be about £65,000. The Act and the Resolution of the Shareholders empower, if necessary, a further sum of about £25,000 (making £300,000 in all) being written off on account of any deficiency during the current half-year; but the Directors trust that the improvement in the company's business now taking place will obviate the necessity of any further use of these powers. As provided by section 4 of the same act, the accrued dividend on the 5 per cent. preference stock amounting at July 31, 1876, to £49,327 has under the Shareholders' resolution of April 28, 1876, followed by the vote of the preference stockholders at a special meeting held in London, August 31 last, been funded at par, and additional stock has been issued accordingly. Thus the net revenue from August 1, 1876, is clear of any arrear liability, and will in future be applicable to the cash payment of bond and debenture stock interest, and to dividend on the preference stock and the ordinary shares of the company.

Imports and Exports of the United States.

The imports into the United States for the month of September, 1876, amounted to $31,936,860, against $37,813,302 in 1875, and the imports for nine months of 1876 were $330,866,859, against $398,123,821 same time in 1875. The value of the domestic imports in September, 1876, was $48,222,462, against $33,818,161 in September, 1875. The exports from 1st January to 30th September, 1876, amounted to $444,306,428, against $392,432,161 same time in 1875. These figures show a decrease of $67,756,962 in imports and an increase of $51,874,267 in exports during the first nine months of the year. The following table shows the value of the imports and exports at the five principal ports during the month of September, 1876.

	Imports.	Exports.
Baltimore	$1,290,691	$3 834,783
Boston	3 201,222	4,123,970
New York	22,051,098	24,679,140
Philadelphia	1,021 908	5,623,395
San Francisco	1,730,258	3,658,054

Damages for Expelling a Passenger.

In the case of Levan vs. Pennsylvania Railroad Company, recently tried in one of the Courts of Common Pleas in Philadelphia, before Judge Briggs, the jury returned a verdict for the plaintiff for $8,500. The suit for damages has been pending eight years. From the testimony elicited at the trial it appears that the plaintiff, in November, 1868, purchased at Harrisburg, from defendants, a ticket for Philadelphia. The train upon which he was to take passage was known as the Cincinnati express, which was divided by the company into New York and Philadelphia divisions; but being unable to obtain a seat in the ordinary cars and being unwilling to occupy a seat in the smoking car, took, by direction of the brakeman, a seat in the sleeping car, from which he was afterwards ejected by the conductor upon his refusal to pay $1 50 additional for the privilege of riding in that car. From the testimony of the plaintiff it would appear that the place where he was put off the train was about eight miles from Lancaster, from whence he walked into Lancaster, thereby aggravating a disease with which he was afflicted to such an extent that he has never entirely recovered from the effects of it.

The defendants assert that the conductor allowed the plaintiff to remain in the sleeping car until there were seats vacant in other parts of the train; that shortly after the train left Middletown the conductor requested him to take one of these seats, and he refused, whereupon the train was stopped and he was ejected. There was no force used on the plaintiff except the mere laying on of hands, so that he should not seem to assent to his being put off the train.

Judge Briggs, in charging the jury, said that the purchaser of a first class ticket was entitled to a first-class seat. The right to make reasonable rules and regulations resided in the company, and when made, the company, as well as the travelers, must conform to them. The company had the right to divide the Cincinnati express train east into New York and Philadelphia divisions, and the passenger who was coming to Philadelphia was in duty bound to go into the division which corresponded with his ticket. The company, when they sold Levan a ticket, contracted to give him a seat, and they could not answer that there were none. An exception to this could only be found in the case of surprise to the company by the influx of a large number of passengers. The plaintiff, being entitled to a first-class seat in a car of the Philadelphia division, was not required to stand if there was no seat there, but he had the right to occupy any first-class seat he might find unoccupied in any part of the train. He could remain in it until the conductor told him, or he knew of his own knowledge, that other first-class seats were vacant. He could not, however, be required to leave it and put his life in jeopardy by passing from car to car while the train was in motion. If he was required to leave that seat for another first-class seat in another car the train must be stopped. The plaintiff took a seat in the sleeping car, and if the train when at Landisville was stopped and he was requested to occupy another first class seat, and he refused, then the officers of the train had, after waiting a reasonable time, the right to eject him.

The Effect of a Foreign War upon American Interests.

Some weeks ago we pointed out the material advantages which must accrue to this country from an extensive foreign war, and now the same discovery has been made by the Eastern press. It may appear to some a shocking thing calmly to discuss the benefits derived from the calamities of other nations, but nevertheless it is common sense to recognize the truth, and it may comfort sensitive minds to reflect that after all no amount of speculation can alter the conditions which are set up under natural laws. Thus, if Russia and England go to war, neither country will be able to raise the usual quantity of wheat, and they must consequently be customers of California. In the same way we shall be called upon to supply the combatants with arms and munitions of war, with medicines and canned provisions, with drugs and surgical appliances, with military equipments and camp furniture, with whole lines of manufactures of various descriptions. Should other countries become entangled in the quarrel the United States will profit still further; in fact the more war there is in Europe the better it will be for our industries and our commerce. It is useless and absurd to shut our eyes to this truth. We are not responsible for it. It arises from our geographical position. We can have no entanglements with any European power, unless we deliberately seek it ourselves, and there is fortunately no present danger of that. And it is possible that this threatened European war may revive our decayed ship-building trade, if only Congress can be got to take its heavy hand off the ship yards. When we were plunged in war England was the natural beneficiary, though she also suffered much through the failure of the cotton supply. But she eventually transferred almost all the commerce of the North into her bottoms, and as Congress has ever since striven manfully to prevent a re-transfer, it has not taken place. In the pending war, however, English bottoms must be exposed to great risks, and the flag of a neutral power will possess peculiar charms for the underwriters. * * * Of course at the outset, and before events have shaped themselves so as to afford a clue to the future, there is a panicky tendency in all the stock markets, but in a short time the obvious advantages of American securities over those of Europe will become evident to the meanest capacity, and then foreign capital will find its way here for investment.—*Sacramento Record-Union.*

☞ The directors of the Danvers Railroad Company, and of the Newburyport Railroad Co., both of which are under lease to the Boston and Maine Railroad Company, are: Nathaniel G. White, Lawrence; George C. Lord, Boston; Amos Paul, South Newmarket, N. H.; Nathaniel J. Bradlee, Boston; William S. Stevens, Dover, N. H.; James R. Nichols, Haverhill; John F. Osgood, Boston.

☞ The payment of interest on the bonds of the State of Tennessee has been discontinued in this city. Applicants for interest are now referred to the State Treasury at Nashville.

☞ The track of the Cincinnati Southern railway is finished from Cincinnati to the Kentucky river, at which point the high iron truss bridge is being built.

American Railroad Journal.

Saturday, November 4, 1876.

Financial and Commercial Affairs.

There has been a dull, and, on the whole, a drooping market for railway securities in the past week. The little progress made in bringing the managers of the great trunk lines to an agreement upon more remunerative rates of freight; the unfavorable result of the October coal sales; the failure of the Continental Life Insurance Company, and the assaults that were made upon the standing and credit of another similar corporation; the defalcation in the Park Bank; the inability of the St. Louis and Iron Mountain Railway Company to carry out its undertaking with reference to its supplementary bonds (paying but half the amount of the coupons falling due on the first instant) all combined to excite distrust and apprehension; and it may be truly said that the wonder is, that a greater decline has not taken place. The most conspicuous is in Delaware, Lackawanna and Western and in Chicago, Milwaukee and St. Paul; and it may be noted that a slight advance was made in Cleveland and Pittsburg and in Pittsburg, Fort Wayne and Chicago, whose dividends are guaranteed by the Pennsylvania Company. Illinois Central is involved in a law suit concerning its subscriptions to the bonds of a lateral road, and is weak. On Wednesday, the market was wholly under the influence of reports regarding the progress of negotiations between the agents of the trunk lines of railroads, and towards the close the reports of a disagreement; and final adjournment caused a marked decline especially in Lake Shore and Michigan Southern. The final close, however, was steadier.

The spasms in the money market carried the

rate on call loans to 5@6 per cent on Tuesday. On Wednesday, the extreme rates were maintained at the close. The bank statement of Saturday last showed a falling off of nearly six millions in deposits, but other compensating changes gave a less unfavorable appearance to the statement than many anticipated, as there was but a trifling reduction in the legal reserve. Exchange has declined, and closes at $4 82@$4 82½ for prime 60 day bills. The exports for the past week are very large in amount, but a speculative movement in cotton at the Southern markets, has checked shipments thence. The exports from New York aggregated $6,901,516, against $5,893,917 for the corresponding week last year; and $225,635,964 since January 1st, against $212,062,359 for the corresponding period last year. Gold ruled at 109¾@109⅞ for most of the week, but closed on Wednesday at 110.

Government Bonds have been moderately active despite the effort to make party feeling an influence in the market. On Wednesday the closing prices were:

United States currency sixes, 121⅜@121½; do. 6s, 1881, registered, 117⅝@117⅞; do. coupon, 118⅛@118⅜; do. 1865, registered, 110⅛@110⅜; do. coupon, ex-int, 110⅛@110⅜; do. new, registered, 113⅛@113¼; do. coupon, 113⅛@113¼; do. 1867, registered, 116@116⅛; do. coupon, 116@116⅛; do. 1868, registered, 117@117¼; do. coupon, 117@117¼; do. ten-forties, registered, 113⅞@114; do. coupon, 115¼@115¾; do. fives, 1881, registered, 113@113⅛; do. coupon, ex-int, 113@113⅛; do. four and one-halfs, 111@111½.

General trade has been variable. Coffee and sugar have advanced. Cotton has become the object of an excited speculation, upon which prices advanced materially. There was a temporary revival of activity in breadstuffs, and provisions were somewhat unsettled by a "corner" on October contracts for pork. Hides and leather are higher. On the whole, however, business is not active. The demand for pig iron has subsided.

From the report of the public debt for October we learn that the total principal of the debt now outstanding is $2,183,943,326 81, on which there is due and unpaid of interest $34,473,464 05, giving a total of principal and interest of $2,218,416,790 86. There was at the same time cash in the Treasury, of coin $75,967,027 98, of currency $12,901,326 10, exclusive of $40,670,000 of special deposits for redemption of certificates, making the total of cash in the Treasury $129,538,354 08, reducing the total debt, less cash in the Treasury on November 1, 1876, to $2,088,878,436 78. Debt less amount in Treasury October 1, 1876, $2,092,266,575 79, showing a decrease during the past month of $3,388,139 01. Decrease of the debt since June 30, 1876, $10,560,908 21. Bonds issued to Pacific Railroad Companies, interest payable in lawful money, principal outstanding, $64,623,512; interest accrued and not yet paid, $1,292,470 24; interest paid by United States, $32,080,218 42; interest repaid by transportation of mails, etc., $6,990,306 21; balance of interest paid by United States, $25,089 912 21.

Since the passage of the act authorizing the redemption of fractional currency in silver coins, here has been issued in these coins $21,877,211 97. Of this amount $8,950,399 13 has been issued in exchange for checks and legal tenders, and $12,926,812 84 has been issued for fractional currency, which has been destroyed. The amount of subsidiary silver coins now on hand is $1,548,086.

The payments made from the Treasury by warrants during the month of October, were as follows: On account of Civil and Miscellaneous $5,033,582 17; War $3,489,081 59; Navy $1,332,186 83; Interior—Indians and Pensions $1,094,175 80—total $10,928,966 49. The above does not include payments made on account of the interest or principal of the public debt of the United States.

The Lehigh Valley Railroad Company will pay, at its office in Philadelphia, the coupons due July, 1875, and January and July, 1876, on the first mortgage bonds of the Ithaca and Athens Railroad Company.

The Kansas Pacific Railway Company has again defaulted in the payment of its interest. About two years ago the bondholders consented to an arrangement by which half-interest was to be paid until 1877. The default which occurred on the 1st inst. was in the non-payment of the half-interest.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

FISK & HATCH,

Bankers,

No. 5 Nassau St., New York.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, on COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

☞ Judge Bond, on the report of the Master of Accounts in the Atlantic, Mississippi and Ohio Railroad case, has ordered Mr. Charles L. Perkins, one of the Receivers of the road, to pay, on and after the 5th of November, in the city of New York, the interest due the divisional bondholders on the instalment of July 1, 1876. It amounts to $176,279 36.

Land Grant Decision.

The following decision of the Department of the Interior are taken from Copp's Land Owner for October:

Swamp lands of the State of Minnesota vs. the St. Paul and Sioux City Railroad Company.—In this case the grant of Minnesota to aid in the construction of certain railroads was a grant *in præsenti*, which acquired precision and attached to peculiar sections on the definite locations of road. This title could only be diverted by a forfeiture or by a conveyance. The State having accepted and applied the lands in question for the purposes specified in the Act of 1857, is estopped by her own acts from claiming them under another Act for different purposes.

☞ In the matter of the petition of the Receivers of the Atlantic, Mississippi and Ohio Railroad, for leave to deposit funds in New York city, Judge Bond has entered an order allowing them to deposit so much of the money and funds from time to time in their hands as they may think proper and necessary to the due administration of their trust in banks of good credit in the city of New York. Such deposits may be made in any or all of the following banks. The Bank of New York, National Banking Association, National Bank of the Republic and the Bank of North America.

☞ The Superintendent of the Delaware, Lackawanna and Western Railroad, in his official report to the President of the recent disaster at Lehigh Summit, whereby three persons were killed, two seriously and eleven slightly wounded, caused in the first place by the uncoupling and then by the telescoping of two Pennsylvania Railroad cars, says that "had the Pennsylvania cars had the Miller Platforms on I do not think there would have been a person injured."

☞ A narrow gauge railroad company has been incorporated in Ohio; the road to run from Gore, on the Straitsville branch of the Columbus and Hocking Valley railroad, up Monday creek, to connect with the Straitsville division of the Baltimore and Ohio railroad at McConnesville or Anderson Station. The incorporators are S. Churchill, S. Weldy, John Walker, C. E. Bowen and A. Magoon, of Logan. The entire road and its equipment will not cost more than $25,000.

☞ Hardy and Grant countries, West Va., are again agitating the raising, by bonding the subscription, of a sufficient sum to build a railroad from Romney to the iron mines in those counties. A motion for a vote on the subject is to be made at an early day, and it is thought the subscription will carry. At Romney the road would form a junction with the road from that place to Green Spring, on the Baltimore and Ohio railroad, upon which a considerable amount of work has been done.

☞ Regular trains commenced running on the Columbus and Toledo Railroad between Columbus and Marion on the 1st inst. The intermediate stations are: Elmwood, Powell, Hyatts, Delaware, Radnor, Prospect and Owens. Between Marion and Upper Sandusky there remains to be laid about seven miles of track, and between Pemberville and Toledo about nine miles

Costa Rica Railroad.

The Panama Star and Herald, of September 29th, says that the aspect of affairs generally in Costa Rica can scarcely be said to have improved during the past few weeks. The pay of the railroad officials and laborers continues to be some months in arrears.

The railroad "drags its slow length along," in spite of the unmistakable energy and vigor displayed by the contractors for the Matina-Pacuara branch, Messrs. Keith and Douglas. The nonfulfillment of the promise of the Government to supply funds as the work proceeded, will, it is to be feared, cause very soon a cessation of the labors.

An important contract has been celebrated between John G. Meiggs and the Peruvian Government, which will doubtless go far toward removing all danger as to competition between the nitrate of Tarapaca and that found on the coast of Bolivia.

Telegraphic communication between Valparaiso and Callao direct, by cable, has now been established.

☞ The basis of settlement of the debt of Memphis lately arranged by Mayor Flippin, of that city, and committees of the bondholders in this and other Eastern cities, is regarded quite favorably by the local financiers and the municipal government. Mayor Flippin has returned to Memphis, and it is stated that he will shortly make a report to the council, and when the Legislature meets in January the legislation necessary to make the agreement binding will be introduced, so as to carry it into effect at as early a day as practicable.

☞ A correspondent writing from San Diego Cal., under date October 20th, says: "The news of the breaking of earth on the Texas and Pacific Railway at Yuma creates a good feeling here, and raises higher hopes than has been noticed for several years past. Some think it is only to secure the bridge crossing on the Colorado; others, that the work will be pushed in both directions at once, and that in a short time work will be commenced here."

☞ The Lebanon (Penn.) Times says that at a recent meeting of the officers and directors of the South Mountain Railroad, held at Jonestown, the transfer of the contract for constructing the road, by Contractor Fisher to Contractor Shrope, was confirmed. The company has now 400 miles of railroad under the contract of two companies, and one bridge company.

☞ Contracts for the completion of the Springfield, Jackson and Pomeroy (Ohio) Narrow Gauge Railroad have been let, and work commenced between Waverly and Bainbridge. Tracklaying was to have been commenced at Jackson on the 1st inst., and will be begun at Springfield on or before the 1st of December.

☞ The work on that section of the Wheeling and Lake Erie Railroad between Milan and Norwalk, Ohio, is being pushed vigorously forward to completion. A large number of men and teams are busily engaged in getting the road bed ready for the ties and iron.

☞ The first train passed over the Karns City and Butler (Penn.) Narrow Gauge Railroad on the 27th u

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1881, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1881, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages, it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

Direct Communication between Baltimore and Quincy.

Col. Jas. W. Singleton, of Quincy, Ills., was in Baltimore yesterday bearing authority from an association of merchants and other business men of Quincy, to confer with the Baltimore and Ohio Railroad Company and capitalists of Baltimore upon the subject of establishing direct railroad communication between Baltimore and Quincy. Colonel Singleton represents that the building of railroad connections of twenty six miles will give Baltimore a direct line to Quincy, greatly shorten the distance between the two cities and operate largely to the advantage of the trade of Baltimore. Quincy is on the Mississippi river, 130 miles above St. Louis, and is the centre of an important net work of railroads. Col. Singleton called on Mr. John King, Jr., and in the afternoon left for New York. He proposes to return to Baltimore in a short time and bring the subject of his mission more directly before the public.—*Balt. Sun, Oct.* 25.

☞ At a meeting in Quincy, Mass., on the 28th ult. of gentlemen interested in the construction of a horse railroad to the Point, the old charter of the company, organized in 1872, having been pronounced invalid, a new charter was drawn up under which to act, with the following gentlemen as corporators: John Federhen, Lemuel Baxter, John Federhen, 3d, H. M. Federhen, B. F. Curtis, John R. Graham, F. A. Whicher, Ebenezer Bent, M. H. Oliver, Thomas J. Dunbar, W. M. French, Cyrus Patch, Albert Keating, J. Q. A. Field, F. H. French.

☞ The sales of stock in the San Francisco Board during the first nine months of the present year show an aggregate value of $174,872,575, or over eleven millions more than for the like period in 1875; twenty two millions more than for the same time in 1874, and eighty millions more than in 1873.

☞ The officers of the Western Maryland Railroad Company, elected on the 24th ult., are: J. M. Hood, President and General Manager; Alexander Riemen, Vice president, and John S. Harden, Secretary and Treasurer.

Progress of Manufactures in Wilmington.

A correspondent of the American Manufacturer, writing from Wilmington, Delaware, says:

The last few months has shown a vast improvement in every department of business, and manufacturing particularly has started up with a vigor that has surprised even the most sanguine factors and business people generally, as it was apprehended in nearly all circles that the dullness of the last summer would continue through the fall and winter. This feeling, fortunately, appears to have been unfounded. The manufacturers, while appreciating and taking advantage of the good times, are hopeful of the advent of still better times as the season advances.

The heaviest manufacturing establishments are those devoted to Car Building and the making of a large variety of iron contrivances and appliances. Besides these are numerous concerns where textile and other fabrics are produced. The Jackson & Sharp Company, the Harlan & Hollingsworth Co., Bowers, Dure & Co., Car Builders, are crowded with contracts, and are rushing their works to the greatest capacity. The Harlan & Hollingsworth Co. are also builders of Iron and Wooden Vessels, and have a number in various stages of construction.

Another heavy manufacturing concern is the Lobdell Car Wheel Company. This establishment, one of the oldest and most celebrated in the city, has a good patronage, and is turning out weekly a large number of superior make of Car Wheels.

The Coal Trade.

The total tonnage for the week ending on the 21st instant, as reported by all the companies, amounted to 593,850 tons, against 592,910 tons in corresponding week last year, an increase of 940 tons. The total amount of anthracite mined for the year is 14,429,299 tons, against 16,324,440 for same period last year, a decrease of 1,895,141 tons. The quantity of bituminous coal sent to market for the week was 80,880 tons, against 89,961 tons for corresponding week last year, a decrease of 9,081 tons. The whole bituminous tonnage from the beginning of the coal year is 2,903,086 tons, against 3,204,699 tons in corresponding time last year, a decrease of 204,699 tons. The total tonnage of all kinds of coal for the week is 674,730 tons, against 682,871 to corresponding date last year, a decrease of 8,141 tons, and the total tonnage for the coal year is 17,332,385 tons, against 19,529,139 tons to same date last year, a decrease of 2,196,754 tons. The receipts at Perth Amboy for the week ending October 21 were 17,708 tons, and shipped 26,751 tons, leaving a stock on hand of 49,906 tons.—*Phila. Ledger, Oct. 30.*

☞ The Victoria Colonist says that as rapidly as the survey of the parties who have been operating in the interior all summer reach the Frazer river canyons, they will be set at work to survey those localities for a railway line. The Ottawa Government is anxious to fix upon the route through British Columbia before the first of January next.

☞ The directors of the Boston, Winthrop, and Point Shirley Railroad Company, recently elected, are: Samuel G. Irwin, Clarence A. Parks, John L. Butman, Frank H. Hills, Herman B. Tewksbury, William G. Barker, George McQuestion.

☞ The Northern (Canada) Railway Company has paid over to the Canadian Government £100,000 sterling—the amount required to cancel a Government lien.

☞ The Treasury Department insists that railroad companies shall use sound cars in transporting unappraised merchandise subject to import duty.

MISFIT CARPETS.

English Brussels, Three-Ply and Ingrain, also, Stair Carpets, Velvet Rugs, Crumb Cloths, Oil Cloths, etc., very cheap at the Old Place,

112 FULTON STREET, NEW YORK.

Carpets carefully packed and sent to any part of the United States free of charge.

☞ Send for Explanatory Circular. J. A. BENDALL.

ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

New York, Saturday, November 11, 1876.

Rates of Freight on the Great Trunk Lines.

A daily contemporary, which we have found to be usually well informed, relates that a good deal of pressure is being brought to bear upon the officials of the great trunk lines of railroads which connect the Atlantic Seaboard and the Great West, to promote action on their part towards an advance in the rates of eastward bound freight. It is asserted in the paragraph here referred to, that "every influence is used to bring roads which raise objections to acquiesce in higher rates. Stockholders and bondholders appear to be active in seeking to influence their official representatives, and the money lenders are looking less favorably on paper offered by such of the railroads as still have floating debts. For instance, some paper of one of the trunk lines, whose securities stand high in its own city and in London, was offered for discount at one of our large banks. The loan was submitted to the bank director who gives most attention to railroad matters, and his decision was emphatic. 'Not a dollar, until rates for freight are advanced.'" We must dissent in a measure from the spirit of this bank direction, and from the nature of the effort which is described. Some advance in through freights on Western staples is probably desirable, but it is not so essential to the prosperity of railroads in good position, and cannot be made so great as many suppose. There are other interests and broader considerations involved than the mere increase in the earnings of certain railroads or the rivalries of great cities. The officials of these great trunk lines cannot if they would, and dare not if they could, make such an advance in freights—such an increase, so to speak, upon the cost of making the exchanges of the products of agriculture manufactures and commerce of the country, as may prove at all burdensome, or so much so as to check the returning prosperity of the country. Dividends of six per cent per annum are relatively as great now as those of eight per cent were a few years ago; and with economy in management there is no need nor justification for the extravagant earnings which have been regarded as essential to the maintenance of the value of railroad property. This truth is demonstrated in the fact that the New York Central is earning, even at the reduced rates of freight, more than its quarterly dividends of two per cent.

To arrive, in a practical manner and by direct comparison, at rates that may be esteemed remunerative, the freight on grain by the steamers plying between this port and Liverpool may be cited. The rate for the past few years or more has ranged from thirteen to seventeen cents per bushel—averaging, perhaps, fifteen cents per sixty pounds. The distance is about 3,300 miles; the time eight to ten days. The distance is more than three times that between Chicago and New York, the speed rather greater, and the charge about the same. Thus the ocean steamers carry grain more than three times the distance, in about the same time, at about the same charge, as the great trunk lines of railroad carry grain from the Mississippi River to the seaboard. To be sure the ocean steamers do not have to provide any roadway, but it is equally certain that the difference in distance and speed ought to compensate for that. And we find that the steamers are glad to obtain employment at these rates; and that, too, at a time when other parts of their business are in a very depressed condition. Whence, then, the necessity of any great advance in the charges by our railroads?

To put up, materially, the rates of transporting the products of the West to the seaboard, would be to impose a serious loss upon a community which has suffered and is still suffering much. Prices of breadstuffs and provisions are comparatively low—Spring wheat $1 25 per bushel, corn 59 cents, and oats 37 cents in this market. Deduct the cost of moving these articles from the farmer to the consumer, and the farmer finds but a small margin left to him, while the consumer finds abundant ground for complaint in the high cost of living. An advance in railroad freights to the amount of three per cent on the above named staples would so cripple trade that it may be safely estimated these great trunk lines would be injured quite as much as benefitted, for the present at least. The officers of the great trunk lines are therefore quite justified in moving cautiously in this business. It would be much more reasonable to advance passenger fares. At any rate, it is to be hoped that advanced rates of freight will be put off as long as possible, and when they are put up, it will be with moderation and judgment.

Boston and Albany Railroad.

From the report of the Boston and Albany Railroad Company, made to the Railroad Commissioners, for the year ending September 30, 1876, we learn that the total receipts were $7,074,758, against $7,869,953 the previous year—a decrease of $795,195; the expenses were $4,682,994, against $5,371,902 last year—a decrease of $688,908; the net balance of income was $2,391,764, against $2,498,050 in 1875—a decrease of $106,287. Although there is a considerable reduction in all the main items of receipts and expenses, the actual tonnage of freight is larger than last year, the respective figures being 2,541,274 tons in 1876, to 2,439,472 in 1875. The number of tons carried one mile was 301,624,788, against 282,309,789 the previous year.

Notwithstanding Centennial travel, the number of passengers carried one mile is 110,644,410, against 122,063,386, last year. The total number

of passengers carried is 5,578,395. Passenger have been carried at an average rate of 2.37 cents per mile, or one mill less than last year, and freight at an average of 2.21 cents per mile. The total amount of the permanent investments of the company is $29,146,934, and the gross debt is $8,707,938. The funded debt amounts to $7,000,000, of which $5,000,000 is at 7 per cent and the remainder at 6. The amount charged to construction account, last year, was $291,180. The report shows 5,383 stockholders, of whom 4,613 reside in Massachusetts; and of the $20,000,000 stock, $17,538,200 is held in that State. The total number of miles operated by the company is 321.48, exclusive of 161.65 miles of siding.

The company have 239 locomotives, 244 passenger and baggage cars and 4,816 freight cars on a basis of eight wheels. Of the transportation expense items below, $840,608 is for salaries of freight employes, $484,293 for the salaries of passenger employes, $730,318 for fuel, $355,555 for taxes, $180,419 for the salaries of switch, watch and signal men, and $63,988 for oil and waste cotton.

The following is a comparative statement of the receipts, expenses, etc., for the past and preceding years:

Receipts:	1875.	1876.
From passengers	$2,972,454	$2,626,692
" freight	4,321,131	3,886,132
" mail, etc.	569,368	561,934
	$7,869,953	$7,074,758
Expenses, viz:		
Repairs of roadway	$1,091,196	$915,812
Repairs of engines	306,023	282,721
Repairs of passenger and freight cars	554,757	478,991
Repairs of buildings, ferry, etc.	107,172	80,694
Transportation exp.	3,188,787	2,813,703
General expenses	123,968	111,073
	$5,371,903	$4,682,994
Net income	$2,498,050	$2,391,764
From this deduct:		
Interest	$490,955	
Dividends	1,800,000	
Dividends on Pittsfield and North Adams road at 6 per cent	27,000	
Rent on Ware River road at 6 per cent	45,000	
		2,362,955
Surplus for the year		$28,809
Surplus at commencement of year		3,633,588
Premium on bonds		30,000
Total surplus for 1876		$3,692,397

Troy and Greenfield Railroad.

The Executive Council, at its session in Boston on the 1st inst., adopted the following order relative to the continuance of work on the Troy and Greenfield Railroad:

"Whereas the cost of work on the Troy and Greenfield Railroad performed under contracts made by the corporators of the Boston, Hoosac Tunnel and Western Railroad Company has greatly exceeded the original estimates and absorbed a portion of the appropriations relied upon for work under contracts made since July 1, 1875; and whereas, the balance of appropriations and the amount of other available funds will be insufficient to complete the work in progress between Bardwell's Ferry and Greenfield; therefore, it is Ordered, that J. Prescott, manager, be requested to inform the contractors where work is unfinished that if they continue their work after existing appropriations and other available funds are exhausted, they must rely upon future appropriations for such balances as may be due them under their respective contracts; and he is hereby authorized to assure said contractors that the Governor and Council believe the Legislature will promptly make such appropriations as may be requisite for the completion of the work in question."

Grand Trunk Railway of Canada.

The report for the half-year ended June 30th, 1876, states:

	June half of 1875.	June half of 1876.
The gross receipts upon the whole undertaking, including Buffalo and Champlain lines, have been	£909,075	£956,073
Which are reduced by the discount on American currency	15,927	19,714
To	£893,148	£936,359
Deduct working expenses, including in 1876 £51,370 for renewals not charged in 1875 (being at the rate of 78.38 per cent, as against 78.54 for the corresponding half of last year)	701,460	733,948
Leaving a sum of	£191,688	£202,411
From this, however, has to be deducted the postal and military revenue due for the half-year to the bondholders	16,283	15,878
Which leaves	£175,405	£186,533
Applicable for the following payments, viz:		
Interest, etc., paid on lands, etc		£14,917
Atlantic and St. Lawrence lease		52,541
Lewiston and Auburn Railway rent		1,849
Detroit line lease		11,250
Montreal and Champlain bond interest		11,571
Buffalo and Lake Huron rent		33,500
1st Equipment bond interest		15,000
2d Equipment bond interest		15,000
5 per cent Perpetual Debenture stock		30,804
Leaving a balance of		102
		£186,533

There has therefore been for the past half-year no balance available for dividend on the preference stocks, and the above balance added to the amount brought from the last account makes the total to be carried to the next account £1,787. The gross receipts for the half-year (after deduction of discount on American currency) show an increase of £43,210, or 4.84 per cent over 1875. The working expenses, including renewals, have amounted to £733,947, or 78.38 per cent, against a total charge of £701,460, or 78.54 per cent in 1875, showing an increase of £32,487, or 4.63 per cent, against the above increase in the receipts of 4.84 per cent. Excluding the charges for renewals of road, engines, and cars, of £51,370, made in excess of similar charges in 1875, the working expenses, charged on the same basis as 1875, amounted to £682,577 or 72 89 per cent of the gross receipts, against £701,460, or 78.54 per cent in 1875, showing that in the ordinary expenses of working there has been a decrease of £18,882, or 2.69 per cent, against an increase in gross receipts of 4.84 per cent. Adding the increase in gross receipts of £43,210 to the above decrease in the ordinary working expenses of £18,882, makes a total of £62,092, which represents the improvement in the half-year's working, as compared with 1875, and is equal to fully 6½ per cent of the gross receipts. The above sum of £62,092 has been applied in the following additional charges for renewals way and works, £26,712; locomotive department, £14,384; car department, £10,274; total, £51,370. In meeting the following additional charges, viz:

Interest on debenture stock	£18,300
Less interest on securities extinguished	4,900
	£13,400
Rentals of leased lines	800
	£14,200
Deduct decreased interest on lands, temporary loans, etc	3,500
	£10,700

The outbreak of competition amongst the trunk lines running to the Atlantic seaboard, and the general war of rates (more fully referred to hereafter) which commenced in April last, compelled all companies to carry, during the remaining portion of the half year, at excessively low rates, and thus unfortunately neutralized all the advantages to the company from the exceptional mildness of last winter, and from the economies which have been introduced into every department. During the first quarter, the gross receipts were considerably increased, and the result of the working was to leave a net revenue of £42 000 in excess of the same quarter in 1875, at the same time that an additional amount of £26,000 was charged for renewals, so that the comparative improvement in the working for the first quarter was £68,000. During the second quarter the gross receipts remained nearly stationary as compared with 1875, whilst an increase of 89,400 in the number of tons carried, by the increased work required, absorbed slightly more than all the savings in the ordinary working expenses, and thus reduced the amount representing the improvement in the working for the whole half-year to £62,000. The charge in this second quarter for renewals in excess of the same period in 1875 made up the total charge of £51,370, and left the amount available to meet the increased interest charges about £11,000. The passenger receipts were less by £22,233, or 8.62 per cent, but the numbers carried were less only by 7,627, or about 1 per cent, as compared with 1875. Irrespective of the slight falling off in numbers, the decrease in receipts resulted principally from the shorter average distance traveled by each passenger, which was fully 7 per cent less than the average distance in 1875, the proportionate average fares being nearly the same. This loss in passenger traffic was substantially a loss of net revenue, as it of course was impossibly suddenly to alter the train service. The increased receipts from freight traffic were £72,853, or 12 80 per cent, and the increased tonnage carried was 162,701, or 18.48 per cent. The following shows the diminution in the average rates for freight per ton per mile since 1873, comparing each year with the preceding, viz: Comparing 1876 with 1875, 12 per cent; with 1874, 28 per cent; and with 1873, 37 per cent. Had the same average rates per ton per mile for freight been received in 1876 as in 1873, the gross receipts of the company would have been increased by not less than £350,000 during the past half-year. The total number of passengers carried was 869,549, against 877,176; and the quantity of freight was 1,042,922, against 880,221 tons. The average receipt per passenger was 5s. 8d., against 6s. 1½d., and per ton of freight 12s. 3d., against 13s. 4d. Although the gross receipts have been increased by £43,210, or 4.84 per cent, and the amount of work done, as represented by the additional car miles run, is 23½ per cent greater than in 1875, the working expenses, charged on the same basis as in 1875, were £18,883, or 2.69 per cent less, and the following gives the details of the reductions effected, viz:

Decreases—	
Maintenance of way	£1,060
Car department	4,678
Traffic expenses	16,899
General charges	160
Tolls paid	3,166
	£28,963

Deduct increases—		
Locomotive department		£1,862
Miscellaneous expenses		1,011
Rent of rolling stock		4,742
Loss by fire at Point St. Charles		2,465
		10,080
Total decrease		£18,888

The additional charge for renewals during the half-year of £51,370 absorbed the whole of this saving, as well as £32,500 of the increased gross receipts. The total expenditure for maintenance of way and renewals was £88,642. There was a reduction in the expenses of maintenance of £4,060, but an additional charge for renewals of £26,712, to that the total addition to the charges in this department was £22,652. Owing to the longer period during which work can be done, the renewals in this department are carried on much more extensively in the December than in the June half-year, and the charge during the latter half of 1876 will, as usual, be proportionately increased. No charge for laying down steel has been made against capital during the half-year. It is satisfactory to observe that by the engineer's report, "the steel rails have stood the work and the effects of the weather of the past winter exceedingly well, and the condition of the permanent way is satisfactory and improving." The following statement shows that during the last two years there has been a continuous decrease in nearly every item of expenditure, viz:

Expenditures less in June half-year, 1875 and 1876.	1875. less than 1874.	1876. less than 1875.
Wages	£2,320	£5,884
Lights, lamps and signals	671	1,622
Oil, tallow and waste	448	....
Small stores	1,153	2,675
Compensation for damages	3,021	1,623
Cattle killed	....	229
Stationery etc	1,012	480
Office expenses, etc	2,057	424
Fuel for stations and cars	1,352	3,238
Agencies in United States	850	998
Audit office salaries	339	267
Agencies in Europe	188	119
Ferries and ferry boats	1,486	....
Total of reductions	£14,842	£17,559
Deduct increases— 1875. 1876.		
Oil, etc	£383	
Cattle killed £155	....	
Ferries, etc	277	
	155	660
Total decrease	£14,687	£16,899

The expenditure on capital account for new works, land, &c., has only been £8,425. There has, however, been charged for discount on an issue of 5 per cent. perpetual debenture stock £102,822, and for International Bridge bonds (redeemable on 1st July, 1876), £29,200, making a total charge for the half-year of £140 477. The capital account is credited with £344,287 the amount of the recent issue of debenture stock, less £17,000 on Montreal and Champlain 6 per cent. bonds extinguished during the half-year. During the half-year further debenture stock was raised to provide the means of meeting the various preferential securities which had already become or were becoming liable to be repaid, and it was considered to be the fairest course to invite tenders from the Proprietors for the amount required, which was accordingly done in the month of February last. Applications were accepted for £344,287 stock, on which the instalments have been duly paid. The correspondence and negotiations which have taken place with the Great Western Company with the view of coming to some arrangement mutually advantageous, have been circulated amongst the Proprietors with the circulars addressed to them on the 22nd June and the 5th of October, 1876; and it is only necessary, therefore, now to refer briefly to the principal incidents which have taken place and the results which have been brought about. The operation of important agreements of March and July, 1875, having been suspended (as this company asserts) by the action of the Great Western Company, influenced by the New York Central Company, various efforts have been made to place the relations of the two companies in a more favorable position. The Great Western proposal to dismember this Company by leasing in perpetuity its lines west of Toronto, was declined for reasons fully given in the correspondence, and nothing has since been adduced which could in the slightest degree change the determination of this Board. On refusing this proposal the Directors of this Company offered, on the 7th of June last, an absolute fusion of the two undertakings on the basis of the North Eastern and Great Western (of England) amalgamations (in case of need to be determined by arbitration). This offer was however, not accepted, but a proposal was made by the Great Western Company on the 11th July last, to carry out the agreement of July, 1875, "as soon as the contest between the American lines and the Grand Trunk comes to an end." In the interests of peace the Grand Trunk Board accepted this proposal, but suggested that it should take place forthwith. This most important addition was declined by the Great Western Board. That which has since been openly avowed, became then but too apparent, viz: that the Great Western had been forced by the New York Central to join it in the war of rates which that Company was waging against all the trunk lines running to the seaboard. All attempts to induce the Great Western Company to accept any proposals which would be of any practical value to the shareholders of this Company were brought to an apparent termination by the refusal of that Company to accept the following resolution of this Board of the 26th July last, viz.—"In the opinion of this Board it is desirable for the avoidance of further difficulties and any incitement to interim competition for the traffic agreed to be divided, the division of such traffic shall be based upon the receipts respectively of the two Companies antecedent to the passing of the resolution of the Grand Trunk Board on the 12th instant." Virtually the position of the two Companies towards each other was then, and is now, worse than it had been before, since the first quarter of the year 1875, the period of the provisional arrangements for the management of the Great Western Company in Canada, made by the then newly appointed Board of that Company. Under these circumstances the Directors repeated in a modified form, on the 15th Sept. last, their proposals for a fusion of the two undertakings under one authority, and an apportionment of the net revenues (to be determined by arbitration), as being the only means of terminating what has been in the past an ever recurring antagonism of interests and personal feelings. The results of the period on which the basis of the division was proposed to be made were those of the eighteen months between 1st January, 1875, and 30th June, 1876, a period coincident with the administration of the present Board of the Great Western Company, who have claimed for that administration great improvement in the management and economy in working as compared with the past. The offers of amalgamation have been deliberately refused by the Great Western Company, and though the tone adopted is neither indicative of friendly feelings nor a generous interpretation of honorable motives, the Directors will still earnestly endeavor, at the earliest opportunity which may occur, to bring about and maintain those limited results which are possible under the conditions of separate management and divided interests. The so called railway war in America has been, for reasons not difficult to seek, frequently misrepresented as being simply a war between certain American Companies and the Grand Trunk Company. In point of fact, this war is a competition of rates arising entirely out of the action of the New York Central in endeavoring to direct by lower rates the whole or the greater portion of the export business of the country via the port of New York. The extension to Chicago by improved routes of the Pennsylvania railroad, and, at a more recent date, of the Baltimore and Ohio railroad, brought two additional and powerful competitors into the field, and the efforts of these lines to divert business to the seaports of Philadelphia and Baltimore were so successful that under the fear that the great shipping trade so long centred in New York was about to be shared in a great degree by these cities, the war of rates was begun and continued by the New York Central, to recover and retain, if possible, the chief part of the business to the seaboard, of which, as one of a number of competing lines, it can only expect to obtain a fair proportion. The Grand Trunk, as one of the through lines, has necessarily been forced to take care of its own interests, and the action of this Company in endeavoring to avert the unnecessary contest has been endorsed and approved by the principal competitors of the New York Central, viz., the Pennsylvania, the Baltimore and Ohio, and the Erie Companies. The Great Western Company, according to their own statement, "have had no voice in the matter," and for obvious reasons, viz., that they have simply been forced by the influence they have permitted the New York Central Company to exercise over them, and have been content to share in the evils of the contest without any known guarantee that they will be allowed any voice in the settlement which must ultimately be effected. Efforts are now being made to bring about a reasonable settlement, and so recently as 30th September last a meeting was held in New York of the representatives of the Baltimore and Ohio, the Pennsylvania, the Erie, the Michigan Central, and the Grand Trunk Companies with that object. The tone of feeling on the subject is better indicated by the expressions of public opinion in New York itself than by statements colored (perhaps unintentionally) by partisans 3,000 miles from the scene of the struggle, and whilst the directors are not yet in a position to make public the details of the negotiations amongst the Trunk lines already referred to, they insert the following statement from the New York Evening Post of Sept. 30, as fairly representing the position of affairs:—All the Trunk lines, excepting the New York Central, have agreed on the point that differences should be settled. The New York Central is yet to be heard from. If the New York Central shows a willingness to co-operate, what is known as the railway war can be settled at any time, and now without any sacrifice of pride on the part of the New York Central Managers. Without doubt, the settlement of the railway war would not only benefit all the roads interested, but would have a good effect on other business interests. It is believed that the first step having now been taken a settlement will be secured in the early future." The Intercolonial railway, originally projected some 30 years ago, was completed and opened for traffic during the half-year. Through trains between St. John's and Halifax and Point Levi (Quebec) are being run, and a limited amount of traffic which the Company did not previously carry is being exchanged with the line. The mails previously put on board the ocean steamers and landed from them at Quebec, have during the summer been carried to Rimouski, a point 66 miles below Riviere du Loup, the Government having provided a wharf and steamboat for the purpose of transporting the mails and such passengers as might choose to join or leave the steamers at that point. In consequence of differences of opinion between himself and his colleagues, Mr. Richard Potter has recently resigned the chair; Captain Tyler has been appointed President in his stead, and Mr. Grosvenor Hodgkinson Vice President.—On behalf of the Board, H. W. TYLER, President.

Grand Trunk Railway Company of Canada, 21 Old Broad street, London, E. C., 18th October, 1876.

☞ The work of track laying on the first section of the Seattle and Walla Walla Railroad commenced recently, and is being pushed with great rapidity. It is expected to be pushed through to the mines by the middle of November.

Central Pacific Railroad.

LAND AGENT'S REPORT.

LAND DEPARTMENT, CENTRAL PACIFIC R. R. Co.
SAN FRANCISCO, CAL., July 1st, 1876.

To the President and Directors of the Central Pacific Railroad Company:

GENTLEMEN: In former reports I have shown that:

The land grant from the United States Government to the Central Pacific Railroad Company of 12,800 acres per mile, for 742 miles, is	9,497,600
Deduct for lands previously granted and reserved, say	1,500,000
Leaves	7,997,600
The land grant to the California and Oregon Railroad of 12,800 acres per mile, for 291 miles, is	3,724,800
Total	11,722,400

The grant to the California and Oregon R. R. Co. provides that where lands are lost to the company by reason of previous grants or reservations, they can be made good from an indemnity grant of ten miles wide on either side of the twenty mile limit, which insures to the railroad company the full amount of land granted. The value of these lands, at the Government minimum price for adjoining lands, $2 50 per acre, would be $29,306,000.

A large portion of this is the choicest agricultural and timber land in the country, and will sell for a much greater price.

The policy of the company has been to sell its farming lands at low prices, and on easy terms of payment, to actual settlers, believing the best interests of the company are promoted by selling in limited quantities to those who will cultivate the soil, and who will own the land they cultivate. By this means an industrious, agricultural population is invited, whose improvements and the product of whose labor, tend to enhance the value of the unsold lands.

Most of the lands that have been sold were purchased for gold, on a credit of five years; a payment of twenty per cent. being made at the time of purchase, the remainder to be paid at the end of the term, with annual interest, payable in advance, on all sums remaining due.

No sales have been made within the past year except for gold.

There were sold, prior to October 1, 1870, 127,637.55 acres for $295,065 50, averaging $2 31 per acre; and up to December 31st, 1875, there has been sold the timber on 3,992.64 acres of land reserved by the Government for mineral, for $11,441 60, and there has also been received for stumpage, $8,207 25.

Of the lands in the California and Oregon R. R. grant there were sold, prior to the consolidation of that company with the Central R. R. Company, 9,760.87 acres, for $18,443 36.

Since the execution of the Land Trust Mortgage, October 1, 1870, there have been sold, to December 31, 1875, 274,600.44 acres of land, for $1,447,092 42, being an average of $5 27 per acre, as follows: from October 1, 1870, to December 31, 1872, 122,765.09 acres, for $484,227 97, averaging $3 94¼ per acre; from December 31, 1872, to December 31, 1873, there were sold 58,733.60 acres, for $410,314 92, being an average of $7 per acre; from December 31, 1873, to December 31, 1874, there were sold 63,846.99 acres, for $388,824 26, being an average of $6 09 per acre; from December 31, 1874, to December 31, 1875, there were sold 29,254.76 acres, for $163,725 27, averaging about $5 60 per acre; this includes 160 acres granite quarry, donated to the State.

There has been paid to the Trustees under the Land Trust Mortgage the sum of $896,251 48, coin, and $8,278 76, currency, making a total $904,530 24.

There remained due and unpaid, December 31, 1875, on the lands sold since October 1, 1870, $785,244 53, in coin, and $398 75, currency. Of these amounts $243,081 10 was accrued interest and the remainder deferred payments.

The timber lands of the company, while intrinsically valuable could not be readily sold for a few years after the completion of the road, for the reason that the alternate even sections were reserved from sale by the Government, and, under the theory of the law, they were only subject to preemption and could not be disposed of in any other manner. The proprietors of the saw-mills found it to be cheaper to pay their employes for filing a pre-emption—and thus obtained some kind of authority to remove the timber—than it was to buy the odd numbered sections from the railroad company at Government price. All of the even numbered sections within a reasonable distance of the line of the road are now thus appropriated, and the demand for the railroad timber lands is yearly increasing, and enhanced prices are obtained. The rapidly increasing settlement of the country, and the vast amounts of timber used in the mines in the State of Nevada, cause an increased demand for this class of lands.

The large tracts of land near the line of the road in Nevada, and called "desert" land are found to produce largely wherever water can be obtained for their irrigation. Within the past year this department has made many sales of this class of lands to actual settlers, who find that they can be profitably cultivated.

A demand has arisen for the lands of the company in Utah, none of which have as yet been sold. Some extensive schemes for irrigation are contemplated in Malade Valley, Utah, which, if carried into actual operation, will create a large demand for lands in that vicinity. During the present summer these lands will be graded and sold to actual settlers. The delay in making sales in Utah has arisen from the fact that, until within the past year, the department of the General Land Office at Washington failed to mark the line of division between the lands of this road and the Union Pacific, and it was considered best that no sales should be made until this line was definitely fixed.

It is estimated that at least 60,000 persons will come to this State during the present year, with the intention of making California their permanent home. This rapid increase of population will create a large demand for land.

Heretofore, so much has been done towards inducing immigrants to settle in the Southern counties that a large portion of the immigration sought that part of the State, and the large tracts of farming and grazing land in the Northern portion, where irrigation is not a necessity and where crops never fail, have been neglected. In a short time these lands will be sought for and they can be sold for enhanced prices. Several flume and lumber companies have been formed, and flumes constructed, in Butte and Tehama counties across the lands of the company, with capital invested of more than $250,000. These will bring into market the large tracts of the forests of sugar pine on the lands of the company, and greatly increase its revenue from this source. Each year, as the state increases in population, it is found that lands increase in value, and that lands heretofore unsaleable become of value. The lands of the Central Pacific Railroad Company may be regarded as among its most valuable assets.

Respectfully,

E. B. REDDING,
Land Agent.

Sunbury and Lewistown Railroad.

At a meeting of the bondholders of the Sunbury and Lewistown Railroad, held in Philadelphia on the 4th inst., Mr. James H. Campbell, on behalf of the attorneys for the bondholders, presented the second report of a committee who purchased the road on behalf of the bondholders at the time of the sale under the foreclosure of the mortgage. The report states that at a meeting held at the Girard House on the 25th of January, 1876, the committee was directed to expose the road to public sale on March 9th, 1876, provided it was not disposed of at private sale before March 1st, the terms being that $150,000 should be paid at the time of sale. After the failure of private efforts to sell the road it was duly advertised and put up at auction on March 9th, when it was bid to $153,000, the committee having started the bidding at $150,000. The sale was then adjourned until March 23d, and Mr. J. K. Valentine became the purchaser for other parties for $161,000.

After paying all claims the treasurer, Mr. Josiah Hart, has in hand $11,254 31 for distribution. There is also a claim of upwards of $8000 against the Pennsylvania Railroad Company, which it is believed may be secured. The report was signed by Josiah Hart and Wm. Budd Deacon.

The committee submitted a resolution adopting the report and providing for the appointment of three auditors to audit the accounts of the treasurer, and to make arrangements for the distribution of the money in his hands. The resolution was adopted and the auditors J. M. Wetherill J. B. Smith and J. S. J. McConnel were continued. The meeting then adjourned.

Statement of the Public Debt of the United States, November 1, 1876.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, October 31, 1876.

LOT M. MORRILL,
Secretary of the Treasury.

New York Elevated Railroad.

This road is now doing a very large business. Its average number of passengers is about 8,000 per day. The Sunday average is about 4,000. All the injunctions against the road are removed, except that which prevents its crossing the Battery, and the officers of the company are sanguine of success in that case. If this injunction is removed, the terminus will be changed from its present place to the South Ferry. The foundations are all in on this new part of the line, and the iron is ready to be put up at once. The plan of two posts and a girder which is there used will be adopted in the future on all new switches and any extension of the main track, as it is considered the best, and will allow of three tracks side by side. J. A. Cowing, the Secretary and Treasurer of the company, says that the managers intend ultimately to make the road a double track road throughout. Within two or three weeks they expect to finish the switch between Ninth and Twenty-first sts., as the foundations are in and only a portion of the iron superstructure is to be erected. When this is completed trains will be run each way at intervals of 7½ minutes between 5:30 a. m. and 8 p. m. From 8 to 11 a. m., and from 3 to 6 p. m. these trains will be run in sections—a dummy and two or three cars to a section—as at present, one section passing certain stations without stopping, the next passing stations at which the first stopped, and so on. There will be no changes in the rates at present. The company is now running 14 dummies and 27 cars, and has 8 new cars and 2 dummies ready to be put on the road when the switch is finished at Twenty-first st. Those now in use make up 164 trains daily, which run 82 round trips. The total length of the direct track is 5 miles, while the turnouts and switches measure 2½ miles more.

Railroads in Texas.

Messrs. Forster, Ludlow & Co., in their circular for November, say that railroad building continues very active in Texas, more so there than in any other State. The International Railroad will reach Austin by the end of this month, perhaps sooner. This great trunk line will then have the capital of Texas for its terminus. The Texas and New Orleans Railroad is now pushed from Houston to Sabine, and cars are now probably running to that city. The distances from Houston to New Orleans are as follows: Houston to Orange, 108 miles; Orange to Donaldsonville, La., 188 miles; Donaldsonville to New Orleans, 76 miles—total, 322 miles. Of this, 184 miles are finished, leaving a gap of 138 miles between Orange and Donaldsonville, the most of which is graded, and through connections are expected in 12 months. The East Line Railroad is now running to Lassater's Store, in Cass County, and will be pushed rapidly to Sulphur Springs. The Great Northern Railroad is surveying at Mineola, and the Trans-Continental is putting its line into first rate condition for accelerated passenger trains from Texarcana to Sherman. The Gulf, Western Texas and Pacific Railroad, advertised to be sold in December for the benefit of the bondholders, will be bought by Charles Morgan, who, it is said, intends to resume its operation and extension toward Austin.

A Visit to the Coal and Iron Fields.

The recent visit of Mr. John Walter, the proprietor of the London Times, was made the occasion of many demonstrations of respect for his character and services. One of the most satisfactory of these marks of esteem was the invitation to visit the coal and iron regions of Pennsylvania, extended to Mr. Walter by Mr. Gowen, in behalf of the Philadelphia and Reading, and by Judge Packer of the Lehigh Valley Railroad Companies. The guests were Mr. and Mrs. Walter and their son and Dr. Siemens, one of the great authorities in telegraphing, steel making and other leading industries in which scientific discoveries have been so largely made practical. Dr. Siemens was accompanied by his wife and by two nephews, who are his assistants in the great business of the new Atlantic cable. Dr. Charles Austin the special correspondent of the London Times in this country, Colonel Sandford of the British Centennial Commission, and others, accompanied the party. Mr. Gowen assisted by Mr. Wooten, the General Superintendent of the Philadelphia and Reading Railroad, and Mr. Eckley Coxe, of the Drifton Coal Mines, took Messrs. Walter and Siemens on their special engine along the line of the Reading and Lebanon Valley Railroads, to the great Cornwall Iron Mines, and the company lunched at Mr. G. Dawson Coleman's. The men of science and the railroad and mining men went on directly to Mr. Coxe's mines at Jeddo, where at night a very thorough examination was made of the Lehigh coal operations and of the distinctively American methods of developing our coal fields. The rest of the party were taken over the Reading lines to Brookside, where a very important mine with its huge coal breaker was thoroughly inspected. The night was spent at Mount Carbon, and most of the visitors walked up to Pottsville to see that busy coal centre.

The second day's journey was over the eastern portion of the Reading's lines to the Lehigh Valley's territory. Visits at Bethlehem were paid to the steel and iron works, where Dr. Siemens saw his own useful inventions in actual operation, and explained their working to the other visitors. Mr. Walter was much interested in the success of Mr. Wooten's new invention for using coal dust as fuel, saving an enormous waste, now incident to our system of coal breaking, and was sanguine that it would be introduced in Europe along with other American labor and money saving processes. The return journey was made over the East Pennsylvania and Perkiomen Valley and Reading Railroads, and the guests all were strongly impressed with the vast wealth of the country through which they had been so well led. It was a visit that cannot fail to be of use in bringing home to our foreign visitors the importance of our coal and iron interests, and of the skill and energy with which they are developed.

Lake Erie, Alliance and Wheeling Railroad.

A correspondent writing from Alliance, Ohio, under date November 3, 1876, says:

The Lake Erie, Alliance and Wheeling Narrow Gauge Railroad has 30 miles graded and with ties distributed along the line. Track laying commenced 15 days ago. They have now 8½ miles laid. Already there have been three excursion parties over the line, and the company have made arrangements for several more. The track is in splendid condition. The construction and excursion trains make from 14 to 20 miles per hour. F. W. Kellogg & Co., the contractors of the road, have made arrangements to run a regular passenger train by the 1st of December. Several coal shafts are being sunk along the line, and there is a good prospect of doing a large coal business this winter. The entire line from Wheeling to Painesville will be in running order by the 1st of January, 1878.

The office of the company is at Alliance, Ohio. The officers are: Hugh Bleakley, President; Alfred Wright, Vice President; Elisha Teeters, Treasurer; H. P. McIntosh, Secretary.

☞ Arrangements have been completed for the construction of the Bethel and Rochester Narrow Gauge Railroad, which is to be operated by the Central Vermont under a lease. James E. Batchelder & Co. of Springfield, Mass., are the contractors, and the work is to be finished by September 1, 1877.

☞ Judge Morton of the Shawnee County District Court has appointed C. S. Greeley and Henry Villard receivers of the Kansas Pacific Railroad on an application from the trustees of a mortgage covering the entire road.

☞ The bonds of the City of Louisiana, Mo., $50,000 in amount, in aid of the Quincy, Alton and St. Louis Railroad, have been decided by the United States District Court to be invalid.

☞ The Columbus and Toledo Railroad was formally opened to Marion, a distance of 45 miles from Columbus, on the 1st of November.

RAILROAD SHARE LIST, including Mileage, *Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, November 11, 1876.

Financial and Commercial Affairs.

The excitement of the Presidential election, and the occurrence of a close holiday, have been an interruption to business on our Stock Exchange, and there is little of special interest to notice in the course of speculation in railroad securities. The failure of the agents of the great trunk lines to agree upon an advance in freights, owing to the unwillingness of the Southern lines to give up the differential rates, to which it is thought they are entitled from their shorter distances, very naturally precipitated a decline in the shares of many of the leading roads whose interests are involved in the matter; and yet the decline was not very serious; besides, it was in a measure compensated for by the improvement in the "coal shares" and some other important features. On Wednesday, the interest in the result of the election had not sufficiently abated to permit an active revival of business, and values showed little change. There was some improvement at the opening, especially in the Western roads, as it is regarded as probable that another conference will take place soon between the managers of the great trunk lines; but the volume of business was small, and the early advance mostly lost. Railway bonds were in pretty fair demand at full and improving prices.

The money market has been spasmodic, the rate on call being as low as 2 and as high as 6 per cent, closing on Wednesday at 4@5 per cent. The last bank statement was in favor of dearer money, as there was a decrease of 2½ million dollars in legal tenders and an increase of 1½ million in specie, diminishing the surplus reserve

more than one million, which was 23.41 per cent against 25.98 per cent four weeks ago.

The premium on gold has been hardening, and on Wednesday advanced to 110⅛, but receded and closed on that day at 109⅝. There were warlike reports from Europe, and the premium derived some strength from our own political excitement. Exchange has been about steady at $4 81½@$4 82½ for prime sixty day bills. The export movement in merchandize was but moderate, aggregating $4,583,349, against $5,815 238 for the corresponding week last year; and $230,319,213 since January 1st, against $217,877,592 for the corresponding period last year.

Government Bonds have slightly declined, and close quiet at the decline. Several influences have contributed to this result, but they were more of feeling than of any well determined facts or circumstances. On Wednesday the closing prices were:

United States currency sixes, 124¼@124½; do. 6s, 1881, registered, 117¼@117½; do. coupon, 117¾@118; do. 1865, registered, 110@110¼; do. coupon, 110@110¼; do. new, registered, 113@113⅛; do. coupon, 113@113⅛; do. 1867, registered, 115¾@116; do. coupon, 115¾@116; do 1868, registered, 117@117½; do. coupon, 117@117½; do. ten-forties, registered, 113¾@114; do. coupon, 115¼@115½; do. fives, 1881, registered, 113@113⅛; do. coupon, 113@113⅛; do. four and one-halfs, 110⅛@111.

General trade has presented but one important feature, and that is an active and buoyant market for cotton. The quotation on Wednesday showed an advance of ¾c. for the previous week. The export movement in Breadstuffs has been checked by the more peaceful nature of the advices from Europe. Provisions, however, have advanced. Metals have been dull and drooping.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—New York Central R. R. 6s, Real Estate 100¼; do. subscription bonds, 100½; Chesapeake and Ohio 1st mort., coupon on, 32; Buffalo and Erie 7s, new, 105; Canada Southern 1st mort., coupon on, 57; Delaware and Hudson Canal 7s, 1877, ex-int., 101½; Boston, Hartford and Erie 7s, guar., 17; Quincy and Toledo 1st mort., 62; Missouri, Kansas and Texas R. R., 7⅛; New Jersey Southern R. R., 1; Tennessee 6s, old, 47; do. new, 46; do. new series, 46; Missouri 6s, long bonds, 106; do. Asylum bonds, 107; New York State 7s, B. L., reg., 103; do. coupon, 102¾; Virginia 6s, consol., ex mat. coupon., 68; do. 6s, 2d series, 37; Georgia 7s, new, 105½; Arkansas 7s, Miss., O. and R. R. R., 9½; North Carolina 6s, Special Tax 3d class 1½. The latest quotations are: Pacific Mail, 24⅜@24⅝; Western Union Telegraph, 72¼@72⅝; Atlantic and Pacific Tel., 15¾@16; Quicksilver Mining, 12@13; do. pref., 16@18½; Mariposa Land and Mining, 4½@6; do. pref., 5@6½; Adams Exp., 107@109; American Exp., 60@60¾; U. S. Express, 58@60; Wells, Fargo Express, 85@86; Chicago and Alton, 98@99½; Cleveland and Pittsburg, 90@91; Chicago and Northwestern, 37½@37⅞; do. pref., 60¼@60⅛; Chicago, Rock Island and Pacific, 101@101¼; Chicago, Milwaukee and St. Paul, 23⅛@23¾; do. pref., 54@54⅛; Cleveland, Columbus, Cincinnati and Indianapolis, 39@40; Columbus, Chicago and Indiana Central, 8½@4; Delaware, Lackawanna and Western, 73⅝@73¾; Erie, 10½@10⅝; Hannibal and St. Joseph, 14¼@14¾; do. pref., 25½@27½; Lake Shore and Michigan Southern, 56¼@56⅜; Michigan Central, 45⅜@45½; New York and Harlem, 137@139; N. Y. Central and Hudson River, 102½@102⅞; Central of New Jersey, 36⅜@36½; Ohio and Miss., 8⅝@8⅞; Panama, —@127; Toledo Wabash and Western, 5½@5⅝; Union Pacific, 59½@59⅝; do. 1st mort., 106½@106¾; do. 7s, land grant, 101¼@102; do. sinking fund 8s, 91½@91¾; Central Pacific 6s, gold, 110¼@110¾.

Philadelphia.—Pennsylvania Canal 6s, 72; Oil Creek 1st mort., 76½; Warren and Franklin 7s, 80; Belvidere Delaware 3d mort., 100; Lehigh Valley consol. mort. 6s, reg., 100; West Jersey 7s, 107; East Pennsylvania R. Railroad Rails.

Experiments are making at Leeds, England, with a process for increasing the durability of iron rails, which promises the greatest success. An eminent railway official has asserted confidently that by this process iron rails can be produced more durable than steel at an increase in cost of only $5 per ton over ordinary iron rails. At present iron rails sell for $40, and steel rails for $52. A saving of $7 per ton, and greater durability, would turn the scale in favor of the new article.

☞ The earnings of the St. Louis, Kansas City and Northern Railway for the fourth week in October, 1876, were $91,239 37, against $55,294 97 for the fourth week in October, 1875—an increase of $35,944 40. From January 1, to October 31, 1876, the earnings were $2,593,962 66, against $2,139,965 71 for the corresponding ten months of the previous year—an increase of $453,996 95.

☞ The rails on the Portland and Ogdensburg Railroad are now laid three miles west of Johnson. The work is being pushed. The land damages are settled.

Philadelphia, Newtown and New York R. R.

A meeting of the purchasers of the property and franchises of the Philadelphia, Newtown and New York Railroad Company was held in Philadelphia on the 1st inst.

The object of the meeting was stated to be "to organize the new corporation by electing a President and Board of Directors, to adopt a corporate name and common seal, to determine the amount of capital stock thereof, and issue certificates therefor to said purchasers to the amount of their respective interests, and transact any other business requisite or expedient to be done pursuant to the act of Assembly in such case made and provided."

The committee appointed at a previous meeting of the bondholders of the road to attend the sale of it, reported that they had discharged that duty. They purchased the property for $10,000, paid the purchase money, and the court confirmed the sale. A deed of the property was submitted, and, in answer to questions, the committee stated that 108 bondholders, representing $1,200,000, were interested in the new movement.

An election for a president and six directors of the new company was then ordered, which resulted as follows: President, Peter A. B. Widener; Directors, Wm. H. Kemble, Smith Harper, Alfred Blake, Cyrus Hilburn, B. J. Smith and Oliver H. Holcom.

The old corporate name—the Philadelphia, Newtown and New York Railroad Company—was re-adopted, and the old corporate seal was also re-adopted without being materially changed.

The capital stock of the company was fixed at 24,000 shares of $50 each, and an issue of certificates of stock, equivalent to the amount of bonds held by the new owners of the road, which are to be exchanged for the bonds, was ordered.

The meeting then adjourned.

☞ The earnings of the Chicago, Milwaukee and St. Paul Railway for the fourth week in October, 1876, were $250,000, against $294,694 for the fourth week in October, 1875—a decrease of $44,697. For the month of October, 1876, the earnings were $817,569, against $974,262 for the month of October, 1875—a decrease of $156,693. From January 1, to October 31, 1876, the earnings were $6,678,962, against $6,580,621 for the corresponding period of 1875—an increase of $98,341.

☞ Work is about to commence on the new railroad from Prospect Park, Brooklyn, to Rockaway Beach, via Canarsie. The right of way through Lefferts and East New York avenues has been obtained. Three and a half miles of track have to be laid, the road connecting with the road from East New York to Canarsie, at a point about half a mile distant from the bay. The new road will bring Brooklyn within an hour and a half of the beach.

☞ The earnings of the Atchison, Topeka and Santa Fe Railroad for October were $285,000, making the total for ten months in 1876, $2,031,791 91, against total for ten months in 1875, $1,188,820 99; increase $842,970 92. Land sales for October $45,000, making the total for ten months in 1876, $618,154 56, against total for ten months in 1875, $282,791 48; increase $335,363 08.

Green Bay and Minnesota Railroad.

The Green Bay (Wis.) Advocate says that the business of the Green Bay and Minnesota Railroad, consequent on its extension to La Crosse, is very satisfactory and the prospects ahead are bright, not only for the local trade, but for connection with the West. The city of La Crosse last winter procured a charter for building a pontoon bridge across the Mississippi river at that point. The Southern Minnesota Railroad Co., the Chicago, Dubuque and Minnesota Railroad Co., and Mr. Lawler, of Prairie du Chien, are now negotiating with the city of La Crosse for the privilege of building the bridge under the charter, with a fair prospect of success. The proposed site for the bridge locates its eastern end on the grounds owned by the Green Bay and Minnesota Railroad Co., so that its construction would be of great advantage to this road in giving it western connections.

☞ The Cincinnati Price Current says it is proposed to organize a company, with C. L. Hopkins and others as corporators, with a capital of $330,000, to construct a narrow gauge railroad to run from that city to Hamilton. It is contemplated that trains will start from the depot of the Miami Valley Narrow Gauge Railway, at Court and Broadway, go through Avondale, the Zoological Garden, St. Bernard, Chester Park, Winton Place, Hartwell, Maplewood, Wyoming, Glendale, and thence by the nearest route to Hamilton.

☞ The Columbus District Telegraph Co., Columbus, Ohio, has been organized with a capital of $50,000, in shares of $100 each, by E. L. Hinman and others. The articles of incorporation state that "the lines of the company shall be run through the various streets and alleys of the city, and as far into the adjoining country within the limits of Franklin county as may be deemed desirable."

☞ Mr. Hugh J. Jewett, Receiver of the Erie Railway Company, has filed in the County Clerk's office his report for August. The receipts of the month he states at $2,199,615 94, and the disbursements $1,636,472 72, leaving a balance on hand of $563,143 22. The certificates issued during the month amounted to $3,441,539 40; the certificates and notes paid, $2,261,539 40; and certificates and notes outstanding, $1,180,000.

☞ The Supreme Court of the United States has vacated the writ of supersedeas taken in the case of Randolph vs. the Wilmington and Reading Railroad. This leaves the sale of the road to take place on the first Monday of December, as was advertised before the writ of supersedeas was applied for.

☞ A bill has been introduced into the Vermont Legislature authorizing the appointment of railroad police on the application of a corporation to selectmen of any town through which the road passed, to have the same power on trains as sheriffs or city police.

☞ The contract for the construction of the Eastern Extension Railway from New Glasgow to Canso, Nova Scotia, has been signed by the Commissioners of Public Works on the part of the Government, and Henry Abbott for self and partner. Active operations are to commence at once.

FISK & HATCH,

Bankers,

No. 5 Nassau St., New York.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Govment Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

Maine Iron.

The Katahdin iron works are in active operation, giving employment to a large number of men. The old company has just been reorganized under the general law, with a capital of $100,000. The works are about eighteen miles from the Milo station of the Bangor and Piscataquis Railroad. The ore is a hydrated brown hematite of a superior quality. The furnaces were built some thirty three years ago. The ore yields over 50 per cent. The product finds a market in Boston, Jersey City, Philadelphia and elsewhere. Some of it has been sent to England.

☞ The earnings of the Erie Railway in August, 1876, were $1,267,003 94, the expenses $843,033 72, and the net earnings $423,970 22. In August, 1875, the earnings were $1,497,529 94, the expenses $1,075,096 97, and the net earnings $422,432 97—showing a decrease in earnings of $230,526, with a decrease in expenses of $232,065 25, making the increase in net earnings $1,537 25.

☞ The great maritime canal, connecting Amsterdam, Holland, with the German ocean, was opened on the 1st inst. with imposing ceremonies, at which the King, members of the Cabinet and foreign representatives were present. The canal is sixteen miles long and has at the sea-end a harbor covering 250 acres, which, however, is not quite completed.

☞ At a meeting of the directors of the Grand Junction (Canada) Railway Company on the 16th ult., the following officers were chosen: Thomas Kelso, President; Hon. R. Read, 1st Vice President; Dr. Boulter, M. P. P., 2nd Vice President; D. B. Robertson, Secretary, U. E. Thompson, Treasurer. It was decided to cancel all unpaid stock if the calls are not met within two months.

☞ In the case of the Atlantic and Pacific Railroad, recently sold to William F. Buckley of New York, Judge Treat of the United States Court at St. Louis has ordered a deed to be issued to that gentlemen, the terms of the decree of the road having been complied with.

☞ The annual product of the mines of the State of Colorado is given by the Governor at $8,000,000, and he predicts that, with the development of the San Juan district, in Southwestern Colorado, next year's production will reach $10,000,000.

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto, turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1881, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1881, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages, it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

California Railroads.

The Felton Railroad Company has received a large quantity of iron with which it proposes to replace the light rails now in use.

The Stockton and Ione Narrow Gauge Railroad is now completed to within two or three miles of Ione city. It is expected to be in running order in two or three weeks.

There are 48 lines of railroads and branches in California, with an aggregate length of 1,799¼ miles, of these 14 are private roads, with a length of 58¾ miles. There are 126½ miles of narrow gauge railroads in the State.

At a large railroad meeting held at San Bernardino, Cal., it was resolved to build a railroad to connect that place with the railroad system of California.

The Visalia Iron Age says that the Southern Pacific Railroad Company has about 600 hands at work between Goshen and Cross creek grading roadway. The line leaves the San Joaquin valley branch about a half mile north of Goshen and runs north of the Graniteville road till just beyond the Cross creek bridge. Most of the work now being done is in the immediate vicinity of the latter point. Several miles have been graded.

The San Diego World says that the people of San Bernardino propose to build a railroad to Colton, and to continue it to Mound City so that when the Southern Pacific Railroad Company has completed its line between Mohave Station and the San Gregorio pass, it may be induced to connect at San Bernardino.

☞ The citizens of Dennysville, Washington County, Maine, held a town meeting on the 24th ult. and reaffirmed their unanimous vote of last year to give aid to the Shore Line Railroad, and ordered their Selectmen to pay over the first assessment of the company at once. The final location of the road was commenced at Ellsworth on the 19th ult. The first assessment becomes due on the 15th of November.

Fractional currency, 4th June, third series	1,501,605 05
Fractional currency, 5th June	11,637,088 44
Total	$356,578,811 55

Canal Tolls.

The amount of canal tolls at the port of Buffalo for the month ending October 31, 1876, and the total amount for the year to that date, in comparison with the corresponding periods of the previous year, have been as follows:

Amount of tolls, for October, 1875	$136,363 99
Amount of tolls for October, 1876	98 216 54
Decrease for 1876	$38,147 45
Clearances for October, 1875	1,060
Clearances for October, 1876	748
Decrease for 1876	312
Total tolls to November, 1875	$683,887 08
Total tolls to November, 1876	513,997 28
Decrease for 1876	$169,889 80
Total number of clearances to November, 1875	5,526
Total number of clearances to November, 1876	4,202
Decrease for 1876	1,324

The Coal Trade.

The total tonnage for the week ending 28th ult., as reported by all the companies, amounted to 579,990 tons, against 638,655 tons in corresponding week last year, a decrease of 55,658 tons. The total amount of anthracite mined for the year is 15,000,289 tons, against 16,959,663 for same period last year, a decrease of 1,959,674 tons. The quantity of bituminous coal sent to market for the week was 83,412 tons, against 82,660 tons for corresponding week last year, a decrease of 752 tons. The whole bituminous tonnage from the beginning of the coal year is 2,989,498 tons, against 3,293,149 tons in corresponding time last year, a decrease of 302,651 tons. The total tonnage of all kinds of coal for the week is 663,402 tons, against 718,318 to corresponding date last year, a decrease of 54,916 tons, and the total tonnage for the coal year is 17,989,787 tons, against 20,253,112 tons to same date last year, a decrease of 2,263,325 tons. The receipts at Perth Amboy for the week ending October 28 were 19,977 tons, and shipped 32,139 tons, leaving a stock on hand of 87,942 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 115,756 tons, of which 101,673 tons were coal and 14,080 tons coke. The total carried this year is 3,608,305 tons, of which 2,904,836 were coal and 593 638 coke. This total embraces all the coal carried over the road, east and west.—*Phila. Ledger, Nov.* 6.

☞ The last rail of the Dayton and Southeastern Railroad between Xenia and Washington Court House, Ohio, was laid on the 29th ult.

Cumberland Coal Interests.

The Cumberland Alleganian has a lengthy editorial on the vexed question of the Baltimore and Ohio Railroad Company's interest in the Consolidated Coal Company's railroad. That paper has ascertained that the Baltimore and Ohio railroad is owner of 35,000 shares of the Consolidated road, which represents only about one-third of the concern's capital. And the Alleganian asserts that what the Baltimore and Ohio railroad wants with the Consolidation road is not only to ship coal to the Eastern market, but to divert that shipment entirely to itself from the Chesapeake and Ohio canal, thus effectually crippling the canal and making it an idle non-feeder to the coal regions. The same paper states that the Baltimore and Ohio railroad purchases every share of Consolidation offered in the market, and they may thus eventually attain control of the Consolidation road; in which event, the Alleganian argues, the canal stock and boudholders will gain no ducats from their long time investments in that narrow inland sea. And, therefore, it advises that the canal holders build a railroad which shall be as similar a feeder to the canal as the Consolidated road now is. But it is suggested that a cheaper and more effectual plan would be for the canal owners to buy the Consolidated road before the Baltimore and Ohio railroad buys it—if the latter really has any such design as the alleged one of throttling the canal.

Ohio Railroads.

The earnings of the Columbus and Hocking Valley Railroad from all sources for the month of October were $96,155 38. The road carried during the month of October 88,512 tons, or 2,389 824 bushels of coal.

Track laying has been commenced on the Dayton and Southeastern railroad, between Dayton and Xenia.

Work on the Springfield, Jackson and Pomeroy narrow gauge is progressing rapidly.

On the Columbus and Toledo railroad there are about 3½ miles of track to put down south of Upper Sandusky and about five miles to lay in Wood county. This will complete the tracklaying the entire length of the road.

The work on the Wheeling and Lake Erie railroad, between Norwalk, Huron county, and Milan, Erie county, is being vigorously prosecuted.

The Scioto Valley railway are equipping all their passenger cars and engines with the Westinghouse Automatic Air Brake.

The Ohio State Journal says it is confidently expected down the valley that the Scioto Valley Railroad will be completed to Portsmouth early in the Spring.

☞ A general meeting of the stockholders of the Baltimore and Ohio Railroad Company will be held in Baltimore on the 20th inst. for the election of directors for the ensuing year. The transfer books will be closed from the 9th to the 21st of November.

☞ The village council of Yuma, Arizona, have decided not to grant the right of way through Yuma for the present to any railroads, but will grant the right to the first railroad reaching that place.

Knox & Shain,

MANUFACTURERS of Engineering and Telegraphic Instruments, 716 Chestnut St., Phila. (Two premiums awarded.)

RICHARD DUDGEON,

No. 24 Columbia St., New-York,

Maker and Patentee of

HYDRAULIC JACKS and PUNCHES,

Roller Tube Expanders and Direct-Acting STEAM HAMMERS.

ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

SAMUEL RAYNOR & CO.,
117 William st., New York.

ABSOLUTE SAFETY

AT

SEA!

LIFE SAVING SUITS

FOR

Ocean Travel.

The Continuous Disasters at Sea and the almost countless lives that have been lost, urge the introduction of more effective appliances for saving life than have yet been generally adopted. In response to the great public demand, the American Life Saving Suit Company now presents a

Practical Life-Saving Suit.

This suit having been tested and approved by the most scientific and practical authoritics, we now offer as a means of absolute safety from death by drowning. The invention now offered claims its superiority over all similar inventions, in that it floats the body in a vertical position in the roughest sea, preserves the natural caloric of the body for any number of days, with capacity for carrying provisions for ten days; and signals to attract attention from passing vessels.

This suit embodies three principles, which are imperative in a life-saving dress:

First—A buoyancy which supports the body in a vertical position, and maintains it as from a natural law.

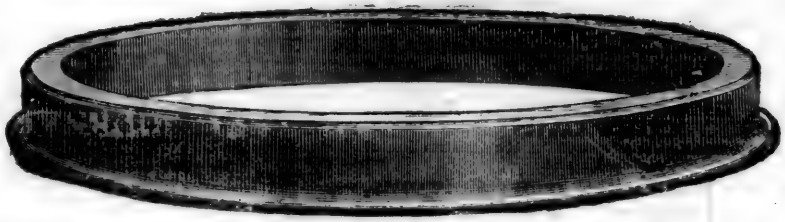
Second—Protection from water and weather, and consequent chill.

Third—A commissariat department, to which is attached signals, with capacity for carrying valuables, etc., etc.

This suit is put on over ordinary clothing except shoes and hat, and can be put on inside of five minutes, and is let to passengers on transatlantic steamers at the low price of FIVE DOLLARS A TRIP.

"This life-dress is one of the most valuable inventions—perhaps *the most valuable*—to be found anywhere. It is an absolute preserver of life in the event of wreck or fire or any form of sea-accident, by which the vessel is destroyed. Had the *Schiller*, or any of the lost fleets of past years, been amply provided with these suits, no one life—except, perhaps, some infant's—need have been loss. Scarcely one of all the ships which in the past have sailed silently away and have never afterwards furled their sails and come to the shore again, would have gone down unstoried, with no survivor left to tell the dismal tale of collision, of ice-pack, of breakers, of hidden rock, of fire, or of destructive gale, had each and all borne these suits as a part of the outfit. With the history of the past strewn with wrecks of preciously freighted ships, who shall say that any device which robs shipwreck of its chief terrors, is not one of vast importance and priceless value?"

This Company also own THE BEST LIFE PRESERVER IN THE WORLD—*can be adjusted in one second*. It can be carried in the pocket. No person traveling either on the lakes, or river steamers, should be without one.



Call and see both the above, or send for pamphlet.

THE AMERICAN LIFE-SAVING SUIT CO.,

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Railroad Expenses.

One of the most gratifying evidences of progress toward reform in the management of American Railroads, is in the reports which are frequently made public, that expenses of operation and management have been materially reduced in the past three years. It is true, much of the reduction has a reasonable and necessary basis—in the lower cost of iron, coal and other articles that enter into the cost of current repairs and renewal of rolling stock and roadway; but let us hope, at least, that there has been an honest and persistent effort put forth to reduce expenses in other directions, where room for the same is less tangible and not so open to the view of the general public—such as the discharge of superfluous employes, the reduction of extravagant salaries, and the lopping off of commissions and allowances that are scarcely honest. Our daily press declaims with tiresome reiteration, against corruption and extravagance in public affairs. The management of many of our railroads might justly be the subject of similar animadversions. It does not look well to see the Superintendent of a railroad, which is in a semi-bankrupt condition, getting enormously rich in a few years. It does not look well to see the offices of a railroad crowded with the relatives and dependents of directors, quartered on the stockholders (or bondholders perhaps,) with little or nothing to do.

There was, naturally, during the war and the few years following it, a great advance in the pay of railroad officials, from President and Superintendent down to brakemen and switch-tenders; and there is now, with equal cause, much difficulty in getting back to ante-bellum times in this matter of salaries. When a railroad was making a great deal of money for its stockholders, it was easy to get an increase of pay, or to swell the list of employes; but since the pinch of 1873 came it has not been so easy to make the needed reduction in pay, or to discharge superfluous workmen. Any one who has ridden much over the Central Railroad of New Jersey in the past year or two, felt no surprise at the disasters which overtook that company. The stockholders were literally eaten up by useless and highly paid employes. So numerous, indeed were the underlings that leading officials of the road were often at their wits end, evidently, to find some apparent excuse for retaining them. And then the building of parks and drives, to promote real estate speculations, was no part of the proper management of a railroad. The success of Com. Vanderbilt and his co-laborers in railroad management is the success derived from intelligent and vigorous economy. The failure of other railroad management is the result of reckless extravagance or neglectful waste.

The average pay of railroad employes need not be high if just rules in relation to their employment, tenure of office, and promotion are allowed to prevail. The service of a competent man should not depend upon the whim or caprice of a superior, nor upon social or political influence—his regular promotion should not be interfered with by the desire to provide for favorites. His employment and promotion so assured, he can well afford to work for a moderate compensation, as he is relieved from many of the contingencies to which large classes of people who work for wages are exposed. Low wages and steady situations are preferable to high wages and precarious employment.

We feel sure, therefore, from this cursory glance at the matter, that there is yet much room for reduction in the expenses of maintaining and operating railroads. But it requires firmness, and a resolute perseverance in the line of duty, to carry into effect measures needed to promote economy. To this end, the expense account of a railroad should be made by the stockholders and bondholders, the subject of searching inquiry and resolute demands. By no other means can much further progress in that direction be hoped for.

Union Pacific Railroad.

The gross earnings of the Union Pacific Railroad for the month of August, 1876, were $1,868,175 85, the operating expenses $437,017 69, and the net earnings $926,158 16. For the month of August, 1875, the earnings were $1,015,458 78, the expenses $452,221 09, and the net earnings $563,237 64—showing an increase in earnings of $347,717 12, a decrease in expenses of $15,203 40, and an increase in net earnings of $362,920 52. The percentage of expenses in August, 1876, was 36.48 and in August, 1875, 44.45—a decrease of 7.96.

For the month of September, 1876, the gross earnings were $1,305,985 99, the operating expenses $531,216 40, and the net earnings $774,969 59. For the month of September, 1875, the earnings were $1,155,944 36, the expenses $485,392 49, and the net earnings $670,551 87—showing an increase in earnings of $150,041 63, in expenses of $45,823 91, and in net earnings of $104,217 72. The percentage of expenses in September, 1876, was 40.67, and in September, 1875, 42—a decrease of 1.33.

☞ The earnings of the Chicago, Dubuque and Minnesota and Chicago, Clinton and Dubuque Railroads for the three months ending September 30, 1876, were $87,675 18, the expenses $63,032 33, and the net earnings $24,642 80. For the three months ending September 30, 1875, the earnings were $107,696 33, the expenses $83,966 97, and the net earnings $23,729 36—showing a de-

crease in earnings of $20,021 20, a decrease expenses of $20,934 64, and an increase in net earnings of $913 44. The ratio of expenses to earnings was in 1876 60.4 and in 1875 77.9 per cent.

Nashville, Chattanooga and St. Louis Railway.

The earnings of this road for the fiscal years ending June 30, 1875 and 1876, were as follows:

	1875.	1876.
From passage	$488,782 43	$480,889 51
" freight	1,128,171 21	1,207,167 59
" mail	38,608 92	38,608 92
" rents, etc.	25,263 63	24,933 85
	$1,680,826 19	$1,751,599 87
Expenses, viz:		
Maintenance of way	$346,243 69	$294,212 51
Motive power	438,513 78	300,833 71
Maintenance of cars		87,633 98
Conducting transp.	286 718 72	250 876 85
Miscellaneous	80,478 26	62,712 56
	$1,151,954 45	$996,269 61
Net income	$528,871 74	$755,330 26
From which deduct—		
Interest on bonded debt for the year	$438,120 00	
Interest on floating debt and exchange	18,163 77	
Taxes in Tennessee	23 442 78	
Taxes in Alabama	3,711 15	
Two dividends of 1½ per cent each	194,573 59	
	678,011 29	
Leaving a surplus of	$77,318 97	

Compared with the previous year the gross earnings of 1876 show an increase of $70,773 68, with a decrease in expenses of $155,684 84, making the increase in net earnings $226,458 52. The expenses were 57 per cent of gross earnings.

The President in his report says:

This exhibit is highly satisfactory and encouraging to the directors, and they trust it may be so to the stockholders. These results have been accomplished by material reduction in the salaries of all officers, clerks and agents, and close attention to details, and seeing that all material and supplies were furnished at the lowest market price for cash; and, requiring that the laborer should be worthy of his hire, awarding him that promptly and cheerfully to the day; without any drones in office or elsewhere; and at the close of the fiscal year, find your road in better condition than at any time heretofore, as reported by the resident engineer.

Expectations indulged in, in last report, have been more than realized. The usual semi-annual dividends of 1½ per cent on the capital stock were paid to the stockholders for the fiscal year, on the first days of October and April. About $95,000 of the floating debt was paid off during the fiscal year, besides paying interest on the bonded debt, and dividends to the stockholders. The directors expect to be able to pay off the small balance of floating debt without interfering with dividends; and, with this end in view, a resolution was passed by your directors, last September, ordering that at least ten per cent of the net earnings, each month, should be applied to reducing the floating debt before any dividends were paid to the stockholders. Last year, more than this amount was appropriated for that purpose, without interfering with the regular semi-annual dividends, as the foregoing statements show.

Railroads are so dependent, for the amount of their gross earnings, upon the prosperity of the country through which they run, that they may be considered a good gauge, indicating the prosperity or adversity of such country for the time being. For the last three years there has been so much doubt and want of confidence, growing out of the panic of September, 1873; and uncertainty in regard to the financial policy of the Government, that there has been a general paralysis in all branches of business. With returning prosperity to the country, the gross earnings of your line will increase, and the net of such increase will at least be in the ratio of the net percentage of last year.

It is the purpose of the management of your road to make all improvements of the most approved and substantial character; hence, in the last two or three years, a large amount of iron bridging has been done on the line; and it is our intention to continue this improvement, by adding iron bridges whenever wooden ones, of any considerable importance, need rebuilding.

Last spring, we adopted the use of steel rails entirely, on the Chattanooga division, and laid down 12½ miles in March, April and May, and are now receiving, at Johnsonville, twelve hundred tons more of steel rails for the same division, which will lay about 14 miles more, and to which we expect to add enough to make twenty-five miles during the fiscal year just entered upon—in all, by the 1st of July next, say 37½ miles. This improvement may be continued until that division of your line is entirely laid with steel rails, without making any debt, or interfering with dividends to the stockholders. The steel rails are laid continuously, and the good iron taken up is used to repair iron track on both the Chattanooga and St. Louis divisions; and the damaged iron is disposed of, or re-rolled, for the St. Louis division The saving in the use of steel over iron rails is very great, and when the Chattanooga division is entirely laid with it, will add considerably to the net earnings of the road, and to the dividends to the stockholders.

Eighteen miles of new iron rails were laid during the last fiscal year, in addition to the 12½ miles of steel rails.

The St. Louis division, being comparatively a new road, iron rails will answer for the present tonnage on that line; but in time, steel rails will be required on that road also.

We have a very superior steam excavator employed filling trestles on the St. Louis division; and on that division more improvement and thrift, among the people, is seen, than at any previous time since the purchase of it by your company.

The local freight business of your line increased last year, over the preceding year, $164,636 69, which is a very encouraging feature; and there are interests on the line of your roads being enlarged, and new ones being built up, which promise to add largely to the local business. Prominent among these improvements may be mentioned the enlargement of the coal mines on the Cumberland Mountain, owned by the Tennessee Coal and Railroad Company, by which the facilities for delivering coal to your road, at Cowan, will be greatly increased; and the development of coal in Little Sequatchie Valley, and the erection of blast-furnaces, machine shops, and other iron and steel works, at Battle Creek (South Pittsburg), on the Jasper Branch of your line, commenced by the "Southern States Coal, Iron and Land Company (of England), limited;" with future purpose, on their part, of building up a large business at the points named.

In March, 1876, your directors made a contract with the Southern States Coal, Iron and Land Company (of England,) limited, by which it is expected the coal and iron interest will be developed in Sequatchie Valley, and iron and steel works established at Battle Creek (South Pittsburg,) on the line of the Jasper Branch. The company referred to are now industriously at work, laying the foundation for works at Battle Creek, and opening coal mines in Sequatchie Valley. Your company undertake to extend the Jasper Branch up the Sequatchie Valley for a distance not exceeding fourteen miles. At present only seven and three quarter miles will be built, to their first colliery; which our Engineer estimates will not cost exceeding $90,000, the money to pay for which, the English company is to furnish, and take thirty-year coupon 8 per cent currency bonds at par, with mortgage on the extension only. In addition to this, they guarantee to spend $2,000 on their works at Battle Creek for every $1,000 spent on the extension, besides opening out at least one colliery in Sequatchie Valley, and to expend at least $300,000 in erecting blast furnaces and works at Battle Creek, within five years, and pay contract rates for transportation on main line and branches, which shows the earnestness with which they go into the undertaking.

The company has large means, and it is expected that they will build up a large business. No better location for business upon a large scale could have been selected, as there is both coal and iron ore in the Sequatchie Valley, in close proximity to each other, which greatly facilitates and cheapens the manufacture of iron and steel.

Besides the business developed by this and other companies that may establish themselves in this valley, filled with iron ore and coal, there is a considerable agricultural interest in the valley, which (the lands being rich), will be developed by the extension; all of which will add business to the main line.

It may be interesting to the stockholders for the directors to give, somewhat in detail, the sources from which the revenue of last year was derived:

From local freight proper	$558,829 18
From local passage proper	238,964 08
From shipments from Nashville	114,552 43
From shipments from Chattanooga and points south to Nashville and points north of Nashville	82,902 42
From transfer at Nashville	3,830 52
From freight between Stevenson and Chattanooga	64,929 05
From Stevenson, through cotton	2,567 25
From freight between Wauhatchie and Chattanooga from A. & C. R. R	6,463 00
From United States Mails	38,608 92
From rents and privileges	24,933 85
	$1,136,580 70
Through freight proper	373,093 74
Through passage proper	241,925 43
Total receipts	$1,751,599 87
To the amount of through freight proper, as above	$373,093 74
May be added—Through freight to points north of Nashville, reported above as "from Chattanooga and points south, to Nashville and points north of Nashville"	42,887 23
Making through freight proper	$415,980 97

And of this amount $208,931 08 was received from business both ways over the Louisville and Nashville Railroad, including the stations on the line of the Louisville and Nashville Railroad, Louisville, Cincinnati, and the territory North of the Ohio River, from which both of these cities, and the Louisville and Nashville Railroad, draw business; and $19,493 91 from the St. Louis and Southeastern Railway connecting at Nashville. The balance of through freights proper, say $188,095 98, is derived from connections with the St. Louis division of your line.

Of the above item, $208,391 08, only $40,237 71 was received from and to Cincinnati; $49,703 87 from and to all points in the territory north of the Ohio River by through routes through both Louisville and Cincinnati. The balance, say $118,449 50, was business from and to Louisville proper, and stations on the Louisville and Nashville Railroad.

The passenger business, as shown above, is about equally divided between through and local travel, as follows:

Local	$238,964 08
Through	241,925 43
Total	$480,889 51

Of the above item of through travel, $56,291 34 was received from through travel to and from the Louisville and Nashville Railroad as follows:

From and to Louisville	$15,685 71
From and to Cincinnati	11,736 63
From and to Indianapolis, Chicago, and points east and west thereof, by L. & N. Railroad	28,919 00
Total as above	$56,291 34
From and to St. Louis and Southeastern Railway	9,998 45
From and to Memphis and Charleston Railroad	15,176 50
Balance of through travel	160,459 14

was received from and to Nashville, and points on your road, from and to Memphis, and other connections with the St. Louis division of your line.

The length of road operated by the company is as follows: Chattanooga division, 151 miles; St. Louis division, 170 miles; Jasper branch, 12 miles; Shelbyville branch, 8 miles—total, 341 miles. The receipts per mile of road were $5,186 65, the expenses $2,921 61, and the net receipts $2,215 04.

The rolling stock consists of 83 engines, 26 coaches, 11 baggage, 1 pay, 49 stock, 200 flat, 700 box cars and 2 wreckers. For the maintenance of this outfit there has been expended $141,310 22—upon cars $78,137 21, and upon locomotives $72,173 01. The engines have run 1,380,728 miles, at a cost of 21.7 cents per mile, viz: fuel, 7.5; repairs, 5.3; engineers, firemen and wipers, 7.5; oil, tallow and waste, 0.8; water supply, 0.6. The equipment is in fair order, and fully sufficient for the business of the road.

The passenger trains have run 460,175 miles earning per mile $1 13; freight trains 796,269 miles, earning $1 51—total train mileage 1,256,444; total receipts per train mile $1 39.4, expenses 79 cents, net 60.4 cents. The expenses per train mile were: for road repairs, 23.4 cents; motive power, 24; maintenance of cars, 7; transportation, 19.6; miscellaneous, 5. The car mileage was 12,637,078; earnings 13.8 cents, expenses 7.8 cents, net 6 cents per car mile. The Superintendent in his report says:

The expenses were 57, and the net earnings 43 per cent. of receipts. This ratio of expenses compares favorably with the most prosperous lines of the country, and is six per cent. less than the average upon the 74,658 miles of railway in the United States. While the gross revenue per mile of road is equal to the average upon all Southern and Western roads, the net earnings exceed the average upon Western, and are nearly double that upon Southern Roads.

There has been moved during the year 650 500 tons of freight, of which 220,996 tons were upon the Chattanooga, and 129,504 upon the St. Louis Division.

We have forwarded 35,840 cars from Nashville:

	Loaded.	Empty.
South	19,376	5,354
West	5,169	5,941
	24,545	11,295

Received from—

	Loaded.	Empty.
South	14,872	8,218
West	10,315	81
	24,687	8,299

It is encouraging to note an increase of 34,321 tons in our North bound tonnage, which, though obtained at low rates, yet gives freight for cars that would otherwise return empty. The proportion of cars returning North empty, is less than at any time heretofore; and with the revival of commercial activity in the iron trade, we may reasonably expect a large increase in this class of traffic.

The abundant crops of corn and wheat upon our line, largely increased the local, but decreased the through revenue, as the Southern markets were, to some extent, supplied from our stations instead of from the territory west of us, as heretofore.

It is remarkable that, notwithstanding the increase in our local freight revenue of $164,436 69, indicating renewed prosperity along the line, our local travel has decreased $14,152 23, while the through has increased $6,259 31, and I can only account for this upon the supposition that the resident population have been overwhelmingly in debt, and are using the strictest economy, and travel only when absolutely necessary.

The number of passengers carried west was 92,772, of which 29,865 were through; number carried east 91,225, of which 21,804 were through—total number east and west 183,997, of which 51,669 were through. Total earnings from passengers going west $242,973 73, do. east $237,915 78; total earnings from passengers $480,889 51 of which $230,890 32 was from through passengers, viz: $123 294 99 from passengers going west, and $107,595 33 from passengers going east. Average per through passenger $4 47⅓. Average per local passenger $1 88⅔. General average per passenger $2 61⅓.

The following is a condensed balance sheet, made up from the general books of the company, showing the financial condition of the company for the fiscal year ending 30th June, 1876:

Capital stock		$6,868,899 95
Less amount held by the company		273,604 32
		$6,575,295 63
Nashville and Chattanooga R. R. 4 per cent bonds held by U. S. Gov't (to meet which the company has in reserve $1 000,000 of its forty year 7 per cent bonds)		1,000,000 00
Nashville and Chattanooga R. R. 6 per cent bonds endorsed by the State, (to meet which the company has deposited with the Comptroller of the State $1,100,000 of its forty year 7 per cent bonds)		1,100,000 00
Nashville, Chattanooga and St. Louis Railway 7 per cent forty year bonds		4,700,000 00
Nashville and Chattanooga R. R. unendorsed 6 per cent bonds	$19,000 00	
Less seven bonds held by the company	7,000 00	12,000 00
		$13,387,295 63
Profit and loss		69,147 37
Liabilities:		
Bills payable	$160,872 26	
Nineteen Annuity bonds, running for nineteen years, for $1,500 each, paid annually, and charged to operating expenses	28,500 00	
Due A. Iselin & Co	70,000 00	
Balance due individuals, agents and connecting roads	31,939 80	
June, 1876, pay rolls	43,426 94	
Uncalled-for dividends	18,552 82	
Interest coupons due July 1st, 1876	197,215 00	550,506 82
Unpaid interest on bonds accruing during the war, which, under the Laws of the State of Tennessee, are fundable in State of Tennessee bonds, $148,220, cash valuation, about $74,000		148,220 00
		$14,155,170 32
Road and outfit		$13,387,295 63
Assets not available:		
Stock in Tennessee Central R. R. (taken in connection with purchase of N. & N. W. R. R.)	$20,000 00	
Ten McMinnville and Manchester Railroad bonds (taken before the war)	10,000 00	
Five City of Milan bonds, $100 each, cost	400 00	
Thirteen N. & N. W. R. R. bonds, endorsed by the N. & C. R. R., and one N. & C. R. R. bond, cost	11,800 00	
Real estate, depot grounds, and right of way, not charged to road and outfit	37,249 97	
Mail service N. & N. W. R. R. in payment for engines	66,619 79	
U. S. Government N. & N. W. R. R. account (disputed)	63,228 87	
Supplies and material on hand	79,864 17	
Steam shovel, cost	4,849 71	294,012 51
Assets available:		
Stock in N., C. & St. L. Railway	$316,556 25	
Less amount deducted from capital stock	273,604 32	
	$42 951 93	$10,737 98
Stock in McMinnville & Manchester R. R., cost		45,606 92

General Superintendent.—J. W. Thomas.

Resident Engineer.—R. C. Morris.

General Book-Keeper.—T. D. Flippen.

☞ Hardy and Grant counties, West Virginia, are again agitating the raising, by bonding and subscription, of a sufficient sum to build a railroad from Romney to the iron mines. A motion for a vote on the subject is to be made, and it is thought the road will be an accomplished fact before another year.

Philadelphia and Reading Railroad.

The Philadelphia Ledger says that the anthracite coal trade is in much the same condition as reported by it last week, and that the orders for coal are not as numerous nor as full as could be desired, and then adds:

The business of the month of November it is believed will fall short of that of the month of October, when the Philadelphia and Reading Railroad Company had a coal tonnage of 804,731 tons, a merchandise tonnage of 205,624 tons, and a traffic of 1,410,466 passengers. The Philadelphia and Reading Coal and Iron Company in the same time produced from its own mines 312,000 tons of coal, and the tenants of the company mined 170,000 tons, making an aggregate of 482,000 tons. The gross receipts from railroad traffic alone are over $1 400,000 in October, and, including the business of canals, steam colliers and that of the Coal and Iron Company, the net profit of both companies for the month of October—after payment of rents on leased roads and canals, premium on gold and exchange and renewal fund—will be about $800,000. These facts and figures show not only the wonderful capacity of the Philadelphia and Reading Railroad but also the immense resources of that company. It is proper to state in this connection that the company not only sold all the coal it mined in October, as above stated, but, in addition thereto, reduced its stock of coal on hand in that month 71,000 tons, or, in other words, it sold and disposed of 71,000 tons more than it mined. This is quite encouraging, and gives warrant for hope that this great work may not only be maintained in full vigor to the growing trade of our city, but that it may also recover from its temporary depression, to the full security of its creditors and the ultimate profit of its proprietors.

Central Pacific Railroad Company.

CHIEF ENGINEER'S REPORT.

CENTRAL PACIFIC RAILROAD,
CHIEF ENGINEER'S OFFICE,
SAN FRANCISCO, June 1, 1876.

Hon. Leland Stanford, President:

SIR:—The only surveys of importance undertaken by your company in 1875, were: a preliminary location line, extending from Redding northerly, via the Sacramento river canon, for a distance of 33 miles; and a reconnoisance and partial survey of a line from Winnemucca, Nevada, to the California State line near Goose lake.

The former is an extension of the located and constructed line from Redding, the present terminus of the Oregon division, and embraces some of the heaviest work on the division.

The grades, however, have been kept within the maximum mentioned in my last report (52.8 feet per mile); and the alignment is generally favorable for the economical working of the road.

The survey was discontinued in December on account of the bad weather incident to the season, and has not yet been resumed.

The examination of the Winnemucca line, above mentioned, was made with the view of ascertaining the practicability of a railroad route from the Humboldt valley, Nevada, to the region of the Klamath lakes, in Southern Oregon, and thence across the Cascade mountains to the Willamette Valley; and looking also to a possible connection with your present Oregon route, via Klamath river canon to Shasta Valley.

Owing to the lateness of the season when the survey was commenced, it was found impossible to complete it even to Goose lake, before the commencement of winter.

The results of the survey as far as it was carried, and of the general reconnoisance of the country, embracing a belt of some forty miles in width by about two hundred in length, were not as satisfactory as we had hoped, from the best information we had been able to gather respecting that region, and I regret that we were compelled to quit the field with our work so incomplete.

The short time devoted to the survey cannot be said to have exhausted the possibilities of the country, yet I am compelled to say that, so far as our observations have extended, the probabilities of finding a favorable route in that direction are not at all flattering.

A detailed description of the country examined will more properly belong to a special report of the survey when completed than to the present report.

The routine of work upon the maintenance and repairs of road presents few if any items of interest for a general report.

The year 1875 was unmarked by any new works of importance on the main lines of C. P. R. R., and was also free from any serious disaster by fire or flood.

The injury to the snow sheds and galleries, during the past winter, was not as great as might have been reasonably expected, considering the length of time those structures have been in use, and the unusual service to which they were subjected during the past season. It is proposed to make a few additions to the sheds this Summer, and to build heavy protection walls at a few of the most exposed places.

The work of ballasting, and renewal of the main line with steel rail has been continued, chiefly on the mountain division.

About 50 miles were ballasted during the summer of 1875, and 47.27 miles of steel rail were laid on the main line in the same year.

There were used in construction during the year 14,147, and in repairs 265,226 new ties. The track is everywhere in good condition, notably so where steel rails have been laid and road bed newly ballasted.

The iron rails are retained only so long as is consistent with economy and safety, and, as heretofore stated, all renewals are being made with steel.

The wisdom of the adoption of steel in place of iron rails for all of your main lines is already apparent; not only in the increased durability, but in the decreased cost of repairs on steel track.

All needed repairs of bridges, wharves and other structures have been made.

A new pile bridge has been constructed across Ogden river, and a new channel for the stream, excavated for several hundred feet, thus giving more rapid discharge to the water in time of heavy freshets.

Some of the unimportant trestles on the road have been filled during the past year, and where required culverts have been built in their place. Preparations have also been made for filling the high trestles at New Castle, Auburn, Lovell's Mill (two), Clipper Gap and Secret town the present season. I think it will also be advisable to fill about one-third of the long trestling across the San Joaquin bottoms (Western Division). This will not be necessary this year, but should be done before any general repairs are needed.

The work of reducing the grades on the Oregon division, mentioned in last report, has been continued south from Lincoln to Pleasant Grove creek, and will be completed to the Junction this season.

A new wharf and slip for the ferry boat running between San Francisco and Oakland via San Antonio creek, has been built at the foot of Broadway, Oakland, and will be ready for use by July 1st. It is expected that the increased facilities for crossing the bay which this line will afford will add largely to the already rapidly increasing travel on the ferry routes.

The steamer Capital has been entirely refitted for service on this line, and has ample accommodations for all classes of travel.

The improvement of the channel across the bar at the mouth of San Antonio creek in charge of Col. Mendell, of the United States Engineer Corps, is progressing; the retaining walls are approaching completion, and I am informed by Col. Mendell that he hopes to have from eight to ten feet of water on the bar by the close of the present year.

A section of twenty miles of completed road upon the Oregon division, viz: from the 97.6 to the 117.6 mile was examined and favorably reported on by the United States Commissioners, Edgar Mills, Christopher Green and Jacob Neff, in December last, and has been duly accepted by the Department of the Interior.

No extensions of main lines were made in 1875.

New sidings constructed during the year amounted to 7.98 miles.

The following table shows mileage of main line and branches, December 31st, 1875:

	Miles.	Miles.
MAIN LINE.		
San Francisco to Ogden		882.89
BRANCHES.		
Oregon Division—		
Roseville to Redding	151.45	
Visalia Division—		
Lathrop to Goshen	146.30	
OAKLAND AND ALAMEDA BRANCHES.		
Oakland Wharf to Brooklyn	5.67	
Oakland Point to Masticks	3.79	
Alameda Wharf to Melrose	5.19	
SAN JOSE BRANCH.		
Niles to San Jose	17.54	
		329.94
Total		1,212.83
	Miles.	
Length of sidings, Dec. 31st, 1874	146.32	
	Miles.	
Sidings constructed in 1875	7.98	
Sidings removed in 1875	1.44	
Increase in sidings		6.54
Total sidings, Dec. 31st, 1875		152.86
Total length all tracks, Dec. 31st, 1875		1,365.69

Respectfully submitted,
S. S. MONTAGUE,
Chief Engineer.

Indian Railways.

During the year 1875 a length of 261¼ miles was added to the railway system of British India, making the whole extent completed at the close of that year 6,497¼ miles. Of this length 768 miles are constructed with a double track and 5,729¼ miles with a single track. The standard gauge is 5 feet 6 inches, which is represented by 5,676 miles; otherwise there are 794 miles on the metre or 3 feet 3⅜ inches, and 27¼ on the 4 feet gauge.

The progress of railway construction in British India has been rapid. The first railway built was that portion of the "Great Indian Peninsula" extending from Bombay to Tannah 21½ miles, which was brought into use April 18, 1853. The mileage in operation at the close of successive years has been as follows:

Dec. 31.	Miles.	Dec. 31.	Miles.
1853	21.50	1865	3,368.75
1854	72.00	1866	3,568.00
1855	171.00	1867	3,936.50
1856	274.25	1868	4,016 50
1857	289.75	1869	4,261.00
1858	430.50	1870	4,766.50
1859	624.75	1871	5,072.00
1860	836.25	1872	5,365.75
1861	1,581.50	1873	5,671.75
1862	2,351 50	1874	6,236.00
1863	2,516.75	and,	
1864	2,962.50	1875	6,497.25

For the twenty-three years embraced in the above table the average increase was 282½ miles per annum.

The total of all railways authorized to the close of 1875 is 9,415¾ miles. Of this length 2,916¼ miles are in process of construction.

Indian railways were commenced by chartered

corporations in 1875, when the two great companies the "East Indian" and the "Great Indian Peninsula" were organized. Capital, however, was reluctant, and the panic of 1847 supervening the schemes projected were completely paralyzed, and it became apparent that money could not be raised for the purposes contemplated. At length the Indian Government came to the rescue, and agreed to guarantee to the railway companies for 99 years five per cent on the capital invested in approved lines, and to grant them all the lands needed for their purposes. The guarantee and land grant were conceded on two conditions: first, if any line constructed should fail to earn enough to pay operating expenses, the deficit was to be charged against the companies and deducted from the guaranteed annual interest, so that the government should pay no more than five per cent on the cost; and second, if the net earnings should exceed the five per cent guarantee, so that the line should become self-supporting, the surplus should be divided between the government and the company, until the advances of the government were all repaid with simple interest. It will be seen that this complicated system of financial aid differs considerably from all the systems adopted on the Continent of Europe or in America. It has been, however, as the result proves, admirably adapted to the want which it was intended to supply, and the rapid growth of railways in the country demonstrates its value.

There are other important features of the Indian system which need special notice. One of these is that the government will not be repaid for all its advances unless the railways become self-supporting. If any company is too weak to continue its business it may give up its works to the government after any part of its line has been opened three months. On such surrender the company gets back all the money it has expended upon its works. On the other hand the government at its option, after 25 or 30 years may either purchase the lines at a price equal to the mean value of the shares for the three previous years or the government may pay a proportionate annual sum, till the expiration of the 99 years for which the concession was originally granted. In all cases the railways, with their lands and works, will revert to the government at the close of the ninety-nine years.

The total of all concessions under this system covers 6,209½ miles and has a constructed length of 5,684½ miles. These lines are known under the title of "Guaranteed Lines." Besides these the Indian Government has constructed at its own cost and directly owns authorized lines to the extent of 3,042¼ miles and a constructed length of 688¾ miles. These are technically known as "State Lines." The native governments have also constructed railways to the extent of 164 miles. The total of these lines is 9,415¾ miles, of which, as before shown, 6,497¼ miles were in operation at the close of last year.

The equipment of the guaranteed lines is reported to have been on December 31, 1875, as follows:

Locomotive engines	1,361
Passenger carriages	4,168
Goods, trucks and wagons	25,156
	29,324

The capital invested in the Indian railways to March 31, 1876, was £105,790,929, of which £93,720,794 consisted of guaranteed capital and £12,070,135 of capital contributed by the government. These figures show the cost of guaranteed lines has averaged £16,460 or $82,300 per mile, and the cost of the state lines £15,030, or $75,150 per mile. The average cost of all the lines is £16,280 or $81,400 per mile.

The whole of this money may be said to have been contributed by English capitalists. Natives of India contributed but 1.56 per cent of the whole 105 millions sterling. This is an astounding fact in the light of 235 millions of people who directly or indirectly share in the advantages conferred upon their country by these railways.

The fiscal result of operating the Indian railways in 1875 sums up as follows:

Passenger traffic	£2,459,043
Goods traffic	4,703,509
Miscellaneous	249,527
Total	£7,412,179
Working expenses	3,764,311
Net revenue	£3,647,868

The amount of guaranteed interest paid to the companies was £4,703,509; which exceeded by £1,078,832 the whole net revenue.

Kansas Pacific Railway.

Mr. Adolphus Meier, of St. Louis, trustee of the Kansas Pacific Railway land grant, makes the following statement:

The Kansas Pacific Railway Company having been compelled to default on the interest coupons of their first mortgage bonds, owing to the non-paymont of a large sum of money due said company by Government for the transportation of mails, troops, etc., (notwithstanding the decision of the Supreme Court of the United States that such claims should be paid), as also a falling off in business caused by the general depression of commercial affairs, and further the competition of a new railroad, I deem it my duty to land grant bondholders to place before them some information on the present state of this land grant under my charge as trustee.

This land grant is entirely distinct from the other property of the railway company, and consists of 2,300,000 to 2,400,000 acres of land, situated on both sides of the road (within 20 miles of same), between the eastern terminus and the 380th mile post west, and these lands are mortgaged for the payment of 4,000 land grant bonds in the amount of $2,000,000 00

Of which have been redeemed by the proceeds of land sold		308 000 00
Leaving unpaid and maturing July 1, 1880		$1,692,000 00
I hold now in cash	$31,418 04	
Obligations for land sold, secured by same and due at different periods (as per abstract made September 30)	514,787 79	
		546,205 83
So that after collection of the latter and using the funds to pay bonds there would be due on these bonds		$1,145,794 17

There are besides 2,000,983 acres of land or more unsold. These if sold at a price of about 60 cents per acre net would suffice to redeem the bonds at par. The sales of land under this land grant up to September 30 were 303,266.17 acres at an average price of $3 38 per acre. Part of the moneys collected, in all $127,344 71, has been used during the last two years to assist the railway company to pay interest on these bonds in conformity with the conditions of the deed of trust.

The railway company having now suspended the payment of interest of the funded debt, I shall use the funds in my hands as trustee and such as I may collect hereafter as follows, viz:

1. To pay the interest coupons on the certificate issued for extended coupons due January 1, 1877.

2. For paying the next interest coupons falling due thereafter as soon as I have sufficient money to redeem a full coupon of the bonds out, and

3. Any surplus I shall invest in the purchase of these first land grant bonds in conformity with the terms of the deed of trust.

These bonds are taken at par and accrued interest for lands belonging to this land grant, and it appears that there hardly can be a reasonable doubt but that they will be redeemed in full with interest, though this may be not at the date they fall due. The holders of the bonds should consider this, and not sacrifice them unless they entertain a different opinion. The above lands are, besides, subject to a second mortgage for $1,500,000, due September 1, 1886, bearing interest at 7 per cent per annum, and after liquidation of the bonds under the first mortgage I shall proceed with the same in like manner as above, but no interest can be paid on these second mortgage bonds until the first mortgage bonds are paid in full with interest. It may well be expected that the lands will be sold at prices that will insure full payment of these second land grant bonds. I have resigned as president and director of the Kansas Pacific Railway Co., as these positions might come in conflict with my duties as trustee, which latter will have due attention.

North Pacific Coast Railroad.

The following brief description of the North Pacific Coast Railroad is from the San Francisco Bulletin:

The first division of the road draws near to completion. The rails are already laid to within three miles of the Russian river, and before this is in print daily passenger trains will be running to Howard's station, eight miles from the river and sixteen miles from Tomales. This station is 500 feet above tide water and on the summit of the divide between the waters which flow into Russian river on the north and Bodego Bay on the south. For nearly two years Tomales has been the inland terminus of the road, and for eighteen months of that time a daily passenger train has made the trip both ways without a single accident and without the change of a wheel on the cars. Leaving San Francisco by either the Saucelto or San Quentin ferries the trains unite at the junction a mile beyond San Rafael, and then begin the climb of White's Hill. For bold engineering, shifting scenery, sharp curves and giddy trestles, this ascent is not surpassed by any equal distance of any other road on the coast. Doubling on itself several times in order to gain height, the passenger can scarcely believe that the road he sees so far below is the same he has just passed over.

Telegraph Contract Enforced.

In the case of the Western Union Telegraph Company vs. The Atlantic and Pacific Telegraph Company et al., in the District Court of Hamilton county, Ohio, on appeal from the Court of Common Pleas, Judge Force rendered a decision on the 13th inst. granting a permanent injunction restraining the Atlantic and Pacific Telegraph Company from erecting and maintaining a line of telegraph on the Cincinnati, Hamilton and Indianapolis Railroad in Ohio, holding that the contract made between the Western Union Company and the railroad company for an exclusive right of way was binding upon the latter, notwithstanding there had been a sale of the road, and that the contract in question was not so far in restraint of trade as to be against public policy or obnoxious to a court of equity, and that it would be enforced.
